To Her Excellency

The Right Honourable Jeanne Sauvé,
P.C., C.C., C.M.M., C.D.,
Governor General and
Commander-in-Chief of Canada.

MAY IT PLEASE YOUR EXCELLENCY:

The undersigned has the honour to present to Your Excellency the Public Accounts of Canada for the year ended March 31, 1984.

All of which is respectfully submitted.

Robert de Cotret,
President of the Treasury Board.

OTTAWA, NOVEMBER 16, 1984

To The Honourable Robert de Cotret,
President of the Treasury Board.

In accordance with the provisions of Section 55(1) of the Financial Administration Act, I have the honour to transmit herewith the Public Accounts of Canada for the year ended March 31, 1984, to be laid by you before the House of Commons.

Respectfully submitted,

Harvie Andre,
Receiver General for Canada.

OTTAWA, NOVEMBER 16, 1984

To The Honourable Harvie Andre,
Receiver General for Canada.

Sir:

I have the honour to submit the Public Accounts of Canada for the year ended March 31, 1984.

Under Section 55(1) of the Financial Administration Act, the Public Accounts for each fiscal year shall be prepared by the Receiver General and shall be laid before the House of Commons by the President of the Treasury Board on or before the thirty-first day of December next following the end of that year, or if the House of Commons is not then sitting, within the first fifteen days next thereafter that the House of Commons is sitting.

This annual report is presented in three volumes:

Volume I—A survey of the transactions for the year including summary statements; the financial statements of Canada on which the Auditor General has expressed an opinion, namely, the statements of transactions, of revenue and expenditure on a gross and net basis, of the assets and liabilities of Canada and of the use of appropriations together with related notes; the observations by the Auditor General on the financial statements of Canada; analyses of outlays and appropriations; analyses of budgetary revenue and expenditure, and of asset and liability accounts, together with those statements required by the Financial Administration Act to be published in the Public Accounts, and various other schedules and statements.

Volume II—Details of the financial operations of the Government, segregated by department.

Volume III—The financial statements of Crown corporations and the auditors' reports thereon.

The audited financial statements, contained in Volume I, are for the year ended March 31, 1984. They are, however, dated September 17, to allow for the closing and audit of accounts.

Respectfully submitted,

Pierre P. Sicard,
Deputy Receiver General for Canada.

INTRODUCTION TO THE PUBLIC ACCOUNTS

Nature of the Public Accounts

The Public Accounts is the report of the Government of Canada prepared each fiscal year by the Receiver General as required by Section 55 of the Financial Administration Act.

The report covers the fiscal year of the Government, which ends on March 31, and is prepared from data contained in the accounts of Canada and from more detailed records maintained in departments and agencies. The accounts of Canada is the centralized record of the Government's financial transactions maintained by the Receiver General in which the transactions of all departments and agencies are summarized. Each department is responsible for agreeing its accounts to the control accounts of the Receiver General, and maintains detailed records of the transactions in those accounts.

The report covers the financial transactions of the Government during the year. In certain cases, parliamentary authority to undertake transactions was provided by legislation approved in earlier years. The report also includes the financial statements of those Crown corporations and other bodies whose accounts are maintained separately from the accounts of Canada. The financial year of a number of these corporations and other bodies is the calendar year rather than the fiscal year of the Government.

Format of the Public Accounts

The Public Accounts is produced in three volumes.

Volume I

Volume I presents a summary and analysis of the financial transactions of the Government. The content of the sections of Volume I can be summarized as follows:

SECTION 1: summary statements of the financial transactions of the Government of Canada on both a Public Accounts and an Extended National Accounts basis;

SECTION 2: audited financial statements of the Government of Canada, prepared in accordance with Section 55 of the Financial Administration Act;

SECTION 3: observations by the Auditor General on the financial statements;

SECTION 4: review of envelopes and outlays, and Estimates and appropriations;

SECTION 5: review of budgetary revenue;

SECTION 6: review of budgetary expenditure;

SECTION 7: analysis of loans, investments and advances;

SECTION 8: analysis of specified purpose accounts;

SECTION 9: analysis of other liabilities;

SECTION 10: analysis of foreign exchange accounts;

SECTION 11: analysis of unmatured debt;

SECTION 12: analysis of other accounts reported on the Statement of Assets and Liabilities;

SECTION 13: supplementary information required by the Financial Administration Act; and,

SECTION 14: other miscellaneous information.

Volume II

Volume II presents the financial operations of the Government, segregated by department. It contains financial operations of individual departments and their associated agencies, and additional information and analysis.

(a) DEPARTMENTAL FINANCIAL OPERATIONS

In a fashion similar to the Estimates, Volume II uses a uniform set of statements to present each department's financial operations. In most respects, the level of detail is the same as in the Estimates, and provides the following information:

(i) Use of Appropriations

This is the principal departmental statement. It is a summary of the use of the authority given by Parliament in appropriation acts and other statutes. It displays, by program:

—the wording of the relevant appropriations or statutes;

—the amount authorized under each appropriation or statute;

—the total use made during the year of the authorized amounts;

—unexpended balances (amounts lapsed and carried forward) or amounts overexpended; and,

—total use for the previous year.

(ii) Total Cost of Programs—Budgetary

This table shows the total calculated cost for each program, by adding to budgetary expenditure, the values of services provided by other departments, and of accommodation provided by the reporting department and by the Department of Public Works, and by deducting non-tax receipts credited to revenue.

The total calculated program cost is also reflected in the Estimates and in the Public Accounts in the "Programs by Activity" table.

(iii) Programs by Activity—Budgetary

This is a comparison of budgetary appropriations with actual expenditures and the imputed costs and revenues referred to in (ii). The table displays total program expenditures by activity and type of vote, and total cost of programs by type of vote. It is related to the "Program by Activities" table displayed in the Estimates.

(iv) Grants and Contributions

This table displays details of amounts appropriated for grants and contributions, by class of recipients and by program, and the payments.

(v) Budgetary Expenditure by Program and Standard Object

This table presents expenditure by standard object and relates to the "Objects of Expenditure" table shown in the Estimates.

(vi) Revenue

Each department displays summary and detailed statements of revenue collected as part of its operations.

(vii) Revolving Funds

The commercial orientation of a revolving fund is reflected in the balance sheet and statement of operations, or income and expenditure, presented each year. A revolving fund's minimum goal is the recovery of cost, and most commercial accounting conventions are used to measure cost.

(viii) Other Organizations

To further the objectives of the Government and of departments, various boards, agencies, commissions and accounts have been created by appropriation acts and other legislation. Financial statements for these organizations and accounts are also shown.

(b) ADDITIONAL INFORMATION AND ANALYSIS

Further details are provided, in Volume II, to supplement the statements already presented. This supplementary information includes:

—accounts receivable and deletions (Section 30);

—professional and special services (Section 31);

—construction and acquisition of land, buildings, machinery and equipment (Section 32);

—payments of damage claims, ex gratia payments, Federal Court awards and nugatory payments (Section 33);

—selected miscellaneous payments and federal-provincial shared-cost programs (Section 34);

—grants and contributions (Section 35); and,

—miscellaneous statements by department (Section 36).

Volume III

Volume III contains the financial statements of those Crown corporations which are permitted by legislation to keep their own accounts. These are Schedules C and D (agency and proprietary) corporations, as well as the Bank of Canada and The Canadian Wheat Board which, although not designated as Crown corporations, act as agents of Her Majesty. It also contains the financial statements of wholly-owned subsidiaries of Crown corporations whenever their accounts are not consolidated with those of the parent corporation. The activities of Schedule B (departmental) corporations are reported by the responsible departments in Volume II, either under departmental budgetary expenditure or in separate reports.

INTRODUCTION

In this section, the financial transactions of the Government of Canada are set out in summary form, with comparative figures for the previous four years. The financial transactions are first presented according to the accounting policies explained in Note 1 to the audited financial statements in Section 2 of this volume, referred to as the Public Accounts presentation; the second presentation is on the National Income and Expenditure Accounts basis, extended to encompass other financial transactions affecting the Consolidated Revenue Fund. This second form of presentation is referred to as the Extended National Accounts presentation.

This section is intended to provide an overview of the Government's financial operations, both on the Public Accounts basis and on the Extended National Accounts basis. The Public Accounts presentation reflects the accounting procedures and conventions which have been adopted in providing Parliament with an accounting of the source and use of financial resources. The National Accounts transactions section of the Extended National Accounts presentation is designed primarily to facilitate economic analysis of the federal Government sector on a basis consistent with that used in measuring income and expenditure flows in the economy. The remaining sections show the relation between the traditional budget balance on the National Accounts basis and the Government's overall financial requirements, debt transactions and cash position.

Public Accounts Presentation

The "Summary Statement of Transactions" table provides aggregate data on the major categories of transactions under four main headings: budgetary, non-budgetary, foreign exchange and unmatured debt. The resulting cash position at the end of each year is also shown.

The form of presentation is consistent with the tables presented in the Budget Speech, the presentation in the Department of Finance's Economic Review and the Statement of Financial Operations published each month in the Canada Gazette, and is compatible with other sections of the Public Accounts.

For purposes of comparability, budgetary revenue and expenditure in this section treat Canada Post as a Crown corporation for all years. This corporation was proclaimed on October 16, 1981.

It should be noted that figures for budgetary and non-budgetary items in the Public Accounts presentation for 1979-80 and 1980-81 have not been adjusted to take account of some minor changes in departmental responsibilities and classification of accounts which may have occurred. Most components are, however, comparable from one year to the next.

Non-budgetary transactions have been defined to include subscriptions and notes payable to international organizations other than the International Monetary Fund. These transactions had previously been recorded as foreign exchange transactions.

Extended National Accounts Presentation

This section presents the Government's financial transactions on the Extended National Accounts basis. As in the Public Accounts presentation, the transactions are categorized under four main headings: the traditional National Income and Expenditure Accounts which are referred to as National Accounts transactions, loans and other transactions, foreign exchange and unmatured debt transactions. The resulting cash position at the end of each year is also shown. Starting with the line entitled "Financial requirements (excluding foreign exchange transactions)", the Extended National Accounts presentation is identical to the Public Accounts presentation.

The total for loans and other transactions will differ from the non-budgetary transactions in the Public Accounts presentation due, in part, to differences in coverage. Loans to certain agencies such as Atomic Energy of Canada Limited, as well as advances to certain special funds, are excluded in arriving at the total of loans and other transactions on the Extended National Accounts presentation, because transactions of these agencies and special funds are included in the National Accounts transactions. Similarly, the receipts and disbursements of Government pension and social security accounts, such as the Unemployment Insurance Account, are included in the National Accounts. As a result, they are not included in the loans and other transactions adjustment. In determining the surplus or deficit on a National Accounts basis, certain revenue items, such as corporate income tax, are reflected on an accrual, as opposed to a cash basis. The loans and other transactions category includes the adjusting entry required to convert from an accrual basis of revenue and expenditure to a cash basis.

SUMMARY STATEMENT OF TRANSACTIONS—PUBLIC ACCOUNTS PRESENTATION

Total financial requirements, excluding foreign exchange transactions, amounted to $25,082 million for the year ended March 31, 1984. The budgetary deficit of $32,589 million was partially offset by a source of $7,507 million for non-budgetary transactions. Foreign exchange transactions decreased requirements by $447 million. Total financial requirements were $24,635 million in 1983-84. These transactions, together with the $26,468 million increase in unmatured debt, resulted in a $1,833 million increase in the cash balance, bringing the March 31, 1984 cash balance to $6,412 million.

Table 1.1.1 sets out the financial transactions of the Government for the five years 1979-80 to 1983-84. Figures for individual fiscal years in this table are not comparable because of changes in accounting policies that have been introduced in the five years.

Table 1.1.2 adjusts the figures in Table 1.1.1 and presents them on a comparable basis for all the years 1979-80 to 1983-84.

I. Budgetary Transactions

A. Revenue

Total budgetary revenue increased $1,203 million or 2.2% to $56,326 million in 1983-84. Tax revenue increased $1,362 million and was partly offset by a $159 million decrease in non-tax revenue. Increases in tax revenue were recorded in personal income tax, corporation income tax, the sales tax, the petroleum and gas revenue tax and the incremental oil revenue tax, the excise taxes and duties and the customs import duties.

Personal income tax revenue increased $637 million or 2.4% compared to 9.5% in 1982-83. The growth in 1983-84 revenue was curtailed by the slow growth in 1983 of wages, salaries and supplementary labour income at about 5.5% compared to 7% in 1982. In addition, the 1983 indexation factor of 6% and higher child tax credit payments helped reduce revenue collections.

Corporate income tax collections were $7,286 million in 1983-84 or $147 million above the 1982-83 level of $7,139 million. Despite an estimated increase of 54.8% in 1983 corporate profits, the ability of corporations to apply prior years' losses to the higher level of taxable income served as a moderating influence on 1983-84 revenue growth.

On the energy side, however, 1983-84 revenue collections were lower, at $3,231 million compared to $4,024 million in 1982-83.

Revenues from the sales tax and customs import duties increased 13% and 19.4% respectively from the 1982-83 levels, due to a rebound in consumer and business spending in 1983, along with an increase in imports.

Non-tax revenue declined to $5,657 million in 1983-84 from the 1982-83 level of $5,816 million, partly because of lower transfers of profits from the Exchange Fund Account on account of lower gold sales, lower interest on bank deposits and lower Bank of Canada profits.

B. Expenditure

Budgetary expenditure in 1983-84 increased 11.1% to $88,915 million, compared to increases of 15.2% in 1982-83 and 18.9% in 1981-82.

Contributions to the provinces for hospital insurance, medical care, and extended health care services increased 37%, or $1,504 million, to $5,564 million in 1983-84. This large increase in the Established Programs Financing (EPF) entitlements, which grow with the Gross National Product (GNP), reflects the impact of the June 1983 historical revisions made by Statistics Canada that resulted in the reporting of higher GNP levels. In addition, increased cash payments to the provinces for these programs were required as a result of the lower estimates of the value of the tax points transferred to the provinces. The post-secondary education component of the EPF arrangements increased by $575 million to $2,252 million, slightly less than the hospital insurance and medical care component, because of the limitation imposed under the 6 and 5 percent restraint program.

Public debt charges rose $1,175 million, or 6.9%, to $18,146 million in 1983-84, reflecting an increase in the unmatured debt outstanding during the year. Interest rates, however, were lower than in 1982-83 and this resulted in a decline in the growth rate of public debt charges from 11.9% in 1982-83.

National Defence expenditures rose $980 million, or 14%, to $7,972 million in 1983-84. This reflects the Government's North Atlantic Treaty Organization commitment to increase defence expenditures by about 3% in real terms per annum.

Old age security payments, including guaranteed income supplements and spouses' allowances, rose to $10,406 million or 7.9% above the level in 1982-83 of $9,643 million. This is below the increase in 1982-83 of 12.3% because of the application of the 6 and 5 percent limits and slower growth in the number of recipients.

The Government's contribution to the Unemployment Insurance Account increased 32.9% or $706 million, to $2,854 million as a result of the continuing high unemployment levels and a combination of factors concerning the number of new entrants and exhaustees. The effects of the recession and high unemployment levels throughout 1983-84 account for the 16.1% increase of $456 million in Canada Assistance Plan payments to $3,288 million.

Whereas the Petroleum Compensation Account recorded net receipts of $35 million in 1982-83, the Account registered a deficit of $483 million in 1983-84 mainly due to a sharp decline in petroleum compensation revenues compared to lower gross compensation payments. This accounts for the increase of $518 million in expenditures for 1983-84.

Other departments and agencies where notable increases occurred over 1982-83 were: Agriculture, $197 million or 18.6%; Canadian International Development Agency, $156 million or 16.7%; Indian Affairs and Northern Development, $371 million or 22.1%; Social Development, $325 million or 61.2% (equity payments to Canadair and de Havilland increased from $400 million in 1982-83 to $850 million in 1983-84); and, Transport, $351 million or 12.1%.

A decrease in budgetary expenditure was recorded under the Petroleum Incentives Program which dropped $80 million in 1983-84 to $1,729 million from $1,809 million in 1982-83. Expenditures reported under Communications fell $147 million, or 9.3% to $1,429 million in 1983-84 as payments to the Canada Post Corporation for costs associated with cultural publication mailings decreased to $53 million in 1983-84 from $307 million in 1982-83.

II. Non-budgetary Transactions

A. Loans, Investments and Advances

In 1983-84, requirements for loans, investments and advances were $625 million, or $754 million above the 1982-83 level. The increase reflects the $1,350 million reduction in 1983-84 in the allowance for valuation. In 1982-83, the increase in the allowance reduced the requirement for total loans, investments and advances by $1,650 million; excluding the allowance, the requirement for total loans, investments and advances decreased by $596 million in 1983-84.

Loans, investments and advances to Crown corporations and agencies designated as lending institutions changed by $381 million, from a net requirement of $259 million in 1982-83 to a net repayment of $122 million in 1983-84, as a result of net repayments by the Canada Mortgage and Housing Corporation, the Federal Business Development Bank and the Canada Deposit Insurance Corporation. There were also lower requirements for the Farm Credit Corporation and the Export Development Corporation.

Loans, investments and advances to other Crown corporations and agencies declined $317 million in 1983-84 despite an increase of $155 million in payments to Petro-Canada. The substantial decline reflects principally a change of $369 million in loans to the Canadian Dairy Commission, from a net requirement of $184 million in 1982-83 to a net repayment of $185 million in 1983-84. With respect to loans, investments and advances to other than Crown corporations and agencies, requirements for international organizations were $122 million above the 1982-83 level.

B. Specified Purpose Accounts

Specified purpose accounts changed from a net requirement of $220 million in 1982-83 to a net source of $5,157 million in 1983-84. This change of $5,377 million was principally attributable to $2,830 million lower net requirements for the Unemployment Insurance Account which had a requirement of $459 million in 1983-84. This reduced requirement is attributable to a $2,426 million increase in employer-employee contributions resulting from the January 1, 1983 increase in the employee contribution rate to $2.30 per $100 of insurable earnings.

The remaining $2,547 million change in the net source is, in part, attributable to the provincial tax collection agreements account ($661 million) and the Canadian Ownership Account ($765 million). The provincial tax collection agreements account balances fluctuate from year to year. In 1983-84, there was a reduction of $850 million in payments from the Canadian Ownership Account. In addition, there was no requirement in 1983-84 for the Oil Export Charges Sharing Account; in 1982-83, this requirement was $445 million. The superannuation accounts provided $379 million more in funds in 1983-84 than they did in 1982-83. There were also additional net receipts from miscellaneous deposit and trust accounts.

C. Other Transactions

Other transactions provided a net source of $2,975 million in 1983-84 compared to $1,713 million in 1982-83. The increase of $1,262 million is principally attributable to cash in transit ($1,425 million). Interest and matured debt was lower in 1983-84 ($731 million), but there were additional net receipts from accounts payable ($317 million) and outstanding cheques and warrants ($308 million).

III. Foreign Exchange Transactions

Foreign exchange transactions include the operations of the Exchange Fund Account, the objective of which is to assist in maintaining orderly conditions in the exchange markets and to effect foreign currency payments by various departments for the purchase of goods and services. Also included in foreign exchange transactions are subscriptions and notes payable to the International Monetary Fund, together with Special Drawing Rights. Total foreign exchange transactions provided a source in Canadian dollars of $447 million in 1983-84 compared to a requirement of $1,177 million in 1982-83.

IV. Unmatured Debt Transactions

Marketable bonds payable in Canadian currency increased in 1983-84 by $8,507 million and Canada savings bonds by $5,563 million; net sales of Treasury bills amounted to $12,575 million. In total, net unmatured debt payable in Canadian currency increased by $26,468 million in 1983-84 compared to an increase of $22,392 million in 1982-83.

V. Cash Balance at End of Year

Financial requirements, including foreign exchange transactions, amounted to $24,635 million. This was more than offset by an increase of $26,468 million in unmatured debt transactions. The excess of the increase in unmatured debt over financial requirements resulted in an increase in the cash balance at March 31, 1984 to $6,412 million, or $1,833 million above the March 31, 1983 level of $4,579 million.

SUMMARY STATEMENT OF TRANSACTIONS—EXTENDED NATIONAL ACCOUNTS PRESENTATION

The National Income and Expenditure Accounts were developed as a basis for economic analysis of income and expenditure flows in the economy. The concepts and definitions applied to the Government sector are consistent with those applied to other sectors and follow international practices developed under the aegis of the United Nations. The economic nature of a transaction is the determining factor in its classification within the National Accounts framework. The Extended National Accounts present, in addition to the traditional National Accounts revenue, expenditure and balance shown here under the heading "National Accounts transactions", the items which account for the difference between the National Accounts budget balance and total financial requirements on the Public Accounts basis.

In 1983-84, National Accounts transactions resulted in a deficit of $24,735 million. Loans and other transactions represented a net requirement of $347 million. Foreign exchange transactions decreased requirements by $447 million and unmatured debt transactions provided a source of $26,468 million. As previously noted, foreign exchange and unmatured debt transactions are identical to those reported in the Public Accounts presentation.

I. National Accounts Transactions

A. Revenue

On a National Accounts basis, total revenue increased $4,648 million or 6.9% in 1983-84. This compares with an increase of $1,203 million or 2.2% on a Public Accounts basis. The differences in growth rates relate to conceptual differences in treatment between the National Accounts and the Public Accounts.

These conceptual differences are mainly as follows:

(*a*) There are differences in the treatment of energy taxes. In the National Accounts, the Petroleum Compensation Charge and the Canadian Ownership Charge collections are included in revenue while these items are excluded from revenue in the Public Accounts. In 1983-84, these items amounted to $1,833 million and $837 million or respectively 35.7% and 4.9% below the 1982-83 levels. Recording of Petroleum Compensation Charge revenue is on an accrual basis in the National Accounts.

(*b*) Direct taxes on persons in the National Accounts include employer-employee contributions to unemployment insurance and Government pension funds. These items, which are excluded from Public Accounts budgetary revenue, amounted to $9,114 million in 1983-84; this was 38% above the 1982-83 level of $6,604 million.

(*c*) Investment income on a National Accounts basis does not include profits from gold sales, which are included in the Public Accounts. However, in addition to the other "return on investments" categories of the Public Accounts, the National Accounts investment income includes interest on superannuation accounts and imputed banking services and is reduced by the amount of deficits of Government business enterprises. Interest on superannuation accounts, imputed banking services and Government business enterprise deficits amounted to $3,303 million, $81 million and $1,261 million respectively in 1983-84, compared to $2,910 million, $64 million and $1,116 million respectively in 1982-83. For these three categories together, the growth was $555 million in 1983-84 or 13.6%.

(*d*) In the National Accounts, corporate tax revenue is recorded on a liability basis rather than on the Public Accounts collection basis. In addition, the National Accounts amount includes the Petroleum and Gas Revenue Tax and the Incremental Oil Revenue Tax, which are reported as a separate item in the Public Accounts presentation of revenue. In 1983-84, corporate liabilities increased $1,499 million or 15.8% compared to an increase of $147 million or 2.1% for collections on a Public Accounts basis.

(*e*) In addition, the National Accounts include capital consumption allowances which are excluded from the Public Accounts. In 1983-84, capital consumption allowances amounted to $1,176 million or 12.1% above the 1982-83 level of $1,049 million.

With respect to the broad categories, direct taxes from persons on a National Accounts basis increased in 1983-84 by $2,504 million or 7.5%. As already indicated, corporate liabilities were up $1,499 million or 15.8%. Indirect taxes were down $57 million or 0.3% reflecting declines in petroleum compensation revenue and the Natural Gas and Gas Liquids Tax. Investment income rose $631 million or 10.3%, reflecting higher interest earned on Government-held public funds.

B. Expenditure

Federal Government expenditure on a National Accounts basis was $96,963 million in 1983-84, an increase of $7,435 million or 8.3% over 1982-83. This compares with growth rates of 18.3% in 1982-83 and 20.4% in 1981-82.

Transfer payments to other levels of government increased to $18,532 million, or 15% in 1983-84 compared with growth rates of 10.8% in 1982-83 and 12.9% in 1981-82. While payments under the taxation agreements increased slightly by $393 million, or 7.4%, to $5,716 million, federal contributions to the provinces for hospital insurance, medical care and post-secondary education increased 39.9% in 1983-84 to $6,689 million. Payments to the provinces under the Established Programs Financing arrangements were up significantly on account of the adjustments associated with the historical revisions to the National Income and Expenditure Accounts, in June 1983, that raised GNP levels, and also by the lower estimates of the value of the tax points that were offset by larger cash transfers to the provinces. Canada Assistance Plan payments to the provinces rose $448 million, or 15.5%, to $3,338 million in 1983-84 because of continuing high levels of unemployment.

Transfer payments to persons increased $2,356 million or 9.1% in 1983-84 compared with rates of increase of 31.5% and 15.6% in 1982-83 and 1981-82 respectively. The largest increase in this category occurred in other transfers to persons which grew $1,008 million or 31.9% in 1983-84 due mainly to the Government's job creation programs and contributions to native peoples for the provision of education, economic and social services. In addition, old age security benefits grew 7.9%, or $751 million to $10,296 million in 1983-84. The increase in unemployment insurance benefits of 3.1% or $298 million to $9,883 million reflects slight declines in the number of beneficiaries and eligible benefit weeks. Following increases of 13.7% in 1981-82 and 14.5% in 1982-83, Government pensions for 1983-84 increased 13.8% to $1,687 million.

Total current goods and services grew 6.3% to $20,454 million which is well below the increases of 17.8% in 1981-82 and 13.1% in 1982-83. Defence goods and services expenditures increased $646 million, or 9.2%, in 1983-84, while non-defence goods and services expenditures increased $573 million, or 4.7%, to $12,773 million. Wages, salaries and supplementary labour income increased $840 million, or 8.7% to $10,461 million, while military pay and allowances increased $208 million, or 9.3%, to $2,440 million in 1983-84. Other current goods and services remained relatively the same as in 1982-83, increasing only $44 million, or 0.7%, to $6,377 million in 1983-84.

Interest on the public debt rose $1,094 million or 6.5% in 1983-84, compared to increases of 13.2% in 1982-83 and 40.9% in 1981-82, because of declining interest rates that mostly offset the increase in outstanding debt.

The substantial increase in gross capital formation of 31.1%, or $416 million, to $1,753 million reflects the start-up of new capital projects under the Special Recovery Capital Projects Program introduced in the April 1983 budget. The growth in current transfers to non-residents of 17.5%, or $187 million, in 1983-84 to $1,256 million, reflects the Government's commitment to attain expenditure levels for Official Development Assistance of 0.5% of GNP by 1985-86.

For the second consecutive year, subsidies decreased in 1983-84, by $113 million or 1.9% to $5,717 million. This is explained by the substantial decline of $847 million in 1983-84 for oil import compensation payments to $578 million, which more than offset the increase in synthetic oil subsidies of 10.5% to $1,684 million. Oil import compensation payments fell because of the convergence of the world and domestic price of oil in 1983-84. The other subsidies category grew 19.9% to $3,455 million mainly because of contributions to the railways for revenue losses. In addition, capital assistance declined 4.7%, or $147 million, to $2,975 million in 1983-84 as the bulk of the payments under the Canadian Home Ownership Stimulation Plan occurred during 1982-83 and on account of the decline in the Canadian Home Insulation Program in 1983-84.

II. Loans and Other Transactions

A. Loans, Investments and Advances

Loans, investments and advances, on an Extended National Accounts basis, were a requirement of $834 million in 1983-84, a change of $1,135 million from the 1982-83 source of $301 million. As with the Public Accounts basis, the increase in loans, investments and advances reflects the $1,350 million reduction in the allowance for valuation to $300 million in 1983-84, as compared to $1,650 million in 1982-83. Loans, investments and advances to lending institutions provided a source of $166 million in 1983-84 compared to a requirement of $219 million in 1982-83.

B. Accrual Accounts

This category reflects mainly the difference between the modified cash recording on the Public Accounts basis and the accrual recording of the National Accounts basis. The category also records several items such as cash in transit, accounts payable and accrued interest; these items are generally of a capital nature and are not included in the National Accounts revenue and expenditure categories. These accrual accounts were a requirement of $171 million in 1983-84 as compared to $909 million in 1982-83.

C. Other Transactions

Other transactions provided a source of $658 million in 1983-84 compared to a requirement of $700 million in 1982-83. This category includes the provincial tax collection agreements account and deposit and trust accounts that are not included in National Accounts revenue and expenditure.

PREFACE TO THE AUDITED FINANCIAL STATEMENTS OF THE GOVERNMENT OF CANADA

The accounting policies adopted by the Government and summarized in Note 1 to the financial statements, are the result of continuing development over the years, and form the basis for the preparation of the financial statements, designed primarily to provide an accounting of the financial resources appropriated by Parliament. The fundamental requirement to report compliance with legislative authority results in the presentation of financial information in a manner significantly different from that found in the private sector. The accrual basis of accounting used in the private sector best reflects the costs incurred to earn revenues; the policies followed by the Government, under which revenue is on the cash basis and expenditure (use of appropriations) is generally on the accrual basis, best accommodate reporting to Parliament.

The four financial statements in this section, together with the accompanying notes, are presented for audit in compliance with Section 55 of the Financial Administration Act. These statements form the basis of the Government's accounting for the management of the financial authorities granted by Parliament. Other sections in this volume, together with Volumes II and III of the Public Accounts, are designed to provide information supporting the financial statements.

The first financial statement is the Statement of Transactions, which summarizes all transactions of the Government, as defined in Note 1 (ii) to the financial statements, and shows how the financial requirements were met, and the effect of all transactions on the cash balance. The financial transactions are classified into four main categories: budgetary, non-budgetary, foreign exchange, and unmatured debt.

The first category, budgetary transactions, consists of all the transactions which enter into the calculation of the annual deficit or surplus of the Government, that is the receipts from tax and non-tax revenue together with the expenditures authorized by Parliament. Revenue is recognized only when received and does not include amounts due but not collected. Budgetary expenditure, however, is recorded generally on the accrual basis. Expenditure includes charges for work performed, goods received, services rendered, transfer payments made, amortization of the actuarial deficiencies of the three main superannuation accounts, a provision for estimated losses on realization of recorded assets, and accruals for interest on unmatured debt. Fixed assets, which include land, engineering structures and works (such as canals, harbours and roads), buildings, machinery and equipment, are not capitalized but are charged to budgetary expenditure at the time of acquisition or construction. Budgetary expenditure does not include amounts accrued at the year end for the indexing of pensions.

The second category, non-budgetary transactions, consists of loans, investments and advances made by the Government, the Government's liability to outside parties from its role of administrator of certain public moneys received or collected for special purposes, and other liabilities recorded as a result of the budgetary accruals mentioned above. These transactions account for the change in the financial claims due to or financial obligations owing by the Government, in accordance with the accounting policies referred to in Note 1 to the financial statements.

The third category, foreign exchange transactions, reflects transactions with the Exchange Fund Account, the principal objective of which is to aid in the control and protection of the external value of the Canadian dollar, together with an accounting of the net position of the Government with respect to the International Monetary Fund. Foreign exchange transactions also include unmatured debt payable in foreign currencies.

The fourth category, unmatured debt transactions, represents the extent to which financial requirements have been met through the increase in unmatured debt, that is the net changes in the amounts owing for such debt instruments as marketable bonds, Canada savings bonds and Treasury bills. Unmatured debt transactions exclude unmatured debt payable in foreign currencies.

The second statement is the Statement of Revenue and Expenditure. This statement gives a more detailed accounting of the budgetary transactions summarized in the Statement of Transactions. The annual deficit or surplus represents the difference between the expenditures and the revenues of the year, in accordance with the accounting policies previously summarized.

The third statement is the Statement of Assets and Liabilities. Since this statement is based on the Government's accounting policies, it differs in some ways from the conventional balance sheet presented in the private sector. More particularly, fixed assets having been accounted for as expenditures, are recorded at the nominal value of $1, and revenues not yet received, such as uncollected taxes, are not recorded as assets. The effect of inflation on the economic value of the Government's reported assets and liabilities has not been reflected. It is generally recognized that inflation tends to reduce the value of financial assets and liabilities while at the same time increasing the recorded value of fixed assets. Thus it should be noted that the difference between the net recorded assets and liabilities is simply the aggregate of annual budgetary deficits and surpluses determined in accordance with the accounting policies of the Government; in no way does this difference reflect the Government's net worth.

The fourth statement is the Statement of Use of Appropriations. This statement summarizes by department, the use during the year of parliamentary appropriations for budgetary expenditure, and loans, investments and advances.

These four financial statements, when read in conjunction with the notes thereto, present fairly, in the opinion of the Government, the revenue, expenditure, assets and liabilities of the Government of Canada. Fair presentation is achieved through the consistent application of the significant accounting policies, which are summarized in Note 1 to the financial statements.

Notes to the Financial Statements of the Government of Canada

1. Significant Accounting Policies

The accounting policies of the Government of Canada are based on concepts embodied in the Constitution Acts, and in the Financial Administration Act and other legislation.

i. *Basic concepts*

The two basic concepts underlying the Government's accounting system are found in the Constitution Acts: first, the concept of the Consolidated Revenue Fund, which emanates from the requirement that all duties and revenues received, other than those reserved to the provinces, "shall form One Consolidated Revenue Fund"; second, the concept that the balance of the Fund, after certain prior charges, "shall be appropriated by the Parliament of Canada".

Parliament provides authority to make payments out of the Consolidated Revenue Fund in annual appropriation acts and other statutes (the latter referred to as statutory appropriations). Spending authority granted in appropriation acts is for stated purposes and maximum amounts. Unless provided for in vote wording, unused spending authority granted in appropriation acts lapses at the end of the year for which granted. Spending authority provided by statutory appropriations is for specified purposes and for such amounts and such time as the acts prescribe. Spending authority provided by statutory appropriations generally does not lapse at the end of the year in which granted.

ii. *Government of Canada as an accounting entity*

For purposes of maintaining the accounts of Canada and preparing the Public Accounts, as required by the Financial Administration Act, the Government of Canada is defined as all the departments named in Schedule A of the Act; any division or branch of the Public Service, including a commission appointed under the Inquiries Act, designated by the Governor in Council as a department for purposes of the Financial Administration Act; the staffs of the Senate, the House of Commons, and the Library of Parliament; and, any corporation named in Schedule B of the Financial Administration Act.

In accordance with the above definition, the corporations named in Schedules C and D of the Financial Administration Act are excluded from the Government of Canada as an accounting entity; therefore, their financial statements are not consolidated with those of the Government. However, the borrowings of those corporations which are agents of the Crown are recorded as a liability of the Government net of borrowings expected to be repaid directly by these corporations. The financial statements of Crown corporations are presented in Volume III of the Public Accounts.

In addition, certain accounts and funds have financial statements which are not combined with those of the Government, but appear separately in Volumes I and II. These accounts and funds include the Exchange Fund Account, the Canada Pension Plan Account, the Unemployment Insurance Account and other similar accounts.

iii. *Classification of financial transactions*

The financial transactions of the Government, as recorded in the accounts of Canada and reflected in the Public Accounts, are classified into budgetary, non-budgetary, foreign exchange and unmatured debt transactions.

In general terms, budgetary transactions enter into the calculation of the annual deficit or surplus and are disclosed on the Government's Statement of Revenue and Expenditure. All other transactions lead to the acquisition or disposal of financial claims or to the creation or discharge of financial obligations, and are disclosed on a net basis on the Statement of Assets and Liabilities.

For purposes of accounting and reporting, the Public Accounts uses the classification in force at the end of the year to which the report refers and figures for the previous year are reclassified to conform to the current year's presentation. No adjustments of the previous year's figures are made that would alter the deficit reported for that year.

iv. *Budgetary revenue*

Budgetary revenue consists of all tax and non-tax receipts which affect the annual deficit or surplus of the Government, and includes revenue internal to the Government.

The Government generally reports revenue in the year in which it is received, with refunds of revenue allocated to the year in which they are actually paid.

Revenue is reported after deducting refunds paid, and excludes amounts receivable, taxes collected on behalf of provinces and territories, and amounts credited to the Canada Pension Plan Account, the Unemployment Insurance Account, the superannuation accounts, other specified purpose accounts and other liability accounts.

In the Statement of Revenue and Expenditure, revenue is reported both gross and net. The difference between the two is revenue credited to appropriations.

v. *Budgetary expenditure*

Budgetary expenditure consists of all charges to budgetary appropriations which affect the annual deficit or surplus of the Government. Such charges include those for work performed, goods received, services rendered, and transfer payments made, during the year, and, expenditure internal to the Government.

Expenditure excludes amounts charged to the Canada Pension Plan Account, the superannuation accounts, the Unemployment Insurance Account except for benefits to fishermen, other specified purpose accounts and other liability accounts.

In the Statement of Revenue and Expenditure, expenditure is reported both gross and net. The difference between the two is revenue credited to appropriations.

vi. *Assets*

Assets are defined as the financial claims acquired by the Government of Canada on outside organizations and individuals as a result of events and transactions recorded as at the closing date.

However, as a result of the Government's accounting policies described above, and in accordance with the provisions of the Financial Administration Act and other legislation, certain financial claims are not reported on the Statement of Assets and Liabilities. The most important of these are accounts receivable, net of refunds payable, for tax and non-tax revenue.

vii. *Liabilities*

Liabilities are defined as the financial obligations of the Government of Canada to outside organizations and individuals as a result of events and transactions recorded as at the closing date.

However, as a result of the Government's accounting policies described above, and in accordance with enabling legislation, actuarial liabilities arising from the indexing to the cost of living, of superannuate pensions and annuities are not reported on the Statement of Assets and Liabilities.

viii. *Fixed assets*

The fixed assets of the Government, which include land, engineering structures and works (such as canals, harbours and roads), buildings, machinery and equipment, are charged to budgetary expenditure at the time of acquisition or construction. Their existence, however, is acknowledged on the Statement of Assets and Liabilities by reporting them at the nominal value of $1.

ix. *Accumulated deficit*

The accumulated deficit consists of the annual deficits and surpluses since Confederation, together with the write-off of certain amounts charged directly to this account.

x. *Valuation of assets and liabilities*

ASSETS

Assets are recorded at cost and are subject to annual valuation to reflect reductions from the recorded value to the estimated realizable value.

LIABILITIES

Liabilities are recorded in the amounts ultimately payable except for liabilities for the superannuation accounts of the Canadian Forces, the Public Service and the Royal Canadian Mounted Police, and the Government Annuities Account, which are valued on the actuarial basis.

The Canada Pension Plan Account and the Supplementary Retirement Benefits Account are not maintained on the actuarial basis. The Canada Pension Plan Act limits payments from the Consolidated Revenue Fund to the balance in the Canada Pension Plan Account.

xi. *Translation of foreign currency transactions*

Foreign currency transactions are translated and recorded in Canadian currency equivalents at the exchange rates prevailing at the transaction dates.

Assets and liabilities resulting from foreign currency transactions are, in turn, reported at year-end closing rates of exchange; net gains are credited to revenue, while net losses are charged to expenditure.

2. Changes in Accounting Policies

Allowances have been established for the valuation of certain assets and the accrual of certain liabilities. These allowances have been authorized by the President of the Treasury Board and the Minister of Finance under Section 54(2)(b) of the Financial Administration Act, and provide for the changes in accounting policies described below. Previous year's figures have not been adjusted for comparative purposes.

	(in millions of dollars)
Accrual of:	
Items to be paid from certain statutory authorities	450
Allowance for employee vacation and termination benefits	1,900
Allowance for borrowings of agent Crown corporations expected to be repaid by the Government	1,150
Allowance for valuation of loans, investments and advances	1,700
Extraordinary item—Provision for valuation of certain assets, and for liabilities previously not recorded	5,200

In addition, borrowings of agent Crown corporations are now reported on the Statement of Assets and Liabilities net of borrowings expected to be repaid directly by these corporations.

The full effect of these changes in accounting policies has been included in the deficit for the current year because the stated accounting policies do not provide for retroactive restatement. Had these changes been applied retroactively, it is estimated that the annual deficits and the accumulated deficit would have been as follows:

	(in millions of dollars)			
	Accumulated deficit at March 31, 1984	1984 Deficit	1983 Deficit	Accumulated deficit at March 31, 1982
If accounting policies unchanged	151,811	32,289	24,653	94,869
Changes retroactively applied	5,200	300	225	4,675
If accounting policies changed, with retroactive application	157,011	32,589	24,878	99,544

3. Contingent Liabilities of the Government of Canada

A contingent liability is a potential liability which may become an actual liability when one or more future events occur or fail to occur. The contingent liabilities of the Government consist of explicit guarantees by the Government, and potential losses arising from pending and threatened litigation relating to claims and assessments in respect of breach of contract, damages to persons and property, and like items.

The contingent liabilities of the Government as at March 31, 1984 amounted to $6,589 million and are summarized in the following table:

	(in millions of dollars)	
	1984(1)	1983
i) Explicit guarantees by the Government(2):		
Borrowings by other than Crown corporations	2,177	1,839
Insurance programs of the Government	1,428	1,139
Other explicit guarantees	125	1
ii) Pending and threatened litigation	2,859	2,316
	6,589	5,295

(1) Details can be found in Section 12 of this volume.

(2) $163 million and $1,150 million in guarantees of Crown corporation borrowings ($169 million and $1,429 million in 1983) are not included in this table because they are respectively included as borrowings of non-agent Crown corporations in the table in Note 4 and allowance for borrowings expected to be repaid by the Government in the Statement of Assets and Liabilities.

4. Financial Information Regarding Crown Corporations

In accordance with the accounting policies of the Government, the accounts of Crown corporations are not consolidated with those of the Government, and thus only the financial transactions between the Government and Crown corporations, are recorded in the accounts of Canada.

Crown corporations are categorized as being either agents or non-agents of the Crown. Agency status is normally expressly stated in the articles of incorporation.

In accordance with Section 45 of the Financial Administration Act, the payment of all money borrowed by agent Crown corporations, and interest thereon, is a charge on and payable out of the Consolidated Revenue Fund. Such borrowings therefore constitute unconditional obligations of the Government and are recorded as such in the accounts of Canada net of borrowings expected to be repaid directly by these corporations.

Borrowings of non-agent Crown corporations are not obligations of the Government. However, when the Government expressly guarantees such borrowings, they become potential obligations of the Government (see footnote (2), below).

The following table summarizes financial information regarding agent and non-agent Crown corporations as at March 31, 1984. This financial information is based on financial statements prepared according to generally accepted accounting principles. For Crown corporations with financial year ends other than March 31, unaudited financial information is included in the table.

(1) Details can be found in Section 7 of this volume.

(2) Of this amount, $163 million ($169 million in 1983) has been borrowed by Canadian National Railway Company under explicit guarantee by the Government to an authorized limit of $163 million.

5. Insurance Programs

Certain Crown corporations, all of which are agents of Her Majesty, operate insurance programs. In the event that such corporations did not have sufficient funds to meet their obligations, the Government would provide the required financing through appropriations, either budgetary or non-budgetary.

The following table summarizes information regarding such insurance programs. The information has not been audited since the corporations have financial year ends other than March 31, 1984.

Financial statements of these corporations are reproduced in Volume III of the Public Accounts.

* Refers to the difference between claims and amounts received from sales of related assets and other recoveries.

(1) Recorded in the Corporation's audited financial statements for the year ended December 31, 1983, was a $650 million provision for losses caused by the decision to fund the payment of liabilities and operations of certain member institutions experiencing financial difficulties. The ultimate amount of the losses is unknown and accordingly, the Corporation's auditor has been unable to express an opinion on the financial statements.

(2) The Corporation's valuation of this fund as at March 31, 1984 disclosed an actuarial deficiency estimated at approximately $534 million. This valuation is based on assumed future trends.

(3) Less than $500,000.

6. International Development Assistance—Loans and Subscriptions

i. *Loans to developing countries*

Included in loans to National governments of $4,215 million ($4,048 million in 1983) are loans to developing countries of $2,879 million ($2,698 million in 1983). These loans are part of Canada's international development assistance program and are either interest-free or bear interest at rates that were more favourable than those prevailing in Canada at the time the assistance was provided. The balances outstanding at March 31, grouped by term, are:

Term	Grace period before repayment commences	Interest rate	1984	1983
			(in millions of dollars)	
17 years	7 years	*	1	
20 years	5 years	5%	35	35
25 years	5 years	6%	1	1
30 years	7 years	3%	189	178
30 years	7 years	*		9
35 years	5 years	*	3	4
40 years	10 years	*	1	1
50 years	10 years	*	2,649	2,470
			2,879	2,698

* Interest-free.

These loans, by their terms, confer financial benefits on the recipients. Discounted at the long-term borrowing rate for the year of the transaction, the present value of benefits conferred has been estimated at $2,100 million ($1,900 million in 1983). The benefits conferred during the year were $200 million ($200 million in 1983). In accordance with note 1 (x), no provision was made for this amount in the accounts of Canada.

During the year, loan interest and commitment/service charges of $6 million ($4 million in 1983) was received from developing countries. Details can be found in Sections 7 and 14 of this volume and in Section 8 of Volume II.

ii. *Subscriptions and loans to international organizations*

Included in loans, investments and advances—International organizations of $3,306 million ($2,917 million in 1983) are subscriptions to the capital of the International Development Association and loans to other international financial institutions of $2,754 million ($2,453 million in 1983). These subscriptions and loans are also part of Canada's development assistance program. These institutions make loans to developing countries on terms similar to the loan assistance set out in sub-section i. Subscriptions to international organizations do not provide a return on investment. They are repayable on termination of the organization or on Canada's withdrawal therefrom. Details can be found in Sections 7 and 14 of this volume.

7. Superannuation Accounts

The Government provides pensions indexed to the cost of living for its employees, principally, members of the Public Service, the Canadian Forces, and the Royal Canadian Mounted Police (RCMP). Basic pensions are provided for these employees under authority of the Public Service Superannuation Act, the Canadian Forces Superannuation Act and the RCMP Superannuation Act, respectively.

The superannuation accounts shown on the Statement of Assets and Liabilities include liabilities for basic pensions and for indexing. Liabilities for basic pensions are determined on an actuarial basis and liabilities for indexing are not. The Government has estimated that if the liabilities for all superannuation accounts were determined on an actuarial basis, the reported liabilities and accumulated deficit would increase by $16.2 billion as at March 31, 1984 ($13.9 billion as at March 31, 1983).

This estimate is based on an assumed interest rate of 6.5%, inflation rate of 3.0%, wage increase rate of 5.5%, and other actuarial assumptions and methods used for purposes of current actuarial reports for basic pensions.

8. Specified Purpose and Exchange Fund Accounts

In accordance with enabling legislation and the stated accounting policies of the Government, the revenues and expenditures of the following accounts are not included in the revenues and expenditures of the Government. The balances of those accounts are reported on the Statement of Assets and Liabilities of the Government. Had the transactions of any of the following accounts been classified as budgetary, revenue, expenditure, the deficit and the accumulated deficit would have been affected as follows:

	(in millions of dollars) Effect on			
	Revenue	Expenditure	Deficit	Accumulated deficit
Canada Pension Plan Account[1][2]	6,250	3,746	- 2,504	- 26,612
	5,682	*3,121*	*- 2,561*	*- 24,108*
Unemployment Insurance Account[1]	7,466	7,925	459	4,101
	5,041	*8,330*	*3,289*	*3,642*
Canadian Ownership Account	804		- 804	- 2,480
	890		*- 890*	*- 1,676*
Other specified purpose accounts	389	141	- 248	- 942
	489	*257*	*- 232*	*- 694*
Exchange Fund Account[1]	- 246		246	- 224
	- 377		*377*	*- 470*

Amounts in roman type are 1983-84 figures.
Amounts in *italic* type are 1982-83 figures.

[1] Details of these accounts can be found in Sections 8 and 10 of this volume.

[2] The Canada Pension Plan is not designed to be fully funded, but if the Plan were to be fully funded, the Government estimates that an additional amount of $208 billion would have been required at December 31, 1983, to pay future benefits of all contributors and pensioners in the Plan at that time. Actuarial assumptions used in making this estimate include an interest rate of 6.5%, an inflation rate of 3.5%, and an annual increase in average earnings of 5.0%. The Government's authority to pay benefits under the Plan is limited to the balance in the Canada Pension Plan Account which is $26,612 million at March 31, 1984. Audited financial statements of the Account are reproduced in Section 8 of this volume.

9. Maturity of Government Debt

The following table presents total unmatured debt arranged in order of maturity:

	(in millions of dollars) Marketable bonds	Canada savings bonds	Treasury bills	Notes and loans payable in foreign currencies	Total
1985	6,616	1,438	41,700	808	50,562
1986	7,161	3,815			10,976
1987	5,041	2,589		238	7,868
1988	4,563	1,474		957	6,994
1989	1,431	9,006		837	11,274
1990/94	11,301	19,882			31,183
1995/99	3,762			199	3,961
2000/04	15,869				15,869
2005/06	3,250				3,250
	58,994	38,204	41,700	3,039	141,937
Less: Government's own holdings	184	150			334
	58,810	38,054	41,700	3,039	141,603

It should be noted, however, that all Canada savings bonds are redeemable on demand regardless of maturity date and that $9,423 million of marketable bonds reported as maturing in 1985 to 1988 are exchangeable at the option of the holder for bonds maturing in 1990/94.

Details of unmatured debt can be found in Section 11 of this volume.

10. Transactions Internal to the Government

In accordance with the accounting policies of the Government, revenue and departmental expenditure include transactions between departments. These internal transactions represent valid charges and credits to appropriations, and valid credits to revenue, since they have been authorized by Parliament.

The following table summarizes Total Revenue and Total Departmental Expenditure, and related internal transactions.

	(in millions of dollars) Gross	Credited to appropriations	Net
Total revenue, as reported	62,037	5,711	56,326
	61,862	*6,739*	*55,123*
Less: internal transactions	1,750	1,587	163
	1,681	*1,548*	*133*
Total revenue, excluding internal transactions	60,287	4,124	56,163

Total departmental expenditure, excluding internal transactions	92,576	4,124	88,452
	83,334	*5,191*	*78,143*

Details can be found in Section 5 of this volume.
Amounts in roman type are 1983-84 figures.
Amounts in *italic* type are 1982-83 figures.

OPINION OF THE AUDITOR GENERAL ON THE FINANCIAL STATEMENTS OF THE GOVERNMENT OF CANADA

I have examined the following financial statements of the Government of Canada for the year ended March 31, 1984:

—Statement of Transactions;

—Statement of Revenue and Expenditure;

—Statement of Assets and Liabilities; and

—Statement of Use of Appropriations.

My examination was made in accordance with generally accepted auditing standards and included such inquiries, tests and other procedures as I considered necessary to enable me to report as required by Section 6 of the Auditor General Act.

In my opinion, these financial statements present information in accordance with the stated accounting policies of the Government of Canada as set out in Note 1 to the financial statements. Further, in my opinion, except for the change in accounting policies relating to the provision for valuation of certain assets and for liabilities previously not recorded, the effect of which is described in Note 2, the accounting policies are consistent with the preceding year. However, in my opinion, as outlined in Reservations 1, 2 and 3, these stated accounting policies continue to be inappropriate for a fair presentation of the assets and liabilities and revenues and expenditures of the Government of Canada.

Reservation 1: Fragmented Reporting Of Government Activities

Although the financial statements are entitled "The Financial Statements of the Government of Canada", certain activities of government are excluded, as described in Note 1(ii). As a result, the financial statements do not provide a comprehensive and complete summary of the Government's assets, liabilities, revenues and expenditures. In my view, the accounting entity as defined in Note 1(ii) is inadequate in the following two respects.

(i) Significant departmental activities described in Note 8 continue to be reported in separate financial statements or accounts that are not combined in the Government's financial statements. I believe that these activities should be fully consolidated with the Government's financial statements, except that further study by the Government is required to determine how and to what extent the activities of the Canada Pension Plan should be consolidated. Consolidation of the activities summarized in Note 8, excluding the Canada Pension Plan, would have the following effects:

	(Increase or decrease (-) in millions of dollars)	
	1984	1983
Effects on:		
Revenue	8,413	6,043
Expenditure	8,066	8,587
Deficit	- 347	2,544
Accumulated deficit	455	802

(ii) Investments in Crown-owned corporations and agencies at March 31, 1984 amounted to approximately $25 billion, or 55 per cent of the Government's recorded assets. The assets, liabilities, revenues and expenditures reported in the separate financial statements of these entities are not consolidated in the accompanying financial statements. Further study by the Government is required to determine to what extent the activities of such corporations and agencies should be consolidated, and if any are not consolidated, what alternative presentation would be appropriate. Accordingly, I am unable to determine the effect of this matter on the Government's financial statements.

Reservation 2: Assets Reported At Amounts In Excess Of Their Value

When the international development assistance loans and subscriptions identified in Note 6 to the financial statements are issued, they are recorded as assets at the full amounts advanced in accordance with Notes 1(vi) and (x). At the date of issue, the amounts advanced by Canada considerably exceed the asset value received by Canada because of the concessionary terms described in Note 6. In my view, any excess of amounts advanced over asset value received confers a benefit and constitutes expenditure, which should be recorded and reported as such on the Statement of Revenue and Expenditure in the year the loans and subscriptions are issued.

In respect of the $2,754 million of "subscriptions and loans to international organizations" described in Note 6(ii) the Government has provided a $1,700 million allowance for valuation this year. I believe that these subscriptions and loans should have been provided for in full.

In respect of the $2,879 million of "loans to developing countries" described in Note 6(i) the Government has provided no allowance and I believe that a valuation allowance of approximately $2,100 million, the amount of the conferred benefits disclosed in the note, should have been provided.

If these two provisions had been made in the current and prior years, reported assets would be decreased and accumulated deficit increased by approximately $3.2 billion ($3.0 billion in 1983). The deficit for the year would be increased by approximately $200 million ($300 million in 1983).

Reservation 3: Unrecorded Liabilities

As stated in Note 1(vii) and described in Note 7, financial obligations are not fully recorded in respect of the indexing of employee pension plans. I believe that additional financial obligations for indexing should be recorded and reported in the financial statements to provide a more complete disclosure of liabilities. If the full amount of such obligations had been recorded in the current and prior years, liabilities and accumulated deficit would be increased by approximately $16.2 billion ($13.9 billion in 1983). The deficit for the year would be increased by $2.3 billion ($1.1 billion in 1983).

Additional information and comments on the financial statements and this opinion are included in my observations in Section 3 of this volume.

Observations by the Auditor General
on the
Financial Statements of the Government of Canada

Introduction

I have examined the financial statements of the Government of Canada for the year ended March 31, 1984, which together with my opinion, are included in Section 2 of this volume. These financial statements are the Statement of Transactions, the Statement of Revenue and Expenditure, the Statement of Assets and Liabilities, and the Statement of Use of Appropriations.

My examination was made in accordance with generally accepted auditing standards and included such inquiries, tests and other procedures as I considered necessary to enable me to report as required by Section 6 of the Auditor General Act. This section provides that:

> "The Auditor General shall examine the several financial statements required by section 55 of the Financial Administration Act to be included in the Public Accounts, and any other statement that the President of the Treasury Board or the Minister of Finance may present for audit and shall express his opinion as to whether they present *fairly* information in accordance with stated accounting policies of the federal government and on a basis consistent with that of the preceding year together with any reservations he may have." (italics added)

The word *fairly* is used to express the auditor's judgement as to the appropriateness of the selection and application of accounting principles to the particular circumstances of an enterprise. Because of the significant and pervasive effect on the financial statements of the matters reported in my reservations, I have concluded that:

> "... these stated accounting policies continue to be inappropriate for a *fair* presentation of the assets and liabilities and revenues and expenditures of the Government of Canada." (italics added)

The three Reservations in my Opinion concern the appropriateness of the Government's stated accounting policies. They address the same issues reported last year. Although the issues are unchanged, the Government has taken some action this year in respect of each, which I will comment on.

Reservation 1: Fragmented Reporting of Government Activities

Under the stated accounting policy described in Note 1(ii), significant assets, liabilities, revenues and expenditures of the Government of Canada are reported in separate financial statements of various accounts, funds and Crown-owned corporations that are not now combined with the financial statements of the Government. Therefore, although the financial statements contained in Section 2 of this volume are entitled "The Financial Statements of the Government of Canada", they do not provide a comprehensive and complete summary of the Government's assets, liabilities, revenues and expenditures, and the reported annual deficit and financial requirements do not reflect the results of all government activities.

There are two primary components to Reservation 1. The first deals with excluded departmental activities, and the second with excluded government activities carried out by Crown-owned corporations and agencies. Expanded note disclosure of these activities has been provided this year, but as explained below, this is not an adequate solution to the fragmented reporting issue.

Excluded departmental activities

Transactions in respect of the following departmental activities are reported in financial statements or accounts that are not combined with the financial statements of the Government:

- Unemployment Insurance Account;
- Canadian Ownership Account;
- Other specified purpose accounts; and
- Exchange Fund Account.

Government officials have advised me that legislation creating these accounts requires that their activities be reported in separate financial statements or accounts and that legislative amendments should be made before they are consolidated with the Government's summary statements. As an interim measure pending appropriate legislative action, the Government has added the new Note 8 to summarize revenues and expenditures of the above-named activities that are excluded from the financial statements, together with the effect on deficit and accumulated deficit. Although I agree that these activities should be separately reported to demonstrate compliance with enabling legislation, I believe that they should also be consolidated with the Government's financial statements to provide a more comprehensive and complete overall report of assets, liabilities, revenues and expenditures. I do not believe that such consolidation requires legislative amendment, and my legal counsel concurs.

Note 8 also includes one alternative way of accounting for the Canada Pension Plan. Unlike the departmental activities discussed above, considerable uncertainty surrounds the issue of how best to combine the activities of the Canada Pension Plan with the Government's financial statements. There are at least three possible accounting bases upon which to combine the activities of the Plan with the Government's summary statements. Each results in significantly different amounts to report as expenditure and significantly different effects on deficit and accumulated deficit, as illustrated below.

		(Increase or decrease (–) in millions of dollars)			
		Revenue	Expenditure	Deficit	Accumulated deficit
No recognition of CPP liability, as implied in table in Note 8	1984	6,250	3,746	– 2,504	– 26,612
	1983	5,682	3,121	– 2,561	– 24,108
CPP liability recognized only to extent funded*	1984	6,250	6,250	NIL	NIL
	1983	5,682	5,682	NIL	NIL
Full recognition of CPP actuarial liability	1984	6,250	23,250	17,000	208,000
	1983	5,682	62,682	57,000	191,000

* As explained in footnote (2) to the table in Note 8, the Government's authority to pay benefits under the Plan is legally limited to the balance in the Canada Pension Plan Account which is $26,612 million at March 31, 1984.

In my view, additional study is required by the Government before the activities of the Canada Pension Plan are combined with the summary financial statements. I would encourage the Government to conduct this study on a priority basis before concluding on one accounting method or another.

Excluded activities of Crown-owned corporations and agencies

In addition to the departmental activities discussed above, Government activities are also carried out by many Crown-owned corporations and agencies whose financial statements are not consolidated with the financial statements of the Government. At March 31, 1984, investments in such corporations and agencies amounted to approximately $25 billion, or 55 per cent of the Government's recorded assets.

In the current year, the Government has expanded Note 4 and the related Table 7.4 in Section 7 of this volume to include financial information for both agent and non-agent Crown corporations. In prior years, information in this note and table was limited to agent corporations. However, the Government has not yet addressed the basic issue of how best to adjust its financial statements to reflect government activities carried out by Crown-owned corporations and agencies.

Further study by the Government is required to determine to what extent the activities of such corporations and agencies should be consolidated with the summary level financial statements and, if any are not consolidated, what alternative presentation would be appropriate. I encourage the Government to conduct this study on a priority basis.

A related concern—Expenditures offset against revenues

The exclusion from the Government's financial statements of the activities discussed above causes the reported size of federal government revenues and expenditures to be significantly understated. This distortion is further increased by the practice of offsetting expenditures against revenues, as in the case of Oil Export Charges and the Child Tax Credit program. The Oil Export Charge issue is explained below in the Observation, "Deletion of Reservation: Failure to Comply with Stated Accounting Policy".

Entitlements to the Child Tax Credit are claimed on personal tax returns. Claims are paid either by reducing the tax liability for the year or, if no liability exists, by issuing a "refund" cheque. In either case, personal income tax revenues are reduced, even where no tax had been paid. In my view, tax reductions and direct payments in respect of the Child Tax Credit are, in substance, social assistance program expenditures and should be reported as such. Although there is no effect on deficit, reported revenues and expenditures are significantly understated: $2,117 million in 1984 and $816 million in 1983. The Department of National Revenue advises that over 1.5 million individuals who have no taxable income file tax returns annually claiming a Child Tax Credit.

Reservation 2: Assets Reported at Amounts in Excess of their Value

In accordance with the stated accounting policies set out in Notes 1(vi) and (x) to the financial statements, the full amounts of special assistance loans to developing countries and subscriptions to the special development funds of international financial institutions are recorded as assets. At the date of issue, the amounts advanced by Canada considerably exceed the asset value received by Canada because of the concessionary terms described in Note 6. In my view, any excess of amounts advanced over asset value received confers a financial benefit on developing countries and constitutes expenditure in respect of international development assistance that should be recorded and reported as such on the Statement of Revenue and Expenditure.

In saying this, I am not suggesting that all such loans and subscriptions should be revalued at the end of each year, as one might do to reflect the impact of inflation. What I am saying is that at the date the loans and subscriptions are issued, the Government should determine what they are worth and record them as assets at that value at that time. It seems to me that the difference between the amount advanced and the asset value received is really a gift or, using government terminology, a "grant" that should be charged to expenditure and included in the deficit.

That special assistance loans include a "grant" element seems to be well recognized. For example, the Canadian International Development Agency, in its 1982-83 publication entitled "Canadians in the Third World", identifies a "grant element" in such loans as "the difference between the face value of the loan and the discounted (at 10 per cent) present value of the service payments to be made by the borrower during the lifetime of the loan". It thus calculates the grant element of a 50 year loan, with 0 per cent interest and a 10 year grace period, as 90.34 per cent of the loan's face value. Unfortunately, this reality is not reflected in the Government's accounts.

The Government has considered that $1,700 million of the $2,754 million in subscriptions to special development funds outstanding at March 31, 1984 are investments of indefinite duration that will yield no return. Accordingly, an asset valuation allowance of $1,700 million has been provided for these subscriptions, indirectly recognizing what I would consider their "grant element". However, since none of the subscriptions will yield any return, I believe that a valuation allowance for the full $2,754 million should have been provided by the Government.

Interestingly enough, although the $2,879 million of special assistance loans outstanding at year-end also have no, or little, rate of return and are repayable over periods of up to 50 years, the Government has provided no allowance for them. I believe that the Government should have provided a valuation allowance of about $2,100 million—the amount of benefits conferred by the loans as disclosed in Note 6.

In effect, then, the reality of the "grant element" is partially recognized in the financial statements. The provision against the subscriptions, and the expanded disclosure for the loans in Note 6, represent improvements in the financial statements this year. However, the loans and subscriptions continue to be shown on the Statement of Assets and Liabilities at amounts considerably in excess of their worth as assets and, accordingly, my Reservation remains.

Reservation 3: Unrecorded Liabilities

The Government has defined liabilities as financial obligations to outside organizations and individuals as a result of events and transactions recorded as at the closing date. However, under its stated accounting policies and, as disclosed in Note 7, financial obligations of $16.2 billion at March 31, 1984 ($13.9 billion at March 31, 1983) related to indexing provisions of employee pension plans (including the Canadian Forces and the Royal Canadian Mounted Police) have not been recorded.

In prior years, several other significant financial obligations were excluded from the Government's financial statements. These included items to be paid from certain statutory authorities, earned and unpaid annual vacation leave, employee termination benefits, and provisions for losses respecting Canadair and de Havilland. This year, as explained in Note 2, the Government has changed its accounting policies and provided for these liabilities in full. In addition, Note 7 has been added to set out quite clearly the nature and extent of the liability for indexing employee pensions that continues to be excluded from the financial statements. The result is a more complete accounting and improved disclosure of liabilities than has been provided before.

Government officials have advised me that legislative amendments should be made before recording additional liabilities for indexing in the accounts and showing them in the financial statements. I disagree. I can see no legislative prohibition whatsoever that prevents recording an additional amount for indexing right away, and my legal counsel concurs. I encourage Government officials to reconsider their position.

Although Note 7 is informative, until the Government appropriately adjusts the financial statements to reflect an additional liability for indexing, the burden is on the reader to do so. I consider this both unfair and undesirable. A reader who is not familiar with financial statements may get quite a different picture than a reader with more experience in this area.

Government officials also believe that additional study is required to determine more precisely how, and to what extent, the additional liabilities for indexing employee pensions should be recorded in the accounts and shown in the financial statements. I encourage the officials to conduct their study at the earliest possible date.

Deletion of Reservation: Failure to Comply with Stated Accounting Policy

The first reservation in last year's opinion dealt with a failure by the Government to comply with its own stated accounting policies. The portion of federal Oil Export Charges collected by the Government and paid to certain oil-producing provinces was, and continues to be, excluded from both federal revenues and expenditures, contravening the accounting policies stated in Notes 1(iv) and (v) to the financial statements. Although the problem persists, I have deleted the reservation this year because its effect on the financial statements taken as a whole is, in my judgment, no longer material. Revenue for the year from Oil Export Charges is understated by $132 million ($229 million in 1983), expenditure of the Department of Energy, Mines and Resources is understated by the same amount ($674 million in 1983), and there is no effect on either the accumulated deficit (also no effect in

1983) or the deficit for the year (understated by $445 million in 1983, which offset a 1982 overstatement of the same amount).

Reporting of Summary Financial Information

In my judgment, the most significant and pervasive problem in financial reporting by the federal Government is the use of inappropriate accounting principles in preparing its financial reports. As illustrated by the three reservations in my 1984 opinion, inappropriate accounting policies resulted in: fragmented reporting of government activities; assets reported at amounts in excess of their value; and significant unrecorded liabilities.

A fundamental principle of sound financial reporting is that the accounting policies selected should result in transactions being recorded and reported in accordance with their essential nature or substance. The accountant's term for this principle is "substance over form".

In the Preface to its financial statements in Section 2 of this volume, the Government explains that accounting policies have been selected "...primarily to provide an accounting of the financial resources appropriated by Parliament". Reporting compliance with legislative authority is a worthy objective, but it should not be accomplished at the expense of a fair reporting of the Government's financial position and results of operations. Both objectives can and should be achieved.

On November 24, 1983, the House of Commons Standing Committee on Public Accounts (PAC) considered at some length the 1983 Audited Financial Statements of the Government of Canada, together with my Opinion and Observations on them. In its Report to the House of Commons on March 13, 1984, the PAC recommended that the Comptroller General of Canada "...address the need for financial statements to report information in accordance with its essential nature and substance".

In the period May 10, 1984 through May 22, 1984, the Standing Senate Committee on National Finance (Senate Finance Committee) held five hearings to consider government accounting principles in Canada. In its report of May 24, 1984, the Senate Finance Committee expressed concern that "...strict adherence with legal authorities has resulted in the use of accounting procedures that convey inadequate or even misleading financial information". The Committee considered that the federal Government's financial statements "...should be designed to provide the maximum amount of information on the economic effects of government activities", and that, if necessary, existing legislation should be "...changed to permit fair reporting of the true state of the government's financial affairs".

The Public Sector Accounting and Auditing Committee (PSAAC) of the Canadian Institute of Chartered Accountants (CICA) has taken important initiatives aimed at improving financial reporting in the public sector. In the past year, PSAAC has issued a statement on disclosure of accounting policies and an exposure draft on the objectives of summary level financial statements for both the federal and provincial governments.

In the disclosure statement, PSAAC comments on substance over form, which is explained in terms of a requirement to account for and present transactions and other events in accordance with their financial reality. They state that accounting policies should be selected that result in a fair presentation of financial information, and that prudence, substance over form, and materiality are three general considerations in making such a selection.

In the exposure draft on objectives, intended to provide a framework for recommendations on specific accounting and reporting concerns, PSAAC also addressed issues raised in Reservations to my Opinion. For example, the document calls for financial statements that provide a summary display of the full nature and extent of all government activities (the fragmented reporting issue), and for summary statements that include, as a minimum, all financial claims and all liabilities in order to show financial condition (the unrecorded liability issue). How these issues should be resolved will be the subject of future research by the CICA.

In the objectives document, PSAAC also identifies a number of other accounting and reporting concerns that will be studied in the longer term. These include fixed assets, long-term investments, and tax expenditures, such as the Child Tax Credit that I refer to in these Observations. Presumably, future research will also address whether governments should continue to report tax and other revenues on a cash basis. At the federal level, significant financial claims and liabilities in respect of income tax owing to and refunds owing by the Government are not disclosed in the financial statements.

PSAAC is playing the difficult yet vital role of bringing together the federal and provincial governments and their auditors to develop generally accepted pronouncements on accounting and auditing issues that they face. I fully support this important work.

Clearly, the CICA cannot, and indeed should not be expected to, go it alone. In this regard, I am pleased to note that, at the federal level, both the Office of the Comptroller General (OCG) and my Office are conducting or participating in studies that should make a significant contribution to the CICA's work.

The OCG's study is aimed at resolving the differences that exist between my Office and the Government and, in the longer term, at defining the objectives of the federal Government's summary financial statements.

To assist this research and the ongoing work of the CICA, and to provide me with an informed view on some of these complex accounting and reporting issues, I have initiated a Federal Government Reporting Study (FGRS). The study is addressing the fundamental question of who needs what financial information about the federal Government, and why. FGRS will concentrate on having experts who use federal Government financial information explain in layman's language what information they need and for what purpose. Based on the user needs defined, my Office will develop a set of criteria for preparing a summary-level financial report for the federal Government. Findings will be shared throughout the year with both the OCG and PSAAC.

The General Accounting Office of the United States is concerned about the lack of consensus in the United States on appropriate accounting standards for federal government summary-level financial reports and, accordingly, is actively participating in this study.

I expect to publish the results of FGRS in a chapter of my 1985 Report to the House of Commons.

ENVELOPES AND OUTLAYS

The increasing complexity of Government responsibilities and the limited resources available to meet those responsibilities led to the policy and expenditure management system. Under this system, the Government manages the resources made available to it by "envelopes". Each envelope represents the resources allocated to a particular policy sector for all elements of departmental spending that relate to that sector.

Under the envelope system, spending is measured in terms of outlays for budgetary expenditure and for loans, investments and advances. Outlays for budgetary expenditure include costs of servicing the public debt, operating and capital expenditure, grants and contributions to other levels of government, persons and organizations, and other forms of transfer payments. Outlays for loans, investments and advances represent the net change in loans, investments and advances.

Details of Outlays by Envelope

Table 4.1 presents outlays on a comparative basis for budgetary expenditure and for loans, investments and advances by major element within each envelope.

ESTIMATES AND APPROPRIATIONS

Parliamentary Spending Authorities

The Government submits its spending proposals to Parliament in the annual Estimates. During the year, the Government may request further appropriations. The initial request is called the "Main Estimates" and additional requests are called "Supplementary Estimates". With these Estimates, the Government requests authority for that part of the proposed spending which is not already provided by other statutes. The amounts making up the total of such proposed spending are authorized in appropriation acts and are generally referred to as "annual" authorities. The balance of the planned spending is made under authority of other statutes which authorize disbursements for specified purposes, and for such amounts and time periods as are set by those acts. The proposed or estimated uses of most of these "statutory" authorities for the current year are included in the Estimates for information purposes; however, they are not included in appropriation acts because they have already been authorized by Parliament.

Annual authorities, with few exceptions, lapse at the end of the year if not used, while statutory authorities, with few exceptions, are carried forward to future years. Those authorities which extend to subsequent years are referred to as "non-lapsing".

Both the budgetary expenditure amounts and the non-budgetary requirements for loans, investments and advances are included under each type of spending authority, annual and statutory.

Table 4.3 presents, for the year ended March 31, 1984, a summary of parliamentary spending authorities requested and approved (annual authority), and estimated uses of authorities already granted (statutory authority).

A Statement of Use of Appropriations by department, as examined by the Auditor General, is presented in Section 2 of this volume. Additional details of appropriations and expenditure by department and by type (annual and statutory) are given in the Introduction (Table 2) of Volume II, and in the departmental sections of the same volume.

Budgetary and Non-budgetary Appropriations and Spending—Annual and Statutory

Budgetary appropriations provide spending authority for those transactions which enter into the calculation of the annual deficit or surplus of the Government. Non-budgetary appropriations provide spending authority for all transactions which result in the acquisition or disposal of loans, investments and advances. Balances of appropriations brought forward from the previous years are available for spending, together with current increases to such authorities.

The totals of these authorities are reduced by the amount of their current year use to determine the balances which lapse, are overexpended or are carried forward to future years, depending upon the type of authority. In cases where the spending of loan repayments is authorized, the non-budgetary spending is reported net of such repayments.

Table 4.4 presents details of the total available parliamentary spending authorities. They include brought forward authorities, parliamentary spending authorities as per Table 4.3 and various adjustments which are explained in the notes to the table.

Table 4.5 presents a summary of budgetary and non-budgetary appropriations and spending made under annual and non-lapsing appropriations and various statutory authorities for the year ended March 31, 1984.

Further departmental details are presented in the Introduction of Volume II (Table 2).

Reconciliation of Outlays for Loans, Investments and Advances to Non-budgetary Use of Appropriations

The following presents a reconciliation of total outlays for loans, investments and advances, as shown in Table 4.1, with the total of non-budgetary appropriations used in the current year, as shown in the Statement of Use of Appropriations in Section 2 of this volume.

The major difference relates to repayments of loans under appropriations which do not authorize spending of repayments. Such amounts are deducted from gross outlays for envelope reporting but not for reporting the use of appropriations.

BUDGETARY REVENUE

Budgetary revenue consists of all tax and non-tax receipts which affect the annual deficit or surplus of the Government, and includes revenue internal to the Government.

The Government generally reports revenue in the year in which it is received, with refunds of revenue allocated to the year in which they are actually paid.

Revenue is reported after deducting refunds paid, and excludes amounts receivable, taxes collected on behalf of provinces and territories, and amounts credited to the Canada Pension Plan Account, the Unemployment Insurance Account, the superannuation accounts, other specified purpose accounts and other liability accounts.

Revenue for a year, therefore, includes receipts credited to the Receiver General by the Bank of Canada and the chartered banks by March 31, and amounts received in Government offices by March 31, but not deposited until April, or not credited to the Receiver General until April. Revenue also includes the amounts received in the mail on the first working day of April, except where it is clear that it was the remitter's intention to discharge an obligation arising in the new year.

The yield from tax revenue is affected by changes in tax rates, by changes in the base on which taxes are calculated, and by variations in economic conditions. Income tax liability relates to the income of a taxation year, but the system of collecting personal and corporation income taxes by payroll deductions and instalments, results in a distribution of receipts throughout the year.

Tax revenue increased by $1,362 million in 1983-84, compared to an increase of $1,352 million in 1982-83.

The major tax changes which had an effect on this year's tax revenue are:

—personal income tax—the child tax credit was increased from $326 to $343 per child for the 1983 taxation year and this level became the base for subsequent years' indexation; as well, the family income threshold level for the child tax credit was maintained at the 1982 level of $26,330 for the 1983 and subsequent taxation years; effective with the 1983 taxation year, the child care expense deduction was doubled to $2,000 per child subject to an overall maximum of $8,000; the employment expense deduction was increased from 3% to 20%, reducing taxes for those individuals with employment income of less than $16,667; eligible individuals acquiring a newly constructed home after April 19, 1983 and before December 31, 1984 were able to claim an additional deduction in computing their income equal to $10,000 minus the total of all tax-deductible Registered Home Ownership Savings Plan (RHOSP) contributions made by them; individuals were permitted to withdraw all or part of their accumulated savings in their RHOSP free of tax for the purchase of new home furnishings and appliances in 1983; for mining exploration expenses incurred after April 19, 1983, the earned depletion was deductible from any income source and the deduction was limited to 25% of a taxpayer's income; and, the indexation of exemptions and brackets was capped to maximum increases of 6% and 5% in 1983 and 1984 respectively;

—corporation income tax—the time period for carrying back and carrying forward non-capital losses was extended to three years and seven years respectively, effective in the 1983 taxation year for small businesses; for investments after April 19, 1983, taxpayers were able to use their investment tax credit to reduce, without limitation, their federal tax payable, and investment tax credits earned which exceeded federal tax otherwise payable could be carried back to reduce federal tax in previous years; as well, a portion of the investment tax credit (20% for large corporations; 40% for small corporations) became refundable directly in cash to taxpayers who could not otherwise fully use their credit to reduce their federal tax; the special recovery share-purchase tax credit allowed corporations to issue shares between July 1, 1983 and the end of 1986 which entitled the first purchaser to a tax credit of up to 25% of the issue price paid; a 50% scientific research tax credit was introduced for investors in research companies who decide to forgo the normal tax incentives for research and development;

—incremental oil revenue tax (IORT)—the provisions that suspended the IORT on conventional oil from June 1, 1982 to May 31, 1983 were extended a further year to May 31, 1984. Since incremental revenues can be deducted from corporate taxable income, this suspension of the IORT meant a partially offsetting increase in corporation income tax revenue. This measure was subsequently extended for another year in the February 15, 1984 budget;

—petroleum and gas revenue tax— the petroleum and gas revenue tax on production revenue from tertiary projects' reservoirs is no longer payable until the eligible capital costs of the project have been recovered by the participants. The tax relief is achieved by a deduction of eligible capital costs from the production revenue from the reservoir. It applies to eligible expenditures made after December 31, 1982;

—excise taxes—to help finance assistance to private production companies and independent producers, a 6% basic tax to apply to amounts charged for radio and television programming services was imposed effective July 1, 1983; and,

—customs import duties—as scheduled under the Multilateral Trade Negotiations, the fifth of eight annual tariff reductions was implemented in January 1984; the limit on the value of goods that can be brought back to Canada, free of duty and tax, by returning Canadians, under the tourist exemption, was doubled from $150 to $300 on an annual basis, effective April 20, 1983.

Under fiscal arrangements that became operative in 1962, the federal Government entered into tax collection agreements to collect the personal income taxes of all provinces and territories (except Quebec) and the corporation income taxes of all provinces and territories (except Ontario, Quebec and Alberta). Personal and corporation income taxes collected by the federal Government on behalf of the provinces and territories, and subsequently remitted to them, are not included in the tables shown hereunder.

Personal Income Tax

This tax is a tax on personal income levied under the provisions of the Income Tax Act.

In 1983-84, personal income tax was the largest source of Government revenue. It amounted to $26,967 million, or 48% of total budgetary revenue.

Corporation Income Tax

This tax is a tax on corporation income levied under the provisions of the Income Tax Act.

Corporation income tax was the second largest source of Government revenue. It amounted to $7,286 million in 1983-84, or 13% of total budgetary revenue.

Non-Resident Income Tax

The non-resident income tax is a tax on the income earned in Canada by non-residents. It is derived from tax withheld from dividends, interest, rents, royalties, alimony, and income from estates and trusts, paid to non-residents. It amounted to $908 million in 1983-84, or 2% of total budgetary revenue.

Excise Taxes and Duties

Excise taxes and duties totalled $15,382 million in 1983-84, or 27% of total budgetary revenue.

Sales tax

The sales tax, totalling $6,660 million in 1983-84, was the most important tax levied under the Excise Tax Act.

Customs import duties

The revenues from customs import duties, consisting mainly of *ad valorem* taxes on the importation of goods, totalled $3,380 million in 1983-84.

Excise duties

Excise duties, which totalled $1,356 million in 1983-84, are levied on alcoholic beverages (other than wines) and tobacco products. (Additional taxes on tobacco products and taxes on wines are levied under the Excise Tax Act).

Petroleum and gas revenue tax and incremental oil revenue tax

The petroleum and gas revenue tax came into effect on January 1, 1981, and is applicable to net operating revenues related to the production of oil and gas.

The incremental oil revenue tax became effective January 1, 1982 and is levied on incremental revenues from oil discovered prior to 1981 and results from differences between the well-head oil prices and the prices as scheduled in the National Energy Program of 1980. Commencing in June 1982, this tax has been suspended for three years for conventional oil. This tax remains in place for petroleum produced from tar sands mining projects in commercial production prior to 1976.

Natural gas and gas liquids tax

The revenues from the natural gas and gas liquids tax totalled $524 million in 1983-84. This tax, which came into effect during 1980-81, is imposed on all sales of natural gas and gas liquids.

Excise tax—Gasoline

Receipts from the excise tax—Gasoline were $386 million in 1983-84. Under certain conditions, the amounts received may be refunded to purchasers. As of March 31, 1984, $471 million was received, and $85 million was refunded and charged to revenue.

Oil export charges

The federal share of revenues from oil export charges totalled $215 million in 1983-84. In accordance with Section 17.1(1)(*b*) of the Energy Administration Act, oil export charges are shared with the oil producing provinces. The share is in respect of oil produced in, and exported from, the provinces during the year.

Non-Tax Revenue

Return on Investments

Return on investments consists of interest from loans and advances, and from the transfer of profits, surpluses and dividends.

Return on investments, related to the assets on the Statement of Assets and Liabilities, is summarized in Table 5.4. Additional details are given in Section 14 of this volume and in the departmental sections of Volume II.

Refunds of Previous Years' Expenditure

Refunds of previous years' expenditure totalled $276 million in 1983-84, compared to $186 million in 1982-83. The net increase of $90 million resulted mainly from adjustments to estimated amounts charged to previous year's appropriations as a result of Payables at Year End (PAYE). The most significant adjustment totals $59 million and is related to petroleum incentives payments (Energy, Mines and Resources).

REVENUES CREDITED TO APPROPRIATIONS

Receipts and revenues arising from the activities of particular programs, which are credited to the appropriations for those programs, and which are not included in budgetary revenue, totalled $5,711 million in 1983-84, compared to $6,739 million in 1982-83.

Revenues credited to appropriations are summarized by department and selected classification and by source in Tables 5.5 and 5.6.

  Monthly expenditure by major spending department 6.12

BUDGETARY EXPENDITURE

Budgetary expenditure consists of all charges to budgetary appropriations which affect the annual deficit or surplus of the Government. Such charges include those for work performed, goods received, services rendered, and transfer payments made, during the year, and, expenditure internal to the Government.

Expenditure excludes amounts charged to the Canada Pension Plan Account, the superannuation accounts, the Unemployment Insurance Account except for benefits to fishermen, other specified purpose accounts and other liability accounts.

In this section, expenditure is analysed in several different ways:

- by function, i.e. broad policies;
- by program, i.e. purpose;
- by type, i.e. operating, capital, and grants and contributions; and,
- by standard object, i.e. productive resources acquired or transfer payments made.

These analyses do not take into account the provision for valuation reflected in Sections 1 and 2 of this volume.

Expenditure by Function

The functional presentation of expenditure reflects the broad policies pursued by the Government. These functions, which are reflected in Table 6.1, are primarily services provided to the people of Canada or to other governmental jurisdictions within Canada.

The largest category of expenditure under the functional classification is health and welfare, which accounted for $28,604 million, or 32% of total departmental expenditure.

Expenditure by Type

Expenditure may be classified under three major types: operating, capital, and grants and contributions. Operating expenditures consist of expenditures incurred in conducting the administrative and operating activities of the program; capital expenditures are for the construction and acquisition of fixed assets; grants and contributions represent payments for other than goods and services, made for the purpose of furthering program objectives.

A comparative summary of expenditure by type is presented in Table 6.3.

Expenditure by Standard Object

The standard object presentation of expenditure is related to the goods and services acquired, and transfer payments made, by the Government.

A comparative summary of expenditure by standard object is presented in Table 6.4. Additional details are given in Volume II.

Grants, contributions and other transfer payments were the largest category, and accounted for $43,771 million or 49% of total departmental expenditure. Payments included fiscal transfer payments to provinces, $5,466 million; payments under the Public Utilities Income Tax Act, $181 million; payments for hospital insurance, medical care and extended health care, $5,564 million; family allowance payments, $2,327 million; guaranteed income payments, $2,524 million; spouse's allowance payments, $233 million; old age security payments, $7,649 million; Canada Assistance Plan payments, $3,288 million; and, post-secondary education payments, $2,065 million.

Salaries and wages accounted for $10,108 million or 11% of total departmental expenditure. The increase of $773 million was due mainly to higher salary rates.

Public debt charges totalled $18,146 million or 20% of total departmental expenditure. The increase of $1,175 million was due mainly to an increase in unmatured debt.

SUPPLEMENTARY STATEMENTS

Interest on the Public Debt

Interest on the public debt consists of interest on unmatured debt and on specified purpose accounts.

The increase of $817 million in interest on unmatured debt reflects mainly an increase in this debt, which rose from $115,475 million at March 31, 1983 to $142,126 million at March 31, 1984. The increase in interest on specified purpose accounts was due mainly to increases of $378 million in respect of the superannuation accounts.

A comparative summary of interest on the public debt is presented in Table 6.5. Details of interest on the public debt can be found in Section 14 of this volume.

Expenditure under Statutory Authority

The spending authority provided by statutory appropriations is for specified purposes and for such amounts and such time as the acts prescribe. This spending authority does not generally lapse at the end of the year in which it is granted. Expenditure under such authority accounts for more than half of the total departmental expenditure each year.

In 1983-84, expenditure under statutory authority amounted to $54,379 million, accounting for 61% of the total departmental expenditure of $88,615 million.

Table 6.6 presents a comparative summary of these statutory expenditures.

LOANS, INVESTMENTS AND ADVANCES

Loans, investments and advances is a category of financial claims represented by debt instruments and ownership interests held by the Government of Canada, acquired through the use of parliamentary appropriations. Some of these appropriations permit repayments to be used for further loans and advances. Many appropriations are non-lapsing, that is, unexpended balances may be carried forward from year to year. Details of the use of non-budgetary appropriations, for loans, investments and advances, can be found in the departmental sections of Volume II.

Loans, investments and advances are recorded at cost and are subject to valuation to reflect estimated losses on realization. Foreign currency transactions are translated and recorded in Canadian currency equivalents at the exchange rates prevailing at the transaction dates. Loans, investments and advances resulting from foreign currency transactions are, in turn, reported at year-end closing rates of exchange; net gains are credited to revenue as premium and discount on exchange, while net losses are charged to budgetary expenditure of the Department of Finance.

The allowance established to reflect estimated losses on realization of financial claims held by the Government has been authorized by the Minister of Finance and the President of the Treasury Board, under Section 54(2)(b) of the Financial Administration Act.

Revenue received during the year on loans, investments and advances, is credited to return on investments. Details of return on investments for loans, investments and advances, are given in Section 14 of this volume. In accordance with stated accounting policies, accrued interest and interest due but not received are not reported as revenue. Table 7.12 gives details of recorded uncollected interest.

Transactions and year-end balances of loans, investments and advances are presented as follows:

—Crown corporations and agencies;

—provincial and territorial governments;

—national governments including developing countries;

—international organizations;

—Veterans' Land Act Fund advances;

—Government controlled corporations;

—private sector enterprises; and,

—miscellaneous.

Transactions and balances are further summarized in Sections 1 and 2 of this volume.

Some tables in this section present the continuity of accounts, by showing the opening and closing balances, as well as receipts and other credits, and payments and other charges, i.e. inflow and outflow of transactions. In addition, the term "account(s) without current transactions" has been included in some tables, to provide a link with figures published in the previous year's edition of the Public Accounts, and to show net transactions in accounts which were closed out in the previous year.

CROWN CORPORATIONS AND AGENCIES

Loans and advances to, and investments in, Crown corporations and agencies represent the balance of financial claims held by the Government against corporations for working capital, capital expenditure and other purposes, investment in the capital stock of corporations, and loans and advances to corporations for re-lending.

A Crown corporation is ultimately accountable to Parliament, through a Minister of the Crown, for the conduct of its affairs. Most of the Crown corporations listed in the Schedules to the Financial Administration Act are agents of Her Majesty in right of Canada. This power is granted in one of the following ways:

(i) designation by Parliament, through a special act of incorporation;
(ii) statutory authorization; and,
(iii) proclamation by the Government Companies Operation Act.

Financial statements of Crown corporations and agencies listed in Schedules C and D of the Financial Administration Act can be found in Volume III. Information on Schedule B corporations can be found in departmental sections of Volume II.

Lending Institutions

Table 7.2 presents a summary of the balances and transactions for the various types of loans, investments and advances which were made to Crown corporations and agencies providing financial assistance.

Canada Deposit Insurance Corporation

The Corporation was established under the Canada Deposit Insurance Corporation Act, to provide insurance, up to $60,000 per depositor per institution, on deposits with federal member institutions and approved provincial institutions.

The Corporation is an agent of Her Majesty, reports through the Minister of Finance, and is listed in Schedule D of the Financial Administration Act.

Section 37 of the Act provides that the Minister of Finance, with the approval of the Governor in Council, may advance to the Corporation amounts by way of loans on such terms and conditions as the Governor in Council may determine. The aggregate of such loans authorized to be outstanding at any time is $1,500,000,000.

During the year, the loan was repaid with interest of $5 million.

Canada Mortgage and Housing Corporation

The Corporation was established under the Canada Mortgage and Housing Corporation Act, to promote the construction of new houses, the repair and modernization of existing houses, the improvement of housing and living conditions in Canada, and to promote the development of communities through the provision of infrastructure facilities.

The Corporation is an agent of Her Majesty, reports through the Minister of Public Works, and is listed in Schedule D of the Financial Administration Act.

During the year, the Corporation received financial assistance of $1,604.2 million from budgetary appropriations. It paid interest of $894 million and transferred $47 million of profit to the Government.

Capital stock

The Government's investment in the capital of the Corporation is authorized by Section 17 of the Canada Mortgage and Housing Corporation Act.

Housing

Advances have been made to enable the Corporation to lend money under the following sections of the National Housing Act:

(*a*) Section 15—to any person to assist in
   (i) the construction, purchase or improvement of a low-rental housing project;
   (ii) the purchase of existing buildings and the land upon which they are situated and their conversion into a low-rental housing project; or,
   (iii) the conversion of existing buildings into a low-rental housing project;

(*b*) Section 16—to an incorporated company engaged in the mining, lumbering, logging or fishing industry, to assist in the construction of low or moderate-cost housing projects in areas or localities that are adjacent to or connected with the operations of the borrower;

(*c*) Section 58—to a person unable to obtain a loan from an approved lender for construction of a house or housing project; and,

(*d*) Section 59—to Indians to assist in the purchase, improvement or construction of housing projects on Indian reserves.

The advances bear interest at rates from 3.5% to 16.075% per annum, are repayable over 18 to 50 years, with final instalments between September 30, 1997 and September 30, 2033.

Real estate

Section 55 of the National Housing Act authorizes advances to: (*a*) acquire land or housing projects by way of purchase, lease or otherwise; (*b*) install services in and effect improvements to or in respect of land acquired, and develop and lay out such land for housing purposes; (*c*) construct, convert or improve housing projects; and, (*d*) acquire building materials and equipment and other personal property for use in connection with housing projects.

During the year, additional advances were authorized by Public Works Votes L75 and L75b, Appropriation Acts No 1, No 2 and No 3, 1983-84.

The advances bear interest at rates from 9.525% to 16.157% per annum, are repayable over 50 years, with the final instalment on December 31, 2032.

Joint projects

Section 40 of the National Housing Act authorizes advances to undertake projects jointly with the government of any province or any agency thereof, for (*a*) the acquisition and development of land for housing purposes or for any purpose incidental thereof; (*b*) the construction of housing projects or housing accommodation of the hostel or dormitory type for sale or for rent; and, (*c*) the acquisition, improvement and conversion of existing buildings for a housing accommodation of the hostel or dormitory type.

The advances bear interest at rates from 5% to 17.96% per annum, are repayable over 25 to 50 years, with final instalments between March 31, 2005 and September 30, 2033.

Urban renewal scheme

Advances have been made to enable the Corporation to lend money under Section 25 of the National Housing Act, to a province or municipality, to assist in the implementation of an urban renewal scheme.

The advances bear interest at rates from 5.31% to 8.75% per annum, are repayable over 20 to 50 years, with final instalments between December 31, 1984 and December 31, 1997.

Student housing projects

Advances have been made to enable the Corporation to lend money under Section 47 of the National Housing Act, to a province or agency thereof, a municipality or agency thereof, a hospital, school board, university, college, cooperative association or charitable corporation, to assist in (*a*) the construction, acquisition or improvement of a student housing project; (*b*) the acquisition of existing buildings and their conversion into a student housing project; or, (*c*) the conversion of existing buildings into a student housing project.

The advances bear interest at rates from 5% to 10.054% per annum, are repayable over 20 to 50 years, with final instalments between September 30, 1993 and December 31, 2031.

Sewage treatment projects

Advances have been made to enable the Corporation to lend money under Section 51 of the National Housing Act, to any province, municipality or municipal sewerage corporation, to assist in the establishment or expansion of a sewage treatment project, and in the construction of a trunk storm sewer system.

The advances bear interest at rates from 5% to 10.376% per annum, are repayable over 18 to 50 years, with final instalments between September 30, 1993 and December 31, 2030.

Mortgage and loan purchase fund

Advances were made to enable the Corporation to lend money under Section 10(1)(b) of the National Housing Act, to holders of National Housing Act insured mortgages.

A payment of an advance under Section 10(3) of the National Housing Act was not to be greater than the amount by which $100,000,000 exceeded the total amount of advances charged to the mortgage and loan purchase fund, less the total amount of moneys paid by the Corporation pursuant to Section 10(2) of the Act.

During the year, the advances were repaid in full.

Mortgage insurance fund

Advances have been made, pursuant to Section 9(6) of the National Housing Act, to enable the Corporation to discharge its obligations under Section 8 of the Act.

The advances bear interest at rates from 11.875% to 18.375% per annum, are repayable over 1 to 5 years, with final instalments between December 21, 1984 and March 31, 1985.

Ownership assistance

Advances have been made to enable the Corporation to lend money under Section 34.15 of the National Housing Act, to assist in (*a*) the construction of a house or a condominium unit by a person who owns the house or condominium unit and intends to occupy the house, one of the family housing units thereof or the condominium unit, or by a builder who intends to sell the house or condominium unit to a person who will own and occupy the house, one of the family housing units thereof, or the condominium unit; or, (*b*) the acquisition of a house or condominium unit by a prospective qualified owner.

The advances bear interest at rates from 7.625% to 9.625% per annum, are repayable over 20 to 50 years, with final instalments between December 31, 1992 and March 31, 1996.

Export Development Corporation

The Corporation was established under the Export Development Act, to facilitate and develop export trade by the provision of loans, insurance, guarantees and other financial facilities.

The Corporation is an agent of Her Majesty, reports through the Secretary of State for External Affairs, and is listed in Schedule D of the Financial Administration Act.

Capital stock

The Government's investment in the capital of the Corporation is authorized by Section 11 of the Export Development Act.

During the year, the Government subscribed for 1,270,000 additional shares for a total value of $127 million. In addition, the Export Development Act authorized the conversion into capital stock of the balance of $25,000,000 in the capital surplus account. As a result of the conversion, the Government was issued 250,000 shares with a par value of $100 each.

Capital surplus

During the year, the Export Development Act authorized the conversion into capital stock of the balance of $25,000,000.

Loans

Loans to the Corporation are authorized by Sections 12 and 13 of the Export Development Act. Pursuant to Section 12, the Corporation may borrow money from public and private sources by any means, including the issue and sale of bonds, debentures, notes or other evidences of indebtedness of the Corporation. Pursuant to Section 13, loans to the Corporation may be made out of the Consolidated Revenue Fund on terms and conditions fixed by the Minister of Finance.

Section 14 limits the Corporation's outstanding borrowings under Sections 12 and 13 to an amount equal to ten times the aggregate of the paid-in capital of the Corporation from time to time and the retained earnings, if any, determined according to the most recent statements of accounts of the Corporation for a financial year, that have been audited by the Auditor General of Canada.

For the purposes of the Export Development Act, Section 31 also authorizes the making of loans by the Government of Canada through the Corporation. These loans are administered by the Corporation on behalf of the Government and are reported further in this section under "National governments including developing countries" and "Private sector enterprises".

The loans bear interest at rates from 5.5% to 9.5% per annum, are repayable over 4 to 15 years, with final instalments between April 15, 1984 and October 15, 1998.

During the year, receipts and other credits included loan repayments of $120,304,300 and a valuation adjustment of $1,437,000 in respect of loans totalling $8,500,000 US. The Corporation paid interest of $33 million to the Government.

Farm Credit Corporation

(*c*) repayable over 20 years, bearing interest at rates from 5.25% to 7.5% per annum, with final instalments between December 1, 1985 and July 1, 1996, $685,490,784;

(*d*) repayable over 19 years, bearing interest at rates from 5.25% to 6% per annum, with final instalments between December 1, 1985 and July 1, 1986, $68,704,668; and,

(*e*) repayable over 25 years, bearing interest at rates from 4% to 5.75% per annum, with final instalments between June 30, 1984 and June 30, 1986, $10,176,593.

During the year, the Corporation paid interest of $406 million to the Government.

Farm syndicates loan fund

Advances have been made by the Minister of Finance, pursuant to Section 8 of the Farm Syndicates Credit Act, to enable the Corporation to make loans. Section 3(1) of the Act allows the Corporation to make loans to a farm syndicate for:

(*a*) the purchase of farm machinery;

(*b*) the purchase, erection or improvement of buildings; or,

(*c*) the purchase or improvement of land on which buildings are or are to be erected for use primarily by the syndicate or its members, in their farming operations.

Section 8 of the Act limits total advances which may be outstanding to $25,000,000.

The advances bear interest at rates from 8% to 15.5% per annum, are repayable over 5 years, with final instalments between July 1, 1984 and July 1, 1989.

During the year, the Corporation paid interest of $2 million to the Government.

Federal Business Development Bank

The Corporation was incorporated under the Federal Business Development Bank Act, to promote and assist in the establishment and development of business enterprises in Canada, by providing financial assistance, management counselling, management training information and advice, and such other services as are ancillary or incidental to any of the foregoing.

The Corporation is an agent of Her Majesty, reports through the Minister of Regional Industrial Expansion, and is listed in Schedule D of the Financial Administration Act.

Advances

The advances are repayable from moneys to be received upon collection of the final instalment on the sale of the eight vessels to Cuban interests which was due to be paid August 19, 1963 by an irrevocable letter of credit issued through the Bank of America. However, on July 3, 1963, the United States Cuban Assets Control Regulations became effective which prohibited the Bank of America from honouring payment of the draft. Since that time, negotiations to obtain a preferred status, in order to collect the receivable, have not been successful. It is the opinion of management, based on legal counsel, that these moneys plus applicable interest will be collected when the regulations are repealed.

A waiver of the application of the statute of limitations has been obtained until January 1, 1989, and further extensions will be obtained as required.

Canadian Patents and Development Limited

Government of Canada Financial Interest in Crown Corporations

Table 7.4 summarizes the major balance sheet items for both agent and non-agent Crown corporations as at March 31, 1984.

In accordance with the accounting policies of the Government, the accounts of Crown corporations are not consolidated with those of the Government and only certain financial transactions between the Government and Crown corporations are recorded in the accounts of Canada. Crown corporations are categorized as being agents or non-agents of the Crown. Agency status is normally expressly stated in the articles of incorporation. Other Government controlled corporations are not included in this table; Table 7.9 in this section of this volume provides further information on these corporations.

In accordance with Section 45 of the Financial Administration Act, the payment of all money borrowed by agent Crown corporations, and interest thereon, is a charge on and payable out of the Consolidated Revenue Fund. Such borrowings therefore constitute unconditional obligations of the Government and are recorded as such in the accounts of Canada net of borrowings expected to be repaid directly by these corporations. Such borrowings are included in the column "Borrowings from other than Government". The amounts which are expected to be repaid by the Government are deducted from this column and are described as the "Allowance for borrowings expected to be repaid by the Government".

Borrowings of non-agent Crown corporations are not obligations of the Government. However, when the Government expressly guarantees such borrowings, they become potential obligations of the Government.

Balances which represent transactions with the Government, and which are recorded in the accounts of Canada include: long-term obligations to the Government, share capital and contributed surplus as well as claims against the Government. Such balances are described in this table as "Recorded financial interest" of the Government.

"Unrecorded financial interest" represents retained earnings of agent and other Crown corporations adjusted for items which had previously been included in their asset and liability accounts. These adjustments arise from timing differences in the recording of transactions between the Crown corporations and the Government. Crown corporations record amounts payable to or receivable from Government on an accrual basis for such items as income taxes. The accounts of Canada do not include such amounts until payment is either received or made. Amounts which represent transactions with the Government and which are not recorded in the accounts of Canada are adjusted and reported under "Unrecorded financial interest". They include: grants receivable, current or deferred income taxes receivable or payable, capitalized or accrued interest payable, sundry accounts payable, long-term capitalized leases payable and prepaid expenses related to Canada. "Unrecorded financial interest" adjustments represent funds which will be eventually received or disbursed by Canada. Also added to "Unrecorded financial interest" is the "Allowance for borrowings expected to be repaid by the Government" as described above.

Other information presented in this table includes "Change in financial interest from previous year" which identifies the increase or decrease since April 1, 1983. Also included in this table is the "Financial assistance under budgetary appropriations" which summarizes the assistance received by these entities during 1983-84. Details of such assistance are included in Section 14 of this volume.

Also, Section 40 of the Financial Administration Act states that "an annual statement of all borrowing transactions on behalf of Her Majesty shall be included in the Public Accounts". A statement of all borrowing transactions on behalf of Her Majesty is included in Section 13 of this volume.

Amounts listed in this table reflect information regarding Crown corporations as at March 31, 1984. This financial information is based on financial statements prepared according to generally accepted accounting principles. For corporations with financial year ends other than March 31, unaudited financial information is included.

(2) Canada Deposit Insurance Corporation—Unrecorded financial interest consists of premiums credited to the Deposit Insurance Fund plus adjusted accumulated net earnings. The deposits with member institutions insured by the Corporation totalled $162 billion as at April 30, 1984.

(3) Canada Development Investment Corporation: On March 30, 1984, Canadair Limited changed its name to Canadair Financial Corporation Inc. The loans and other general obligations of Canadair Limited have been assumed by Canadair Financial Corporation Inc. The financial statements of Canadair Financial Corporation Inc are consolidated with those of the Canada Development Investment Corporation and the outstanding loans amounting to $1,062,000,000 are included under the Canada Development Investment Corporation. Also included under the Canada Development Investment Corporation are the borrowings of The de Havilland Aircraft of Canada, Limited, another of its subsidiaries, amounting to $85,687,787. Both of these corporations' borrowings are reported on the Government's Statement of Assets and Liabilities. In addition, the borrowings of Eldorado Nuclear Limited, another subsidiary of the Canada Development Investment Corporation, amounting to $565,473,000 are also included. During the current fiscal year, Canadair Limited and The de Havilland Aircraft of Canada, Limited respectively received amounts of $550,000,000 and $300,000,000 under budgetary appropriations. Further details regarding borrowings are included in the "Statement of all borrowing transactions on behalf of Her Majesty" in Section 13 of this volume. The separate financial statements of Canadair Limited, The de Havilland Aircraft of Canada, Limited and Eldorado Nuclear Limited, are included in Volume III as appendices to the Canada Development Investment Corporation.

(4) Canada Mortgage and Housing Corporation—Unrecorded financial interest includes a net deficit of $497,000,000 in insurance and guarantee funds. The estimated amount of insurance in force as at March 31, 1984 was $34.5 billion.

(5) Canada Ports Corporation: Port of Quebec Corporation was created August 11, 1983. As the Corporation has not begun to function independently, it is still reported as a division of Canada Ports Corporation.

(6) Canada Post Corporation's financial information shown is as of March 31, 1983.

(7) Canadian National (West Indies) Steamships Ltd—The assets of the Corporation include blocked funds amounting to $791,753 of which $470,400 has been due since 1963 from Cuban interests, and, $321,353 represents interest due from the Bank of America.

(8) The financial interest in Canertech Inc, a subsidiary of Petro-Canada, as well as in The Jacques Cartier and Champlain Bridges Incorporated, a subsidiary of The St Lawrence Seaway Authority, is recorded at cost.

(9) "Unrecorded financial interest" includes an amount of $1,656,854 representing the value of Petro-Canada shares purchased through the Canadian Ownership Account (see Section 8 of this volume).

(10) Bank of Canada—Recorded share capital includes $920,000 representing a premium paid in respect of the acquisition in 1938 of shares held by the public. Consequently, unrecorded financial interest has been reduced by $920,000. "All other liabilities" include an amount of $672,900,000 representing deposits of the Government of Canada on hand in the Bank of Canada. Also, an amount of $16,901,875,029 representing Government Treasury bills and securities was offset against amounts representing notes in circulation in the calculation of this figure.

(11) Canadian National Railway System—Recorded share capital includes a premium of $19,452,732 representing the excess of previous years' depreciation not charged to Canadian National Railway's retained earnings over the Government's investments in Canadian Government Railways and Canadian National Railways Company. These investments were charged to budgetary expenditure by the Government of Canada and were credited to shareholder's equity by Canadian National Railways. Consequently, after the capital revision of Canadian National Railways, the recorded capital stock of the Corporation is $19,452,732 less than the recorded investment of the Government. Accordingly, unrecorded financial interest is being reduced by this deficiency. "Borrowings from other than Government" include $163,052,000 which is guaranteed by the Government.

(12) Less than $500.

PROVINCIAL AND TERRITORIAL GOVERNMENTS

Federal-provincial employment loans program

Loans have been made, to provinces, provincial agencies and municipalities, to assist in the creation of employment. The loan authority provides for the forgiveness of that portion of the principal amount equal to 75% of normal direct on-site payroll costs incurred and paid before June 30, 1972.

The loans bear interest at rates from 6.5% to 7.41% per annum, are repayable either in annual instalments over 10 to 20 years, or at maturity, with final repayments between October 1, 1984 and November 30, 1994.

Federal-provincial fiscal arrangements

These amounts represent overpayments in respect of provincial equalization entitlements under the Federal Provincial Fiscal Arrangements and Established Programs Financing Act. These overpayments are non-interest bearing and are recovered in the subsequent year.

Municipal Development and Loan Board

Under the Municipal Development and Loan Act, loans have been made, to provinces and municipalities, to augment or accelerate municipal capital works programs.

The loans bear interest at rates from 5.25% to 5.625% per annum, are repayable in annual or semi-annual instalments over 15 to 50 years, with final instalments between July 1, 1984 and March 31, 2016.

Special development loans program

Loans have been made, to provinces, provincial agencies and municipalities, to assist in the creation of employment.

The loans bear interest at rates from 5.91% to 7.54% per annum, are repayable either in annual or semi-annual instalments over 10 to 20 years, or at maturity, with final repayments between April 1, 1987 and March 30, 1993.

Winter capital projects fund

Loans have been made, to provinces, provincial agencies and municipalities, to assist in the creation of employment. There is provision for the forgiveness of that portion of the principal amount equal to 50% of normal direct on-site payroll costs for the duration of the loan program, plus 50% for the periods December-May 1973, 1974 and 1975. Finance Vote L13a, Appropriation Act No 1, 1974, authorized in fiscal years subsequent to March 31, 1976, the consolidation of any loan made pursuant to that authority, which may include the amount of interest accrued thereon to the date of consolidation.

The loans bear interest at rates from 7.11% to 9.84% per annum, are repayable either in annual instalments over 5 to 20 years, or at maturity, with final repayments between November 1, 1984 and February 28, 1999.

Atlantic Development Board carry-over projects

Loans have been made to finance certain water projects that were carried over from the Atlantic Development Board. Loans were made pursuant to terms and conditions of agreements between Canada and the provinces in the Atlantic region, with the approval of the Governor in Council. The department's policy on water projects and such agreements included a forgiveness provision, which is found in some agreements, to reflect recognition of a shortfall in the use of available capacity in the early years of such projects.

The terms and conditions of the loans, with their year-end balances, are as follows:

(*a*) 28 year loans, bearing interest at the rate of 7.5% per annum, due on various anniversary amortization dates, with the final instalment on July 31, 1999, $48,338; and,

(*b*) 30 year loans, bearing interest at rates from 7.161% to 8.5% per annum, due on various anniversary amortization dates, with final instalments between November 21, 1998 and April 1, 2006, $6,175,407.

Atlantic Provinces Power Development Act

Loans have been made to the Atlantic provinces, to assist in the generation of electrical energy by steam driven generators in the provinces, and in the control and transmission of electric energy.

The loans bear interest at rates from 4.5% to 8.5% per annum, are repayable over 29 to 40 years in equal annual instalments due March 31, with final instalments between March 31, 1992 and March 31, 2014.

Special areas and highways agreement

Loans have been made to finance development of community and industrial infrastructure projects for special areas, and for highway development, pursuant to terms and conditions of agreements between Canada and the provinces, with the approval of the Governor in Council.

The loans bear interest at rates from 5.768% to 10.164% per annum, are repayable over 5 to 30 years in equal annual instalments due March 31, with final instalments between March 31, 1985 and March 31, 2009.

Regional electrical interconnections

Loans have been made to assist in financing regional electrical interconnections, under agreements with the Provinces of Manitoba, New Brunswick, Nova Scotia and Prince Edward Island, and the Government of Canada.

During the year, additional loans were authorized by Energy, Mines and Resources Vote L30, Appropriation Acts No 1 and No 2, 1983-84.

The loans bear interest at rates from 9% to 15.625% per annum, are repayable in annual instalments over 29 to 31 years, with final instalments between December 31, 2008 and October 31, 2009.

Mainland Investments Limited

Loans have been made to the Province of Nova Scotia for the purchase of shares of Mainland Investments Limited, in accordance with an agreement between Canada and Nova Scotia, pursuant to Section 8 of the Special Areas Act (formerly the Department of Regional Economic Expansion Act).

The loans bear interest at the rate of 7% per annum, are repayable over 15 years, with the final instalment on February 28, 1988. During the first 5 years, interest only is payable, and during the subsequent 10 years, equal annual instalments of principal and accrued interest are required on March 30.

Loading ramp, Yarmouth, NS

Loans have been made to the Province of Nova Scotia for the construction of an end-loading ramp at Yarmouth, Nova Scotia.

The loans bear interest at the rate of 8% per annum, are repayable over 15 years in semi-annual instalments due September 14 and March 14, with the final instalment on September 14, 1985.

Comprehensive development plan agreement

Loans have been made to Prince Edward Island, to assist in financing the realization of a comprehensive and co-ordinated development plan of the province, pursuant to an agreement with the province, whose territory has been designated a "special rural development area".

The terms and conditions of the loans, with their year-end balances, are as follows:

(*a*) repayable over 30 years in equal instalments due at various anniversary dates, bearing interest at rates from 6.688% to 9.375% per annum, with final instalments between March 25, 2000 and March 27, 2005, $4,891,000; and,

(*b*) repayable over 30 years in equal annual instalments due March 31, bearing interest at rates from 6.688% to 9.375% per annum, with final instalments between March 31, 2001 and March 31, 2005, $6,813,003.

New Brunswick Electric Power Commission

Loans to provide financial assistance in respect of the operation of a 600 MW CANDU-PHW nuclear generating station at Point Lepreau, New Brunswick, were authorized by Energy, Mines and Resources Vote L31b, Appropriation Act No 3, 1983-84. The loans may be advanced over 10 years starting October 1983, up to $130 million. No loans have been made as at March 31, 1984.

Town of Oromocto

Capital assistance loans have been made to the Town of Oromocto, New Brunswick.

The loans bear interest at rates of 5.25%, 5.375% and 5.625% per annum, are repayable in equal semi-annual instalments over 20 years, with final instalments between January 1, 1985 and April 1, 1986.

Agricultural service centres

Loans and advances have been made to provincial and municipal authorities, to assist in the construction or expansion of water supply and waste disposal facilities in key agriculture service centres, which are essential to rural adjustment and urban development in the agricultural portion of the Prairie region.

During the year, additional loans and advances were authorized by Regional Industrial Expansion Vote L15, Appropriation Acts No 1 and No 2, 1983-84 and Agriculture Votes L16a and L16b, Appropriation Acts No 2 and No 3, 1983-84.

Advances

The amounts shown as advances represent outlays made on incomplete projects. When a project is completed, the advances are transferred to the loan account.

Upon completion of projects, interest is calculated and added to the amount of advances being transferred to loans in accordance with the terms and conditions of the agreements between Canada and the provinces, with the approval of the Governor in Council.

Loans

This account records amounts transferred from the advances account when projects are completed.

The terms and conditions of the loans, with their year-end balances, are as follows:

(*a*) repayable over 20 years in equal annual instalments due March 30, bearing interest at rates from 6.747% to 13.476% per annum, with final instalments between March 30, 1992 and March 30, 2003, $13,456,220; and,

(*b*) repayable over 20 years in equal annual instalments due March 31, bearing interest at rates from 9.593% to 13.466% per annum, with final instalments between March 31, 1999 and March 31, 2001, $310,232.

South Saskatchewan River project—Treasury bills

Treasury bills are received as payment of the Province of Saskatchewan's share of certain expenditures on the South Saskatchewan River project.

The Treasury bills bear interest at rates from 5% to 5.875% per annum, are repayable in semi-annual instalments due June 30 and December 31, with the final instalment on December 31, 1986.

The loans bear interest at an annual rate equal to the rate established by the Minister of Finance in respect of Crown corporations' borrowings during the period in which the loans were made. Interest rates are presently from 3.875% to 15.5% per annum. The loans are repayable over 2 to 35 years in equal annual instalments starting one year from the date they were made, with final instalments between April 1, 1984 and March 31, 2007.

Yukon Territory small business loans

Loans have been made for the establishment or expansion of small businesses in the Yukon Territory.

The total amount authorized to be outstanding at any time is $5,000,000.

The loans bear interest at rates from 9% to 12% per annum, are repayable in annual instalments over 10 years, with final instalments between April 1, 1984 and March 31, 1988. The repayment period may be extended with the approval of the Minister of Finance.

NATIONAL GOVERNMENTS INCLUDING DEVELOPING COUNTRIES

Loans to national governments consist mainly of the loan to the Government of the United Kingdom under the United Kingdom Financial Agreement Act, special loan assistance to developing countries, and loans for development of export trade (administered by the Export Development Corporation).

Table 7.6 presents a summary of the balances and transactions for the loans and advances that were made to national governments including developing countries.

China

An interest-free loan to China was authorized under the Export Credits Insurance Act.

Greece

An interest-free loan to Greece was authorized by PC 1932-2630. Parliamentary authority is required to write-off the balance.

Jamaica—Economic assistance

A loan has been made to the Government of Jamaica, to provide economic assistance. The maturity under the agreement is August 9, 1989. Interest at 11% per annum is payable annually on August 9. For the period from August 9, 1984 to August 9, 1989, the interest rate will be equal to the Crown corporations' 5 year borrowing rate.

United Kingdom

The United Kingdom Financial Agreement Act, 1946

Under authority of the United Kingdom Financial Agreement Act, a credit of $1,250,000,000 was extended to the Government of the United Kingdom which could have been drawn on at any time prior to December 31, 1951. The purpose of the credit was to facilitate purchases by the United Kingdom of goods and services in Canada and to assist the United Kingdom in meeting transitional post-war deficits in its current balance of payments, in maintaining adequate reserves of gold and dollars, and in assuming the obligations of multilateral trade. No interest was payable prior to January 1, 1951. The amount of the credit drawn by December 31, 1951 was to be repaid in 50 annual instalments beginning on that date, with interest at the rate of 2% per annum, with the final instalment on December 31, 2000.

Deferred principal

The agreement, as amended in 1957, provides for the deferment of interest in respect of the year 1956 and of seven instalments of principal and interest after December 31, 1956, under certain conditions. Interest for 1956, and interest and principal for 1957, 1964, 1965, 1968 and 1976 were deferred. The maturity of the deferrals is to commence December 31, 2001, and continue until December 31, 2006.

Developing countries—Special loan assistance

Special loan assistance is given to developing countries. During the year, additional loans were authorized by External Affairs Vote L35, Appropriation Acts No 1 and No 2, 1983-84.

The following table presents the balances and transactions for the loans made to developing countries, together with their terms and conditions of repayments.

Similar assistance has been provided to developing countries by way of subscriptions to the capital of the International Development Association in the amount of $1,730 million, and loans to other international financial institutions in the amount of $1,024 million. These amounts are reported later in this section under the heading "International Organizations".

Development of export trade

Pursuant to Section 31 of the Export Development Act, the Governor in Council may authorize the Corporation to make loans to foreign customers where the liability is for a term, or in an amount in excess of that normally assumed by the

Corporation. Such loans are financed directly by payments out of the Consolidated Revenue Fund and are administered by the Corporation on behalf of the Government of Canada.

During the year, payments and other charges included loans of $26,737,235 and a valuation adjustment of $6,544,092 in respect of loans totalling $164,405,686 US. Interest of $38 million was received and credited to Non-tax revenue—Return on investments.

The loans bear interest at rates from 3.25% to 10.5% per annum, are repayable over 6 to 22 years, with final instalments between April 1, 1984 and March 25, 2008.

North Atlantic Treaty Organization—Damage claims recoverable

Article VIII of the NATO Status of Forces Agreement signed April 4, 1949, as amended, deals with claims for damages to third parties arising from accidents in which a member of a visiting force is involved. This account is charged with the amount recoverable from other states, for claims for damages which took place in Canada, and is credited with recoveries.

The advances bear no interest and have no specific repayment terms.

INTERNATIONAL ORGANIZATIONS

This group records Canada's subscriptions to the capital of the African Development Bank, the Asian Development Bank, the Caribbean Development Bank, the Inter-American Development Bank, the International Bank for Reconstruction and Development (i.e. World Bank), the International Development Association and the International Finance Corporation. It also includes loans and advances to other international organizations.

Capital subscriptions are made in part by the issuance of non-interest bearing, non-negotiable demand notes. The amounts advanced or loaned vary according to the needs of the organizations concerned, and the terms of the agreements.

The net position of the Government vis-à-vis the international organizations has been obtained by deducting from subscriptions, loans and advances, the non-interest bearing notes issued by Canada to these organizations. These notes, payable on demand, represent that portion of the investment by Canada in these organizations which has not yet been encashed by them. These notes are encashed subject to the financial requirements of these organizations.

Table 7.7 presents a summary of the balances and transactions for the subscriptions, loans and advances to international organizations.

[1] The subscriptions to the Association and the loans to the international financial institutions are used to lend funds to developing countries at rates favourable to the borrowers. In addition, as described earlier in this section, under the heading "National Governments including Developing Countries", special loan assistance amounting to $2,879 million has also been provided to developing countries.

African Development Bank

This account records Canada's subscriptions to the capital of the African Development Bank, as authorized by the International Development (Financial Institutions) Assistance Act, the International Development (Financial Institutions) Continuing Assistance Act, and External Affairs Vote L37a, Appropriation Act No 2, 1983-84.

At year end, authority had been granted for the purchase of 4,200 paid-in shares and 12,600 callable shares. Instalment payments for the paid-in shares are to be made in non-interest bearing, non-negotiable demand notes. These notes are deducted from subscriptions to show the net position of the Government vis-à-vis the Bank.

During the year, transactions included subscriptions in non-interest bearing demand notes.

As at March 31, 1984, Canada's instalment payments amounted to $23,420,175 for 1,680 paid-in shares. The 12,600 callable shares are subject to call by the Bank under certain circumstances. Canada's commitment for callable shares has a current value of $175,651,308.

Asian Development Bank

This account records Canada's subscriptions to the capital of the Asian Development Bank, as authorized by the International Development (Financial Institutions) Continuing Assistance Act, and various appropriation acts (including External Affairs Vote L37a, Appropriation Act No 2, 1983-84).

At year end, authority had been granted for the purchase of 11,110 paid-in shares and 81,433 callable shares. Instalment payments for the paid-in shares may be made in cash or in non-interest bearing, non-negotiable demand notes. These notes are deducted from subscriptions to show the net position of the Government vis-à-vis the Bank.

As at March 31, 1983, the foreign currency balance of $105,434,978 US was translated into Canadian dollars at the year-end closing rate of exchange ($1 US/$1.2371 Cdn).

During the year, transactions included additional subscriptions in cash and in non-interest bearing demand notes, and a valuation adjustment.

As at March 31, 1984, Canada's instalment payments amounted to $105,434,978 US for 8,740 paid-in shares and 4,740,000 Special Drawing Rights (SDRs) for 474 paid-in shares. The balances in foreign currencies were translated into Canadian dollars at year-end closing rates of exchange ($1 US/$1.2761 Cdn and 1 SDR/1.358451 Cdn). The 81,433 callable shares are subject to call by the Bank under certain circumstances. Canada's commitment for callable shares has a current value of $439,147,591 US and 450,300,000 SDRs valued at $1,172,106,726 Cdn at year-end closing rates of exchange.

Caribbean Development Bank

This account records Canada's subscriptions to the capital of the Caribbean Development Bank, as authorized by the International Development (Financial Institutions) Continuing Assistance Act, and various appropriation acts (including External Affairs Vote L37a, Appropriation Act No 2, 1983-84).

At year end, authority had been granted for the purchase of 1,585 paid-in shares and 5,355 callable shares. Canada may issue, as payment for shares purchased, pending cash requirements by the Bank, non-interest bearing, non-negotiable demand notes. These notes are deducted from subscriptions to show the net position of the Government vis-à-vis the Bank.

As at March 31, 1983, the foreign currency balance of $8,854,596 US was translated into Canadian dollars at the year-end closing rate of exchange ($1 US/$1.2371 Cdn).

During the year, transactions included additional subscriptions in cash and in non-interest bearing demand notes, and a valuation adjustment.

As at March 31, 1984, Canada's instalment payments amounted to $9,560,310 US for 1,585 paid-in shares. This foreign currency balance was translated into Canadian dollars at the year-end closing rate of exchange ($1 US/$1.2761 Cdn). The 5,355 callable shares are subject to call by the Bank under certain circumstances. Canada's commitment for callable shares has a current value of $32,300,021 US, valued at $41,218,056 Cdn at the year-end closing rate of exchange.

Inter-American Development Bank

This account records Canada's subscriptions to the capital of the Inter-American Development Bank, as authorized by the International Development (Financial Institutions) Continuing Assistance Act, and various appropriation acts (including External Affairs Vote L37a, Appropriation Act No 2, 1983-84).

At year end, authority had been granted for the purchase of 9,982 paid-in shares and 115,220 callable shares. Instalment payments for the paid-in shares may be made in cash or in non-interest bearing, non-negotiable demand notes. These notes are deducted from subscriptions to show the net position of the Government vis-à-vis the Bank.

As at March 31, 1983, the foreign currency balance of $91,258,058 US was translated into Canadian dollars at the year-end closing rate of exchange ($1 US/$1.2371 Cdn).

International Tin Council

This account records Canada's subscriptions to the International Tin Council, as authorized by previous appropriation acts. The subscriptions are for the investment in the buffer stock established under the Fifth International Tin Agreement.

International Natural Rubber Agreement

This account records Canada's contributions to the financing of the natural rubber buffer stock, as authorized by a previous appropriation act. Pursuant to the International Natural Rubber Agreement, 1979, Canada is committed to participate in the funding of the rubber buffer stock up to $12,500,000.

International organizations and associations

These items represent the historical value of payments made by the Canadian Government to working capital funds maintained by international organizations of which Canada is a member. Participation in the financing of these working capital funds, on the basis of the scale of assessments, is prescribed by financial regulations for membership in the organizations. Payments into the funds are not subject to interest or repayment schedules, but are recorded by the organizations as credits from member states. Payments by Canada were authorized by appropriation acts.

During the year, additional advances to the working capital funds of the International Civil Aviation Organization and the Paris Union of the World Intellectual Property Organization were authorized by External Affairs Votes L11c and L12c, Appropriation Act No 4, 1983-84.

During the year, Canada made payments of: $17,280 US valued at $21,946 Cdn to the International Civil Aviation Organization, and 14,451 Swiss Francs valued at $8,517 Cdn to the Paris Union of the World Intellectual Property Organization. In addition, Canada received refunds of: $4,600 US valued at $5,743 Cdn from the International Atomic Energy Agency; $40,000 US valued at $49,804 Cdn from the United Nations Educational, Scientific and Cultural Organization; and, $200,000 US valued at $249,140 Cdn from United Nations organizations.

This account also records payments and the balance outstanding on United Nations bonds purchased by the Canadian Government in September 1962. The bonds yield interest at the rate of 2% per annum and are repayable over 25 years by annual instalments in amounts from 3.1% to 5.1% of the amount subscribed. During the year, Canada's investment of $1,216,800 US as at April 1, 1983, was reduced by a payment of $293,280 US valued at $365,338 Cdn. Payments and other charges amounting to $38,539 represent a valuation adjustment of Canada's foreign investment of $923,520 US translated into Canadian dollars at the year-end closing rate of exchange ($1 US/$1.2761 Cdn).

VETERANS' LAND ACT FUND ADVANCES

Advances have been made, under Parts I and III of the Veterans' Land Act, for the acquisition of land, permanent improvements, removal of encumbrances, purchase of stock and equipment, and protection of security and, under Part II of the Act, for the purchase, subdivision and development of land, and for progress payments to veterans during construction and completion of unfinished houses, after termination of the construction contract, etc. On completion of the construction contract for each house, Canada Mortgage and Housing Corporation will place or arrange to have placed, a mortgage on the property and will reimburse the Fund the full cost of that property. The total amount authorized to be outstanding at any time is $605,000,000.

A provision equal to 1/10 of the benefits to veterans was established each year up to and including 1978-79. Since that time, a forecast of requirements has been performed each year, and provisions are established as necessary. These provisions are charged to budgetary expenditure and credited to the allowance for conditional benefits account. The allowance for conditional benefits account represents the accumulated net provisions for benefits to veterans in the form of forgiveness of loans authorized by the Veterans' Land Act. These benefits come into effect only after certain conditions are fulfilled by the veterans. At the end of 10 years, the conditions having been met, the accumulated provision is charged to the allowance for conditional benefits account, and credited to the veteran's loan account.

Table 7.8 summarizes the balances and transactions for advances to the Veterans' Land Act Fund.

Atlantic fishery enterprises

The Atlantic Fisheries Restructuring Act authorized payments for the restructure of fishery enterprises to help Atlantic fisheries to become more viable, competitive and privately-owned.

During the year, the Government purchased 100 class "A" voting shares of Pêcheries Canada Inc and 10 class "A" voting shares of Pêcheries Cartier Inc for $28,501,000 for the restructure of the Pêcheries Unies in the Province of Quebec.

The Government of Canada owns 100% of the issued voting shares of Pêcheries Canada Inc and 0.04% of the issued voting shares of Pêcheries Cartier Inc. The balance of the issued voting shares of Pêcheries Cartier Inc is owned by Pêcheries Canada Inc. The financial statements of these corporations were not available at the time of printing as their operations commenced in March 1984.

Canada Development Corporation

The Corporation was established under the Canada Development Corporation Act, to assist in the creation or development of businesses, resources, properties and industries in Canada. The Minister of Finance may subscribe to purchase and hold shares of the Corporation for the Government of Canada.

The Government has purchased, pursuant to Section 35 of the Act, 30,711,990 no par value common shares.

The Government's holding of shares represents 86.1% of the common shares outstanding, and 48% of the voting rights. At December 31, 1983, the Corporation had total assets of $7,559 million, liabilities of $6,407 million and shareholders' equity of $1,152 million of which the common shareholders' interest was $594 million. The liabilities include long-term debt of $4,449 million, none of which was guaranteed by the Government.

Canadair Limited

The Corporation was established by letters patent, granted under the Canada Corporations Act, and continued under the Canada Business Corporations Act, to manufacture and sell aircraft. The Corporation is a wholly-owned subsidiary of the Canada Development Investment Corporation (a Crown corporation listed in Schedule D of the Financial Administration Act). The financial statements of this Corporation are included in Volume III of the Public Accounts as Appendix 1 to the financial statements of the Canada Development Investment Corporation.

Loans have been made to the Corporation for the financing of water bomber aircraft, such loans to be recovered on the sale of the aircraft.

The loans are interest-free and are repayable only when the aircraft are sold.

The de Havilland Aircraft of Canada, Limited

The Corporation was established by letters patent, granted under the Ontario Corporations Act, to manufacture and sell aircraft. The Corporation is a wholly-owned subsidiary of the Canada Development Investment Corporation (a Crown corporation listed in Schedule D of the Financial Administration Act). The financial statements of this Corporation are included in Volume III of the Public Accounts as Appendix 2 to the financial statements of the Canada Development Investment Corporation.

Loans have been made to the Corporation in respect of the costs of rate tooling for the DHC-7 aircraft, such loans to be recovered on the sale of the aircraft.

The loans are interest-free and are repayable only when the aircraft are sold.

The Jacques Cartier and Champlain Bridges Incorporated

The Corporation was incorporated under the Canada Business Corporations Act, to operate and maintain the Jacques Cartier Bridge and the Champlain Bridge, and part of the Bonaventure Autoroute, in Montreal (Quebec). The Corporation is a wholly-owned subsidiary of The St Lawrence Seaway Authority (a Crown corporation listed in Schedule D of the Financial Administration Act). The financial statements of this Corporation are included in Volume III of the Public Accounts as an Appendix to the financial statements of The St Lawrence Seaway Authority.

This account records loans which were transferred from the Canada Ports Corporation.

On December 17, 1981, as per PC 1981-3635, the certificates of indebtedness were cancelled and replaced by a certificate bearing an issue date of April 1, 1981, an indefinite due date, with no repayment of principal, and an interest rate equal to zero percent per annum. Furthermore, accrued and unpaid interest amounting to $44,513,580 as of March 31, 1981, on the original certificates, are to be treated as not due and payable as of April 1, 1981.

Mingan Associates, Ltd

The Corporation was established by letters patent, granted under the laws of the Province of Quebec.

During the year, the Government purchased all of the 21,606 common shares without par value of the Corporation for an amount of $355,000, which was charged to budgetary expenditure (Indian Affairs and Northern Development Vote 10). These shares were purchased to gain ownership of a parcel of land owned by the Corporation which was required to be converted into reserve land. The Corporation will be wound up within 6 months of the conversion of land.

PRIVATE SECTOR ENTERPRISES

This group records loans, investments and advances to private sector enterprises. Private sector enterprises are industrial or commercial organizations controlled by private owners.

Table 7.10 presents a summary of the balances and transactions for the various types of loans, investments and advances to private sector enterprises.

Atlantic fishery enterprises

The Atlantic Fisheries Restructuring Act authorized payments for the restructure of fishery enterprises to help Atlantic fisheries to become more viable, competitive and privately-owned.

During the year, the Government purchased 10,000 class "AA-2" preferred shares for $10,000,000, for the restructure of National Sea Products Limited and HB Nickerson and Sons Ltd in the Province of Nova Scotia.

British Yukon Railway Company

A loan has been made to the British Yukon Railway Company, for the Whitepass and Yukon Railway, to maintain and improve the rail service of the Yukon Territory.

The loan is interest-free, is repayable over 20 years in equal annual instalments due December 31, starting December 31, 1984 and ending December 31, 2003. Instalments in arrears bear interest at the rate established by the Minister of Finance for loans to Crown corporations in effect on the day the instalment is payable.

Burgeo Leasing Limited

Loans have been made to Burgeo Leasing Limited, for the construction of an extension to the wharf at Burgeo, Newfoundland. The total loan authority is $240,000.

The loans bear interest at rates from 6.937% to 8.062% per annum, are repayable over 25 years in equal annual instalments due September 1, with the final instalment on September 1, 1996.

Canadian Arctic Producers Co-operative Limited

Capital stock

The Government's investment in the capital of the Corporation is recorded in this account. The balance as at March 31, 1984 is comprised of:

(*a*) common shares for $1,000; and,

(*b*) 235,000, 7% non-cumulative redeemable preferred shares, at $1 each.

In 1982-83, as per TB 784350, preferred shares for $235,000, and common shares for $1,000, were transferred to the Canadian Arctic Producers Co-operative Limited, under the authority of Section 52 of the Financial Administration Act. Section 52 does not authorize removing the shares from the accounts of Canada. The removing of the shares from the accounts of Canada is scheduled for 1984-85.

Loans

In 1971-72, a loan of $250,000 was issued to Canadian Arctic Producers Co-operative Limited. The loan bears interest at the rate of 7% per annum, is repayable in monthly instalments, with the final instalment on June 30, 1990.

Canadian defence industry

Advances have been made to assist Canadian defence industry with plant modernization. Advances shall not exceed one-half of the cost of the acquisition of new equipment to defence industry.

During the year, additional advances were authorized by Regional Industrial Expansion Vote L30, Appropriation Acts No 1 and No 2, 1983-84.

The advances bear no interest, are repayable over 1 to 10 years, with final instalments between April 1, 1984 and June 1, 1986.

Canadian manufacturers of automotive products

Loans have been made to assist manufacturers of automotive products in Canada, including material suppliers and tooling manufacturers, affected by the Canada-United States Agreement on Automotive Products, to adjust and expand their production, such loans to be made for the purpose of acquisition, construction, installation, modernization, development, conversion and expansion of land, buildings, equipment, facilities or machinery, and for working capital.

The loans bear interest at the rate of 13.875% per annum, are repayable over 1 to 4 years, with final instalments between April 30, 1984 and April 30, 1987.

Canadian producers of frozen groundfish

Loans have been made to Canadian producers of frozen groundfish, canned and frozen crabmeat, and canned and frozen lobster meat, to assist in the financing of inventories. The total loan authority is $5,500,000.

The loans bear interest at the rate of 13% per annum, are repayable in equal annual instalments over 7 years, with the final instalment in December 1987.

Coast Ferries Limited

A loan was made to the Corporation, for working capital purposes.

The loan bears interest at an annual rate equal to the rate established by the Minister of Finance in respect of Crown corporations' borrowings. The loan was due April 1, 1978. No interest and no repayment were received since the loan was made.

Company stock option

This account records the purchase by the General Adjustment Assistance Board and the Enterprise Development Board, on behalf of Her Majesty in right of Canada, of the capital stock of a company in order to exercise a stock option in such company that has been taken by the Board in connection with the provision of a loan, or of insurance of a loan or a letter of credit made or issued to the company in accordance with the General Adjustment Assistance Regulations, the Automotive Manufacturing Assistance Regulations, or under the Enterprise Development Program, where, in the opinion of a Board established pursuant to Section 7 of the Department of Regional Industrial Expansion Act (formerly the Department of Industry, Trade and Commerce Act):

(i) the value of the capital stock of the company has increased as a result of the assistance provided and the stock option should be exercised, in order to permit Her Majesty in right of Canada to benefit from the increased value of the capital stock of the company; or,

(ii) the stock option should be exercised, to protect the Crown's interest in respect of the loan made or insurance provided; and,

to authorize the sale or other disposition of any capital stock so acquired.

During the year, additional purchases were authorized by Regional Industrial Expansion Vote L40, Appropriation Acts No 1 and No 2, 1983-84.

Consolidated Computer Incorporated

In 1981-82, the Government disposed of its interest in Consolidated Computer Incorporated. The sum of $100,000 was received from Nabu Manufacturing Corporation in consideration of the transfer to it of debentures obtained by the Government as a result of paying off certain loans incurred by Consolidated Computer Incorporated. Now that the above transaction is completed, authority will be requested to delete the Government's investment in the Company from the accounts of Canada.

Cooperative Energy Corporation

The Corporation was established under the Cooperative Energy Act, to bring together a number of co-operative financial, agricultural, service and marketing institutions to participate in the Canadian oil and gas industry. The Corporation is a holding company whose shareholders are the participating co-operatives and the Government of Canada.

The Minister of Energy, Mines and Resources may subscribe for, acquire and hold shares and equity debentures of the Corporation for the Government of Canada. For that purpose, the Government of Canada may provide, over the next four years, up to $100,000,000 to match investment funds contributed by participating co-operative organizations.

The Government's investment in the capital of the Corporation, as authorized by the Cooperative Energy Act, is recorded in this account and is made up of:

	March 31, 1984
	$
Equity debentures	3,075,900
57,804 class B shares	5,780,400
489,477 class D shares	48,947,700
	57,804,000
269,489 class C shares	269,489
	58,073,489

The equity debentures pay 6% interest per year, payable every December 31. During the year, the Government received 184,544 class C shares at $1 each in lieu of cash for the interest due on the equity debentures.

Development of export trade

Pursuant to Section 31 of the Export Development Act, the Governor in Council may authorize the Corporation to make loans where the liability is for a term, or in an amount in excess of that normally assumed by the Corporation. Such loans are financed directly by payments out of the Consolidated Revenue Fund and are administered by the Corporation on behalf of the Government of Canada.

The loans bear interest at rates from 8.25% to 9.5% per annum, are repayable over 5 to 12 years, with final instalments between April 15, 1984 and April 15, 1995.

During the year, payments and other charges included loans of $105,029,844 and a valuation adjustment of $5,840,834 in respect of loans totalling $146,937,292 US. Interest of $11 million was received and credited to Non-tax revenue—Return on investments.

Enterprise development program

This account records loans to:

(*a*) a person engaged in a manufacturing or processing activity in Canada where, in the opinion of the Enterprise Development Board, such loan is required for the purpose of:

- (i) restructuring operations in order to adapt efficiently to competition from goods imported at such prices, in such quantities or under such conditions as to cause or threaten serious injury; or,
- (ii) adjusting to changes in conditions affecting access to foreign markets which are attributable to the imposition by a country other than Canada of an import surtax or to the taking by such country of other actions having the same effect;

(*b*) a person in respect of whom the Board has authorized the provision of insurance of a loan not exceeding $200,000 where, in the opinion of the Board, such loan is required for the purpose of preventing a serious delay in implementing a restructuring program;

(*c*) a person who has previously obtained assistance in accordance with the Automotive Manufacturing Assistance Regulations, the Pharmaceutical Industry Incentives Development Assistance Regulations or the Footwear and Tanning Industries Assistance Regulations or under the Enterprise Development Program or to any trustee or receiver authorized by law to carry on the business of such person or manufacturer where, in the opinion of the Board, such loan is required for the purpose of protecting the Crown's interest in the assets securing a loan previously made or a loan or letter of credit previously insured, where such a person is unable to obtain sufficient financing on reasonable terms from other sources for such purposes;

(*d*) a person in Canada engaged or about to engage in the tanning or in the manufacture of footwear who, in the opinion of the Board, requires assistance to establish or restructure his operations in order to meet international competition;

(*e*) a person engaged or about to engage in a manufacturing, processing or other commercial activity, for the purpose of promoting the establishment, growth, efficiency or international competitiveness of Canadian industry, and to foster the expansion of Canadian trade; and,

(*f*) a person who has previously obtained assistance under a program of assistance to industry, or any trustee or receiver authorized by law to carry on the business of such person for the purpose of protecting the Crown's interest resulting therefrom.

During the year, additional loans were authorized by Regional Industrial Expansion Vote L35, Appropriation Acts No 1 and No 2, 1983-84.

The loans are repayable over 5 to 20 years, bear interest at rates from 8.375% to 12.875% per annum, with final instalments between April 15, 1984 and December 1, 1998.

Eurocan Pulp and Paper Co Ltd

Loans have been made to Eurocan Pulp and Paper Co Ltd, for the construction of a marine terminal at Kitimat, British Columbia. The total loan authority is $4,500,000.

The loans bear interest at rates from 7.062% to 7.812% per annum, are repayable over 20 years in equal annual instalments due March 31, with the final instalment on March 31, 1991.

Footwear and tanning industries adjustment program

Loans have been made under the footwear and tanning industries adjustment program, to assist persons in Canada engaged or about to engage in the tanning or in the manufacture of footwear, who have been determined by the General Adjustment Assistance Board to be eligible for assistance to establish or restructure their operations, in order to meet international competition.

The loans bear interest at rates from 8.7% to 10% per annum, are repayable over 5 to 9 years, with final instalments between April 1, 1984 and December 1, 1989.

This loan program has been superceded by the Enterprise Development Program, and no further loans will be made.

Groundfish processors

Loans have been made to assist processors of groundfish in Canada, who, as determined by the Fisheries Prices Support Board, are unable to obtain sufficient financing on reasonable terms from other sources, to maintain raw fish prices, i.e. prices to primary producers, at the 1966-68 level. The total loan authority is $6,000,000. The loans bear interest at the rate of 8.75% per annum, are repayable in equal annual instalments over 7 years, with the final instalment in December 1984.

Loans, in the amount of $3,000,000, have also been made to ice affected fish plants in Newfoundland, Labrador and North Shore, Quebec, to provide advances for working capital assistance to Canadian producers of groundfish products in Newfoundland and Quebec, who were affected by severe ice conditions in May and June 1974. The loans bear interest at rates from 8% to 10% per annum, are repayable in equal annual instalments over 7 years, with the final instalment in December 1985.

Haddock fishermen

Loans have been made to Nova Scotia haddock fishermen whose fishery was closed from February 1 to May 31, 1975, pursuant to an agreement under the International Agreement for the Northwest Atlantic Fisheries. The total loan authority is $1,650,000.

The loans bear interest at the rate of 8% per annum, are repayable in equal annual instalments over 4 years, with the final instalment in 1979. The Department of Justice is proceeding with legal action to recover the loans.

Industrial and regional development program

Loans have been made to firms and industries to help them adjust to changing competitive conditions and to produce new, more viable and competitive products and services.

During the year, loans were authorized by Regional Industrial Expansion Vote L41b, Appropriation Act No 3, 1983-84.

The loans bear interest at the rate of 12.625% per annum, are repayable over 1 to 10 years, with final instalments between January 1, 1989 and December 31, 1998.

Kennedy Round agreement

Loans have been made under the Adjustment Assistance Program related to the Kennedy Round agreement, to assist manufacturers in Canada who have been determined by a board established pursuant to Section 7 of the Department of Regional Industrial Expansion Act: (*a*) to be seriously injured or threatened with serious injury by reason of increased imports attributable to Kennedy Round tariff reductions made by Canada, resulting in exceptional problems of adjustment; (*b*) to be unable to obtain sufficient financing on reasonable terms from other sources, for purposes of making the necessary adjustment; (*c*) to require such loans in order to adapt efficiently to competition from goods imported at such prices, in such quantities or under such conditions as to cause or threaten serious injury; and, (*d*) to be unable to obtain sufficient financing on reasonable terms from other sources for such purposes. The category of persons eligible for loans also includes a manufacturer or other person in Canada:

(*a*) in respect of whom the General Adjustment Assistance Board has authorized the provision of insurance pursuant to Industry, Trade and Commerce Vote 30c, Appropriation Act No 1, 1968, of a loan therein described for an amount not exceeding $200,000; and,

(*b*) who, in the opinion of the Board, requires such loan to prevent serious delay in implementing the restructuring program approved by the Board.

The loans bear interest only if the borrower realizes a profit, are repayable over 17 years, with the final instalment on March 1, 1990.

This loan program has been superceded by the Enterprise Development Program and consequently no further loans will be made.

Lower Churchill Development Corporation

This account records the Government's investment in the capital of the Corporation. In respect of Canada's participation with the Government of Newfoundland in the development of the hydro-electric power potential of the Lower Churchill River in Labrador, the Government is authorized to purchase approximately 49% of the shares of the Lower Churchill Development Corporation.

The Government has purchased 1,475 class A shares, representing 49% of the shares outstanding. The balance of the outstanding shares is owned by Newfoundland and Labrador Hydro.

Nanisivik Mines Ltd

The Government incurred capital expenditures of approximately $24.4 million for the construction of infrastructure facilities for Nanisivik Mines Ltd. It is expected that the Government will recover approximately $8.1 million.

In return for the infrastructure facilities provided, the Corporation issued to the Government, in October 1983, 1,800,000 common shares without nominal or par value. This represents 18% of the issued shares.

Newfoundland and Labrador Development Corporation Limited

Capital stock

The Government has purchased 200 ordinary $1 par value shares of Newfoundland and Labrador Development Corporation Limited, in accordance with an agreement between Canada and Newfoundland pursuant to Section 8(3)(c) of the Special Areas Act (formerly the Department of Regional Economic Expansion Act). This represents 40% of the authorized shares. The balance of the outstanding shares is owned by the Government of Newfoundland.

Loans

Loans have been made to provide financing and other services to small and medium-sized businesses in Newfoundland.

Oil refinery terminal wharf at Come-by-Chance, Newfoundland

Loans have been made for the construction of an oil refinery terminal wharf at Come-by-Chance, Newfoundland. The total loan authority is $28,200,520.

The loans bear interest at the rate of 1.803% per quarter, are repayable over 15 years in equal quarterly instalments due the first day of each calendar year quarter, with the final instalment on March 1, 1990. The instalments are in arrears since January 1, 1976. Parliamentary authority is required to write-off the balance.

Pharmaceutical industry development assistance program

Loans have been made, under the pharmaceutical industry development assistance program, to companies in Canada, for the purpose of improving their ability to manufacture and market lower-priced prescription drugs at competitive prices, through reorganization of any of their operation of manufacturing, distribution and research, and who were unable to obtain sufficient financing on reasonable terms from other sources for such purposes.

The loans bear interest at the rate of 8.75% per annum, are repayable over 10 years, with the final instalment on April 15, 1984.

No further loans under this program will be made.

Radio Engineering Products Limited

Loans have been made to Radio Engineering Products Limited, to provide working capital in order that it might remain viable and complete certain production.

Radio Engineering Products Limited was indebted to Revenue Canada for tax arrears of some $3,500,000, and to the Department of Regional Industrial Expansion for approximately $400,000 under the Defence Industry Productivity Program. At the time of the loans, the Government had acquired control of the Company. In November of 1975, the Company declared bankruptcy and the assets were subsequently disposed of.

These loans are in default since 1974-75. Parliamentary authority is required to write-off the balance.

Saint John Harbour Bridge Authority

Advances have been made to the Saint John Harbour Bridge Authority in connection with the financing, construction and operation of a toll bridge across the harbour of Saint John, NB. The total amount of advances in each year is to be based on the difference for the year between the operating and financing costs of the toll bridge, and the revenue of the Bridge Authority, repayable when the revenue of the Bridge Authority for the year exceeds the amount of the operating and financing costs for such year. The advances bear interest at rates from 5% to 18.375% per annum.

Advances made to the Authority to meet payments on Municipal Development and Loan Board loans and/or Canada Ports Corporation loans, have also been charged to this account. During the year, the total amount of loans authorized was increased to $11,135,000 by Finance Votes L15 and L15b, Appropriation Acts No 1, No 2 and No 3, 1983-84.

Société Inter-Port de Québec

The Government has purchased 400 fully paid capital shares of the Société Inter-Port de Québec at $1 per share, under the authority of the Minister of Regional Industrial Expansion. This represents 40% of the authorized shares. The balance of the outstanding shares is owned by the Government of Quebec.

(*a*) loans made before an Agreement-in-Principle for the settlement of a claim is reached are interest-free;

(*b*) loans made after the date on which an Agreement-in-Principle for the settlement of a claim has been reached, bear interest at a rate equal to the rate established by the Minister of Finance in respect of borrowings for equivalent terms by Crown corporations; and,

(*c*) loans are due and payable, as to principal and interest, on the date on which the claim is settled, or on a date fixed in the agreement, which shall be not later than March 31, 1994, whichever date is earlier.

Provincial workmen's compensation boards—Labour

This account is operated under the authority of Section 3(4) of the Government Employees Compensation Act, to provide operating funds to enable provincial compensation boards to administer the Act on behalf of the Crown, and pay claims to Canadian Government employees injured in the course of their employment.

The total amount of advances that is authorized to be made to all provincial workmen's compensation boards (except Quebec) is not to exceed three months' disbursements for compensation. The present limit for advances to the Province of Quebec is $1,100,000.

The advances are interest-free and are to be repaid on termination of the agreements with the provincial boards.

Canadian Forces housing projects—National Defence

Advances have been made to the Canada Mortgage and Housing Corporation, in respect of loans arranged by the Corporation for housing projects for occupancy by members of the Canadian Forces.

The loans bear interest at rates from 4% to 5.75% per annum, are repayable over 35 to 48 years, with final instalments between August 1, 1996 and November 1, 2010.

Parolees—Solicitor General

Loans have been made to parolees and individuals under mandatory supervision, to assist in their rehabilitation.

The total amount authorized to be outstanding at any time is $50,000.

The loans are non-interest bearing and are repayable before the expiration of the parole period, or within one year from the date the loans were made, whichever period is the shorter. The repayment of a loan or any part thereof may be forgiven by the Solicitor General, if certain conditions are met.

During the year, loans totalling $7,306 were forgiven pursuant to Solicitor General Vote L103b, Appropriation Act No 1, 1969. These loans were initially recorded in 1980-81, 1981-82, 1982-83 and 1983-84.

Defence production loan account—Supply and Services

This account was established under Section 15.1 of the Defence Production Act, to record loans or advances for any purpose other than to assist in the construction, acquisition, extension or improvement of capital equipment or works by any person.

Section 15.2 of the Defence Production Act stated that the aggregate of expenditures charged to the Defence production revolving fund (budgetary account), and to this account, shall not at any time exceed by more than $100,000,000 the aggregate of amounts:

(*a*) received from the sale or disposition of materials, substances or defence supplies;

(*b*) charged to another appropriation in respect of costs of acquisition, storage, maintenance or transportation of stocks of materials or substances purchased, or of stocks of defence supplies acquired, where such materials, substances or defence supplies may be acquired under that appropriation;

(*c*) charged to an appropriation or paid by an agent of Her Majesty or by an associated government, to pay costs incurred in respect of defence supplies, payment for which was made out and charged to the Defence production revolving fund; and,

(*d*) received in repayment of a loan or advance previously charged to this account.

A repayment of $1.7 million owed to this account by CAE Aircraft is in dispute concerning the date from which interest should be charged. Legal counsel is of the opinion that no loss to the Government will be incurred.

Corporation of the City of Montreal—Transport

Loans have been made to the Corporation of the City of Montreal, for the construction of vehicular tunnels under the Lachine Canal at Atwater Avenue and at St Remi Street.

Under the agreement, the Corporation was required to reimburse ⅓ of the cost of construction of the tunnels, with interest at the rate of 3.125% per annum calculated from the date of conveyance of the lands, provided that the amount did not exceed the sums of $2,000,000 for the Atwater Tunnel and $1,500,000 for the St Remi Tunnel, plus interest, and such amounts were to be repaid in 30 consecutive annual instalments, the first of which was payable twelve months after the date of conveyance of the lands, namely June 20, 1961, for the Atwater Tunnel, and June 12, 1953, for the St Remi Tunnel.

The cost of the construction of the Atwater Tunnel for purposes of the agreement exceeded $6,000,000, and the share to be reimbursed by the City is $2,000,000, with interest at the rate of 3.125% per annum, with the final instalment on June 20, 1991.

The cost of the construction of the St Remi Tunnel for the purposes of the agreement has been established at $4,132,353, and the share to be reimbursed by the City was $1,377,451 plus $21,738 for supplementary ducts installed at the request of the Montreal Hydro Commission. During the year, the loan related to the St Remi Tunnel was repaid in full.

Hamilton Harbour Commissioners—Transport

Loans have been made to the Hamilton Harbour Commissioners, to assist in the development of the harbour.

The total amount authorized to be outstanding at any time is $4,000,000.

The terms and conditions of the loans, with their year-end balances, are as follows:

(*a*) 20 year loans, bearing interest at the rate of 6.062% per annum, repayable in semi-annual instalments due June 30 and December 31, with the final instalment on June 30, 1987, $270,537;

(*b*) 20 year loans, bearing interest at the rate of 5.562% per annum, repayable in semi-annual instalments due June 30 and December 31, with the final instalment on June 30, 1987, $262,232; and,

(*c*) 39 year loan, bearing interest at the rate of 4.125% per annum, repayable in semi-annual instalments due June 30 and December 31, with the final instalment on January 31, 2001, $825,000.

Lakehead Harbour Commission—Transport

Loans have been made to the Lakehead Harbour Commission, for the expansion of the Keefer terminal.

The loans bear interest at the rate of 7.437% per annum, are repayable over 15 years in semi-annual instalments due June 30 and December 31, with the final instalment on June 30, 1989.

Port Alberni Harbour Commission—Transport

Loans have been made to the Port Alberni Harbour Commission, to finance the construction of a new lumber assembly wharf.

The terms and conditions of the loans, with their year-end balances, are as follows:

(*a*) 20 year loan, bearing interest at the rate of 8.062% per annum, repayable in semi-annual instalments due June 30 and December 31, with the final instalment on June 30, 1991, $281,538; and,

(*b*) 20 year loan, bearing interest at the rate of 7.187% per annum, repayable in semi-annual instalments due June 30 and December 31, with the final instalment on June 30, 1991, $811,539.

Commonwealth War Graves Commission—Veterans Affairs

Advances have been made to the working capital fund of the Commonwealth War Graves Commission, to maintain graves and cemeteries.

At year end, the balance of the advances was £30,000 UK. This balance was converted to $55,686 Cdn, using the year-end rate of exchange (£1UK = $1.8562 Cdn).

The advances are interest-free and have no fixed terms of repayment.

ALLOWANCE FOR VALUATION

In accordance with the comprehensive policy on valuation, assets are subject to an annual valuation to reflect reductions from the recorded value to the estimated realizable value.

The allowance for valuation for loans, investments and advances, represents the estimated losses on the realization of the loans, investments and advances included in the accounts of Canada at year end.

SUPPLEMENTARY STATEMENT

Recorded Uncollected Interest

In accordance with the Government's stated accounting policies, interest due but not received is not reported as revenue. In certain cases, this uncollected interest is recorded by being added to the applicable loan and advance account, and credited to an uncollected interest account. Since the Government's policy is to report revenue only as received, the balance of the uncollected interest account is deducted from the loan and advance account, to present it on a net basis.

Table 7.12 reports the transactions for the year in respect of the recorded uncollected interest.

SPECIFIED PURPOSE ACCOUNTS

Specified purpose accounts represent the recorded value of the financial obligations of the Government of Canada in its role as administrator of certain public moneys received or collected for specified purposes, under or pursuant to legislation, trusts, treaties, undertakings or contracts. These public moneys may be paid out only for the purposes specified in or pursuant to the legislation, trusts, treaties, undertakings or contracts.

Because of the dedicated purposes of these moneys, specific accounts are required to be maintained to provide an accounting mechanism to ensure that the moneys are used only for the purposes for which they were received or collected. Legislation relating to some accounts permits investments to be made and, in certain cases, the balances of the accounts earn interest.

This section gives details of specified purpose accounts on which summary information was given in Sections 1 and 2 of this volume.

Some tables in this section present the continuity of accounts, by showing the opening and closing balances, as well as receipts and other credits, and payments and other charges, i.e. inflow and outflow of transactions. In addition, the term "account(s) without current transactions" has been included in one table, to provide a link with figures published in the previous year's edition of the Public Accounts, and to show net transactions in accounts which were closed out in the previous year.

The financial statements of the Canada Pension Plan Account and the Canada Pension Plan Investment Fund, the Unemployment Insurance Account, the Government Annuities Account and the Royal Canadian Mounted Police (Dependants) Pension Fund, together with the Auditor General's reports thereon, are presented at the end of this section.

Canada Pension Plan Account

The Canada Pension Plan is a compulsory contributory social insurance plan which enables members of the labour force to acquire and retain protection for themselves and their families against loss of income due to retirement, disability or death. Established in 1965, the Plan applies in all parts of Canada, except the Province of Quebec which has a parallel plan.

Under existing arrangements, all benefits and costs incurred in the administration of the program are financed from contributions made by employees, employers and self-employed persons, and the interest earned from the investment of funds.

The Government's financial obligation, as administrator of the Canada Pension Plan, is limited to the balance in the account.

Table 8.2 presents a summary of the balances and transactions in the Canada Pension Plan Account less investment in securities of the provinces held by the Canada Pension Plan Investment Fund.

Receipts and other credits include:

(*a*) contributions of: (i) 1.8% of earnings by employees earning over $1,800 for the 1983 calendar year and $2,000 for the 1984 calendar year, with matching contributions by employers, subject to maximum payments of $300.60 for the 1983 calendar year and $338.40 for the 1984 calendar year and (ii) 3.6% of earnings of self-employed persons over $1,800 for the 1983 calendar year and $2,000 for the 1984 calendar year, subject to maximum payments of $601.20 for the 1983 calendar year and $676.80 for the 1984 calendar year; and,

(*b*) interest received from securities of the Canada Pension Plan Investment Fund, and from the average daily operating balance.

Payments and other charges include:

(*a*) benefits paid under the Canada Pension Plan as retirement pensions, survivors' benefits paid to widows, widowers and orphans, or as lump sum death benefits, and disability pensions and benefits to children of disabled contributors;

(*b*) benefits paid and recovered from the Canada Pension Plan, in accordance with an agreement with a province providing a comprehensive pension plan;

(*c*) payments that are required to be charged to the Canada Pension Plan Account, in accordance with reciprocal agreements with other countries; and,

(*d*) the costs of administration of the Plan.

When the operating balance exceeds the estimated amount required to meet all payments in the following three-month period, the excess is available for the purchase of securities of the provinces and Canada.

Provinces are advised monthly of the amount of excess moneys in the Canada Pension Plan Account that is available for the purchase of provincial securities. The amount available to each province is the proportion that contributions made to the Plan during the preceding ten years in respect of employment in the province, bears to total contributions. Contributions received in respect of employment in the Yukon Territory, the Northwest Territories and from certain other employees outside Canada, are invested in the special non-marketable bonds of the Government of Canada.

Certain federal employees, such as members of the Canadian Armed Forces, who are resident in the Province of Quebec, contribute to the Canada Pension Plan. The securities of Quebec which are purchased by the Plan relate to the contributions of these employees.

On the Statement of Assets and Liabilities of the Government of Canada, the investment in securities issued by provinces, as charged to the Canada Pension Plan Investment Fund, is deducted from the Canada Pension Plan Account.

Superannuation Accounts

The Government provides pensions to retired employees or their dependants through pension schemes authorized by the Public Service Superannuation Act, the Canadian Forces Superannuation Act and the Royal Canadian Mounted Police Superannuation Act. These pensions are indexed to the cost of living under authority of the Supplementary Retirement Benefits Act. The Government's liabilities in its role as administrator of these pension plans in respect of its employees and certain other contributors, are recorded in the relevant superannuation accounts.

Legislation for basic pensions provides for employee contributions (6½% of salary), employer contributions (prior year's employee contributions for members of the Public Service, and approximately 1.8 and 2.0 times current year's employee contributions for members of the Canadian Forces and the Royal Canadian Mounted Police respectively), allocation of interest (average market yield of 20 year Canada bonds weighted by the quarterly excess of receipts over disbursements in the three accounts each quarter over 20 years), and actuarial valuation deficiencies (full valuation at least once every 5 years with annual adjustments for authorized salary increases). Legislation for indexing basic pensions does not require actuarial valuations but does provide for additional employee contributions (1% of salary), matching employer contributions and allocation of interest (current rate of 5 year Canada bonds).

Receipts and other credits for the superannuation accounts consist of contributions from personnel, related contributions from the Government and participating Public Service corporations, transfers from other pension funds, other Government contributions related to actuarial liability adjustments (not applicable to the Supplementary Retirement Benefits Account), and interest. Payments and other charges for the superannuation accounts consist of payments of pensions, death benefits, refunds of contributions and transfers to other plans.

Actuarial valuations are currently made at least once every five years (quinquennially), the next valuations will be made as at December 31, 1980 for the Public Service Superannuation Account, December 31, 1980 for the Canadian Forces Superannuation Account, and December 31, 1979 for the Royal Canadian Mounted Police Superannuation Account. In accordance with the legislation governing the three superannuation plans, the Minister of Finance has the authority to direct that any actuarial deficiency found will be credited to the appropriate account, charged to unamortized portion of actuarial deficiencies, and amortized to expenditure in five equal annual instalments commencing in the year in which the actuarial report is laid before Parliament. In addition, the cost of added liabilities, created by the authorization of salary increases each year, is credited to the superannuation accounts, charged to unamortized portion of actuarial deficiencies, and amortized to expenditure over a period of five years commencing in the year in which the increases are authorized.

Since the quarter ending September 30, 1969, the regulations, made pursuant to each of the superannuation acts, have provided for the calculation of interest at a rate related to the Canada Pension Plan interest rate. The acts further provide that the amount by which the calculated interest rate (currently about 10.5% per annum) exceeds the amount of interest calculated at the rate used in the latest actuarial report (currently 6.5% per annum for the Public Service, Canadian Forces and Royal Canadian Mounted Police Superannuation Accounts), may be used to reduce the amortization of actuarial deficiencies charged to budgetary expenditure. Any of these interest earnings not needed to reduce amortization charges are credited to the respective Accounts.

Table 8.4 presents a summary of the balances and transactions for the superannuation accounts including the unamortized portion of actuarial deficiencies. Table 8.5 presents an analysis of the actuarial deficiencies.

Table 8.6 presents a summary of transactions related to superannuation accounts that resulted in charges to budgetary expenditure. In 1983-84, $4,579 million was charged to budgetary expenditure on account of superannuation plans. This is composed of Government contributions, $708 million; increased superannuation benefits paid during the year due to indexation in excess of the superannuates' share of contributions to the Supplementary Retirement Benefits Account, $604 million; and, interest, $3,267 million ($2,505 million credited to the superannuation accounts and $762 million of interest earnings in excess of 6.5% on the main superannuation accounts which was used to reduce the amortization of actuarial deficiencies).

Supplementary Retirement Benefits Account

This account was established by the Supplementary Retirement Benefits Act, to provide for the payment of increased pension benefits resulting from indexation. Actuarial valuation of the Account is not required by the legislation.

The Chief Actuary of the Department of Insurance has estimated that after taking into account surpluses in the three basic accounts, the actuarial present value of supplementary retirement benefits, including provision for future indexation, in respect of contributors (retired or in active employment) or their dependants entitled to benefits pursuant to the Public Service, Canadian Forces and Royal Canadian Mounted Police Superannuation Acts, as at March 31, 1984, was $15.8 billion ($13.5 billion as at March 31, 1983). This amount is based on an assumed interest rate of 6.5%, and other assumptions as described in the last actuarial reports on those three superannuation accounts.

Increased superannuation benefits paid during the year due to indexation amounted to $631 million ($556 million in 1982-83), of which $604 million ($525 million in 1982-83) represents benefits to superannuates in excess of their share of contributions to the account which has been charged to budgetary expenditure. The payments charged to budgetary expenditure on behalf of contributors amounted to $380 million ($332 million in 1982-83) for the Public Service Superannuation Account, $207 million ($178 million in 1982-83) for the Canadian Forces Superannuation Account, and $17 million ($15 million in 1982-83) for the Royal Canadian Mounted Police Superannuation Account. Only $27 million ($31 million in 1982-83) was charged to the Supplementary Retirement Benefits Account.

Unemployment Insurance Account

The Unemployment Insurance Act provides for a compulsory contributory unemployment insurance program applying to all employees, subject to minor exceptions.

The Act authorizes an account in the accounts of Canada to be known as the Unemployment Insurance Account.

The Act provides that the following be credited to the Account: (*a*) premiums, fines, penalties and interest; (*b*) the Government share of benefits paid; (*c*) refunds of overpayments of benefits, and benefit repayments; (*d*) amounts for services rendered to other Government departments or agencies, or to the public; (*e*) amounts provided for any other purpose related to unemployment insurance and authorized by an appropriation administered by the Canada Employment and Immigration Commission; and, (*f*) interest on the balance of the Account at such rates as the Minister of Finance may authorize. The Act also provides that the following be charged to the Account: (*a*) benefits paid under the Act; (*b*) the costs of administering the Act; and, (*c*) the interest on advances made by the Minister of Finance.

Maximum weekly employee premiums were $8.86 from April 1, 1983 to December 31, 1983 and $9.78 from January 1, 1984 to March 31, 1984. For the same periods, maximum weekly benefits were $231 from April 1, 1983 to December 31, 1983 and $255 from January 1, 1984 to March 31, 1984.

Interest bearing loans are made to the Unemployment Insurance Account, under Section 137(1) of the Unemployment Insurance Act, as a result of deficiencies in contributions from employers and employees. The balance outstanding as at March 31, 1984 bears interest at rates between 9.75% and 16.375% per annum, and is repayable between April 30, 1984 and March 31, 1985. The balance outstanding at year end is deducted from the balance of the Unemployment Insurance Account, to show the net position of the Account.

Government Annuities Account

This account was established by the Government Annuities Act, and modified by the Government Annuities Improvement Act, which discontinued sales of annuities. The account is valued on an actuarial basis each year, with the deficit or surplus charged or credited to the Consolidated Revenue Fund.

The purpose of the Government Annuities Act was to assist Canadians to provide for their later years, by the purchase of Government annuities. The Government Annuities Improvement Act increased the rate of return and flexibility of Government annuity contracts, and discontinued sales of annuities.

Receipts and other credits consist of premiums received, funds reclaimed from the Consolidated Revenue Fund for previously unlocated annuitants, earned interest and items transferred from previous years' revenue to cover the actuarial deficit. Payments and other charges represent matured annuities, the commuted value of death benefits, premium refunds and withdrawals, and actuarial surpluses and unclaimed items transferred to non-tax revenue. The amounts of unclaimed annuities, related to annuitants who cannot be located, are transferred to non-tax revenue.

Canadian Ownership Account

This account was established under the authority of Energy, Mines and Resources Vote 5c, Appropriation Act No 4, 1980-81. The account is credited with amounts received from the Canadian Ownership special charge levied to increase public ownership of the oil and gas industry in Canada.

During the year, advances were made to Petro-Canada to finance the acquisition of Petro-Canada Enterprises Inc as authorized by Vote 5c. In return, Petro-Canada issued interest-free notes convertible into its shares. Such notes were converted into common shares of the Corporation in the amount of $274,407,340. This amount, together with the amount of loans outstanding, are reported as a deduction from this account.

Deposit and Trust Accounts

Deposit and trust accounts is a group of liabilities representing the Government's financial obligations in its role as administrator of certain moneys that it has received or collected for specified purposes and that it will pay out accordingly. To the extent that the funds received are represented by securities, these are deducted from the corresponding accounts to show the Government's net liability.

Table 8.12 presents a summary of the balances and transactions in deposit and trust accounts.

Retirement fund

This fund provides pension benefits to certain eligible Government employees who are not covered by the Public Service Superannuation Account and who contributed to the fund.

Contributions are made to the fund in the form of monthly deductions from the salaries of certain prevailing rate or seasonal and certain other employees. Other credits are interest at the rate of 4% per annum on the balance to the credit of each contributor, the off-setting charge being to interest on public debt. Payments and other charges represent payment of the amounts to the employees' credit upon resignation or death, or, if they become contributors to the Public Service Superannuation Account, transfers to that account.

Returned soldiers' insurance fund

This fund was established by the Returned Soldiers' Insurance Act, to provide life insurance to contributing veterans of World War I. The account is credited with premiums and with an actuarial liability adjustment as at March 31, 1983 of $16,116 (charged to budgetary expenditure). It is charged with disbursements for death benefits and cash surrender values. The final date on which application for this insurance could have been received, was August 31, 1933.

Veterans' insurance fund

This fund was established by the Veterans' Insurance Act, to provide life insurance to contributing veterans of World War II. The account is credited with premiums and with an actuarial liability adjustment as at March 31, 1983 of $606,352 (charged to budgetary expenditure). It is charged with disbursements for death benefits and cash surrender values. The final date on which application for this insurance could have been received, was October 31, 1968.

SUPPLEMENTARY STATEMENTS

Canada Pension Plan Account and the Canada Pension Plan Investment Fund

AUDITOR'S REPORT

THE HONOURABLE JAKE EPP, P.C., M.P.
MINISTER OF NATIONAL HEALTH AND WELFARE

I have examined the statements of the Canada Pension Plan Account and the Canada Pension Plan Investment Fund for the year ended March 31, 1984. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these statements present fairly the balance and changes of the Account and the Fund for the year ended March 31, 1984 in accordance with the accounting policies set out in Note 2 to the statements applied on a basis consistent with that of the preceding year.

NOTES TO STATEMENTS FOR THE YEAR ENDED MARCH 31, 1984

1. Plan description and authority

The Canada Pension Plan (the Plan) is a compulsory and contributory social insurance plan which enables members of the labour force to acquire and retain protection for themselves and their families against loss of income due to retirement, disability or death. The Plan applies in all parts of Canada, except for the Province of Quebec which has a parallel plan.

Under existing arrangements, all benefits and all costs incurred in the administration of the Plan are financed by the contributions made by employees, employers and self-employed persons and the interest earned from the investment of funds.

The Canada Pension Plan Account (the Account) was established in the accounts of Canada by Section 110.(1) of the Canada Pension Plan, a 1965 Act of Parliament, to record the contributions, interest, benefits and expenses of the Plan.

The Canada Pension Plan Investment Fund (the Fund) was established in the accounts of Canada by Section 111.(1) of the Plan to record the investment in securities of the provinces and Canada.

2. Accounting policies

Canada Pension Plan Account

The amounts credited and charged to the Account are in accordance with Sections 110.(2) and 110.(3) of the Plan, respectively. Contributions, interest and benefits are recorded on a cash basis. Contributions are received from Revenue Canada—Taxation based on estimates of collections for the current year and adjustments to the estimates of prior years. Expenses are recorded on an accrual basis. The balance in the Account represents the accumulated excess of contributions and interest over benefits and expenses to date.

Canada Pension Plan Investment Fund

The amounts charged and credited to the Fund are in accordance with Section 111.(2) of the Plan. All securities held are carried at cost, are non-negotiable and have a term of 20 years or such lesser period as may be determined by the Minister of Finance on the recommendation of the Chief Actuary of the Department of Insurance.

3. Interest

	1984	1983
	(in thousands of dollars)

	2,533,749	2,235,856

4. Expenses

Expenses of the Account represent the costs of administration charged by six federal government departments: Revenue Canada—Taxation (collection of contributions); Health and Welfare (administration); Supply and Services (cheque issue and computer services); Public Works (accommodation); Employment and Immigration (assignment of social insurance numbers and maintenance of central index); and Insurance (actuarial services).

Canada Pension Plan Account and the Canada Pension Plan Investment Fund—*Concluded*

NOTES TO STATEMENTS FOR THE YEAR ENDED MARCH 31, 1984—*Concluded*

5. Investment in securities

Operating balances on deposit with the Receiver General in excess of estimated cash requirements for the following three-month period are available for purchases of securities of the provinces and Canada. The monies available for securities purchases are allocated to the provinces based on the proportion of contributions credited to the Account during the preceding 10 years in respect of employment in a given province to the total contributions in those years. The portion attributed to employment in the Yukon Territory, the Northwest Territories and certain other employees outside Canada are invested in securities of Canada.

The securities of Quebec relate to the contributions of certain federal employees, such as members of the Canadian Armed Forces, who are residents in the Province of Quebec.

6. Financing of the Plan

When the Plan was introduced, the combined employer-employee contribution rate was set at 3.6% of the contributory earnings with the understanding that this would be sufficient to meet the cost of benefits and administration for a certain period of time but not indefinitely. In the initial years, a fund would be built up from which resources would be used to purchase securities of the provinces and, to a much lesser extent, securities of Canada as described in Note 5. However, since inception of the Plan, it has been recognized that the 3.6% contribution rate would need to be raised at some point in the future.

The Plan is not designed to be fully funded on a private sector pension plan basis. However, if the Plan were to be fully funded, the Chief Actuary of the Department of Insurance estimates that $208 billion would be required at December 31, 1983 to pay future benefits of all contributors and pensioners in the Plan at that time. The estimate is based upon ultimate assumptions used in the most recent actuarial report, tabled in the House of Commons on June 5, 1984. The report indicated that if no changes were made to the combined employer-employee contribution rate of 3.6%, the annual cost of benefits and expenses would exceed the amount of annual contributions by the year 1985.

After 1985, a gradually increasing proportion of the interest would be needed to finance benefits and expenses, and no further funds, apart from the reinvestment of a portion of interest owed to the Account, would be available to the provinces as loans. The Account would continue to grow until 1994 when all of the interest would be needed to meet payments. If the increase in the contribution rate were delayed beyond 1994, the balance of the Account would start to decline and by the year 2004, it would be exhausted. The contribution rate would have to increase to 6.1% in 2004 and then slowly rise to a relatively stable rate of between 10 and 11% by 2030 in order to maintain benefit payments.

Under existing legislation, any proposed enactment to alter the general level of benefits or the rate of contributions requires agreement by at least two-thirds of the 10 provinces having an aggregate of not less than two-thirds of the population.

A long-term financing philosophy for the Plan which will include the timing and rate of increase of the contribution rate is being considered by the provinces and the federal government.

Canada Employment and Immigration Commission relating to the Unemployment Insurance Account

AUDITOR'S REPORT

THE HONOURABLE JOHN ROBERTS, P.C., M.P.
MINISTER OF EMPLOYMENT AND IMMIGRATION

I have examined the balance sheet of the Canada Employment and Immigration Commission relating to the Unemployment Insurance Account as at December 31, 1983 and the statement of revenue, expenses and deficit for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present fairly the financial position of the Commission relating to the Unemployment Insurance Account as at December 31, 1983 and the results of its operations for the year then ended in accordance with the accounting policies set out in Note 2 to the financial statements applied on a basis consistent with that of the preceding year.

In addition, I wish to mention that overpayments and underpayments of benefits still exist. However, as mentioned in Note 6 to the financial statements, the Commission continues its efforts to identify reliably and consistently the extent and causes of overpayments and underpayments in order to improve its controls over benefit processing.

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 1983

1. Authority and objective

The Canada Employment and Immigration Commission, a departmental Crown corporation named in Schedule B to the Financial Administration Act, administers the Unemployment Insurance Act, 1971 as amended. The objective of the Act is to provide short-term financial relief and other assistance to eligible workers. The financial operations relating to this objective are reported through the Unemployment Insurance Account.

In the accounts of Canada, the Unemployment Insurance Account was established by Section 131 of the Act. All amounts received under the Act are deposited in the Consolidated Revenue Fund and credited to this Account. Benefits and the cost of administration of the Act are paid out of the Consolidated Revenue Fund and charged to this Account.

2. Accounting policies

(a) Premiums

Under Part IV of the Act, the Minister of National Revenue is responsible for collecting premiums from employers and employees. These premiums are recorded based on the estimate for the current year and include adjustments between actual and estimated premiums of prior years.

(b) Interest

Interest on the balance of the account with Receiver General for Canada and interest on advances from Canada are recorded on an accrual basis.

(c) Penalties

Penalties, levied pursuant to Section 47 of the Act, are recorded on an accrual basis.

(d) Benefits

Benefits represent warrants issued during the year less benefit overpayments identified by the Commission during the year and benefit repayments received and estimated receivable under Section 142 of the Act.

(e) Administration

The costs of administration of the Act are determined by the Unemployment Insurance Regulations and are charged to the Account by the Commission.

(f) Government's share of benefits

The Government's share of benefits is recorded on an accrual basis.

3. Due from claimants

	1983	1982
	(in thousands of dollars)	
Benefit overpayments and penalties	75,459	60,882
Less: allowance for doubtful accounts	15,319	15,418
	60,140	45,464
Benefit repayments under Section 142 of the Act	61,000	72,700
	121,140	118,164

Uncollectable benefit overpayments and penalties written-off during the year under authority of Section 60(2) of the Regulations amounted to $4.8 million (1982—$4.1 million).

4. Due from (to) Canada

	1983	1982
	(in thousands of dollars)	
Government's share of benefits	100,435	34,333
Premiums	(2,631)	(18,067)
Interest on deposit with Receiver General for Canada	25	(1,387)
Administration expenses	(10,847)	(53,402)
Benefit repayments	149	186
Other	(66)	(41)
	87,065	(38,378)

5. Advances from Canada

Advances from Canada are made under Section 137 of the Act and the Unemployment Insurance Account Advance Regulations, by means of promissory notes which bear annual interest compounded semi-annually at rates varying from 9.75% to 16.375%. The balance as at December 31 consists of $3,328 million ($1,990 in 1982) in principal and accrued interest of $383.7 million ($91.5 million in 1982). Of this amount of $3,328 million in principal, $1,648 million is repayable in 1984 and $1,680 million in 1985.

Canada Employment and Immigration Commission relating to the Unemployment Insurance Account—*Concluded*

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 1983—*Concluded*

6. Overpayments and underpayments of benefits

The Commission is responsible for exercising the control necessary to ensure the initial and continuing eligibility of approximately 3.5 million individual claimants to whom benefits were paid in 1983, while providing prompt and efficient service to those who are entitled to receive benefits under the Act.

Because of the large number of claimants to be monitored and the requirement for prompt service, internal control procedures are selective rather than universal in application and the Commission relies mainly on the verification of claims after claimants have begun to receive benefits.

The comprehensive tracking system, which was implemented during the year, indicates clearly that overpayments and underpayments of benefits still exist. The objective of the system is to identify the causes and to estimate the amount of overpayments and underpayments on a basis similar to previous studies by the Auditor General of Canada. The Commission is now implementing measures to ensure that this objective is met in the near future.

SCHEDULE OF BENEFITS FOR THE YEAR ENDED DECEMBER 31, 1983

	10,062,617	2,810,573	8,454,518	1,775,803

The benefits for the extended regional unemployment rate and the fishing benefits are the sole responsibility of the Government.

The Government's share of fishing benefits represents the benefits paid minus the fishing premiums which are collected for the Government of Canada.

Government Annuities Account

AUDITOR'S REPORT

THE HONOURABLE JOHN ROBERTS, P.C., M.P.

NOTES TO FINANCIAL STATEMENTS MARCH 31, 1984

1. Authority and purpose

The Government Annuities Account was established in 1908 by the Government Annuities Act, R.S.C. c. G-6, and modified by the Government Annuities Improvement Act, S.C. 1974-75-76, c. 83.

The purpose of the Act was to assist individuals and groups of Canadians to provide for their later years by purchasing Government annuities. The Improvement Act increased the rate of return on Government annuity contracts, increased their flexibility and discontinued future sales.

The Account is administered by the Canada Employment and Immigration Commission and operates through the Consolidated Revenue Fund.

2. Significant accounting policies

(a) Basis of accounting
The accounts of the Government Annuities Account are maintained on an accrual basis.

(b) Unpaid annuities
In accordance with Section 15 of the Acts, and with the Government Annuities Regulations, unpaid annuities comprise: (i) in respect of unmatured annuities, accumulated premiums and accrued interest, and (ii) in respect of matured annuities, the present value of such annuities actuarially determined on the basis of such rate or rates of interest and mortality tables as is prescribed.

(c) Actuarial surplus due to Canada
If at the end of any fiscal year the recorded amount of unpaid annuities exceeds or is less than the calculated amount of unpaid annuities, the difference results in an actuarial surplus or deficit which is charged or credited to the Government Annuities Account within the Consolidated Revenue Fund.

(d) Interest from Canada
Interest from Canada is calculated annually on unpaid annuities, at a rate of seven per cent, as required by the Improvement Act.

(e) Unclaimed annuities
Unclaimed annuities represent amounts transferred to the Consolidated Revenue Fund in respect of annuities that could not be paid because the annuitants could not be located.

3. Services provided without charge

Administrative services are provided to the Account by the Canada Employment and Immigration Commission without charge.

For the year ended March 31, 1984, the cost of these services amounted to $3,532,000 (1983—$3,432,000), including amounts for services provided without charge by other Government departments to the Commission.

AUDITOR'S REPORT

THE HONOURABLE ROBERT KAPLAN, P.C., M.P.
SOLICITOR GENERAL

I have examined the statement of receipts and disbursements and fund balance of the Royal Canadian Mounted Police (Dependants) Pension Fund for the year ended March 31, 1984. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, this financial statement presents fairly the receipts and disbursements of the Fund and its balance for the year ended March 31, 1984 in accordance with the basis of accounting set out in Note 2 to the financial statement, applied on a basis consistent with that of the preceding year.

NOTES TO FINANCIAL STATEMENT MARCH 31, 1984

1. Authority and operations

The Royal Canadian Mounted Police (Dependants) Pension Fund was established in 1934 by the Royal Canadian Mounted Police Pension Continuation Act. The Act provides for members of the Force, other than commissioned officers, appointed before March 1, 1949, to purchase certain survivorship benefits for their dependants by payment of specified contributions. The Fund is credited with these contributions together with interest computed quarterly on the balance to the credit of the Fund at the end of the preceding quarter, and charged with contributions withdrawn and pensions. All transactions of the Fund are made through the Consolidated Revenue Fund.

Section 56 of the Act directs the Minister of Finance to have an actuarial examination of the Fund made at least once every 5 years. If the actuarial valuation discloses a surplus, the Governor in Council may, by order, increase pensions. If there is an actuarial deficiency, the Governor in Council may direct that there be credited to the Fund, out of any unappropriated moneys in the Consolidated Revenue Fund, such amount as may be required to re-establish solvency of the Fund.

2. Basis of accounting

All transactions of the Fund are accounted for on a cash basis.

3. Supplementary information

The most recent actuarial examination was made as at March 31, 1982. The valuation disclosed an actuarial surplus of $1,812,000 of which $692,000 was allocated to increased pensions, retroactive to January 1, 1982.

OTHER LIABILITIES

This section contains information on accounts reported on the Statement of Assets and Liabilities under "Other Liabilities". The establishment and operation of these accounts is authorized by Parliament in annual appropriation acts and other legislation.

Some tables in this section present the continuity of accounts, by showing the opening and closing balances, as well as receipts and other credits, and payments and other charges, i.e. inflow and outflow of transactions. In addition, the term "account without current transactions" has been included in some tables, to provide a link with figures published in the previous year's edition of the Public Accounts, and to show net transactions in accounts which were closed out in the previous year.

Table 9.1 presents the year-end balances for other liabilities.

OTHER LIABILITIES

Interest due

Interest due is the amount of interest on the bonded debt, which is payable by coupon but for which coupons have not been presented for payment.

Interest accrued

Interest accrued is the amount of interest accumulated as at March 31 on the bonded debt and certain other liabilities, that is not payable until a future date.

Provision for compound and bonus interest on Canada savings bonds

This account records the estimated amount to meet future obligations for additional interest payments to holders of certain Canada savings bonds.

Matured debt

This account records financial obligations represented by certificates of indebtedness issued by the Government of Canada, that have become due but that have not been presented for redemption. Unclaimed matured bonds are transferred to non-tax revenue if they remain unredeemed 15 years after the date of call or maturity, whichever is earlier; the minimum time before such a transfer is made is 5 years from the date of maturity.

Unamortized Discount on Treasury Bills

This account records the portion of the discount on outstanding Treasury bills which has not yet been charged to expenditure. The discount is amortized as an expenditure over the term of issue.

Accounts Payable

This account represents amounts owing at the year end pursuant to contractual arrangements, or for work performed, goods received, or services rendered, relating to appropriations on which Parliament has imposed annual ceilings and items to be paid from certain statutory authorities.

Outstanding Cheques and Warrants

This account records cheques and warrants issued but not yet presented for payment.

Table 9.3 presents a summary of the balances in this account.

Outstanding cheques

Cheques issued in Canadian dollars, and unpaid at March 31, are recorded in this account. Cheques outstanding for 10 years are transferred to non-tax revenue.

Cheques in foreign currencies are credited at the time of issue to the Government's cash account.

Imprest account cheques

Imprest account cheques issued prior to the current year and unpaid at March 31 of the current year, with the exception of those outstanding for 10 years or more (which have been transferred to non-tax revenue), are recorded in this account. During the year, an amount of $53,555 was transferred to revenue.

Unemployment Insurance warrants

This account records outstanding Unemployment Insurance benefit warrants.

Allowance for Employee Vacation and Termination Benefits

This account represents allowances for amounts owing for earned and unpaid annual vacation leave ($400 million) and for employee benefits payable upon termination of employment ($1,500 million).

Eldorado Mining and Refining Limited—Unpresented capital stock

The liability of the Government of Canada for the value of the paid-up capital stock of the former company, which has not been redeemed at the close of the year, is recorded herein.

Miscellaneous departmental paylist deductions

Deductions from the salaries and wages of certain employees are credited to this account pending transmittal to the related outside organizations.

Olympic account

This account recorded transactions in accordance with the Olympic Act. Payments and other charges to the account represented: (*a*) administrative, merchandising, distribution, promotion and other costs incurred by Canada in connection with the distribution and sale of olympic coins; (*b*) the net costs, as determined by the Minister of Finance, of any redemption of olympic coins; and, (*c*) amounts paid to the Olympic Corporation. Receipts and other credits represented: (*a*) proceeds less production costs derived by Canada from the issue and sale of olympic coins; and, (*b*) the amount of the net proceeds derived by Canada from the sale of olympic stamps and related postal products.

The account was closed during the year.

Contractors' and other holdbacks

This account records the amounts withheld to ensure that contracts are carried out as stipulated. Holdbacks are charged to appropriations of departments or agencies concerned, and are credited to this account under Section 35 of the Financial Administration Act. They are paid out in accordance with contracts under regulations of the Treasury Board.

Suspense accounts

Accounts in which transactions are recorded temporarily, pending their ultimate disposition.

FOREIGN EXCHANGE ACCOUNTS

Foreign exchange accounts represent financial claims and obligations of the Government of Canada which are identified with Canada's foreign exchange operations. Financial claims and obligations denominated in foreign currencies are reported at Canadian dollar equivalents at March 31. Net gains resulting from the translation of the net assets denominated in foreign currencies, to Canadian dollar equivalents as at March 31, are credited to revenue as premium and discount on exchange, and net losses are charged to budgetary expenditure of the Department of Finance.

Table 10.1 presents the continuity of each foreign exchange account, by showing the opening and closing balances, as well as receipts and other credits, and payments and other charges. It should be noted, however, that this table excludes unmatured debt payable in foreign currencies, amounting to $5,202 million as at March 31, 1984 ($5,222 million as at March 31, 1983); details relating to these obligations are presented in Section 11 of this volume.

Exchange Fund Account—Advances

This account records the moneys advanced from the Government of Canada to the Exchange Fund Account, in Canadian and other currencies, for the purchase of gold, foreign currencies and securities, and Special Drawing Rights (SDRs).

The Exchange Fund Account is operated under the provisions of the Currency and Exchange Act. In accordance with this Act, audited financial statements for the Exchange Fund Account are prepared for each calendar year. These financial statements as at December 31, 1983, together with the Auditor General's report thereon, are found at the end of this section.

Table 10.2 shows advances to, and assets held by, the Exchange Fund Account as at March 31, 1984. Gold held by the Account is valued at 35 SDRs per fine ounce ($47.53 Cdn as at March 31, 1984 and $46.70 Cdn as at March 31, 1983).

In 1983-84, payments and other charges consisted of advances to the Exchange Fund Account in the amount of $16,609 million, and a valuation adjustment of $133 million. Receipts and other credits consisted of repayments of advances of $17,497 million, and a valuation adjustment of $11 million.

(2) Less than $500,000.

International Monetary Fund—Subscriptions

This account records the value of Canada's quota (i.e. subscription assigned) in the capital of the International Monetary Fund (IMF).

The amount by which the sum of Canada's subscriptions and loans to the IMF, under special facilities, exceeds the IMF's holdings of Canadian dollars represents the amount of foreign exchange which Canada is entitled to draw from the IMF on demand, for balance of payments purposes. The subscription is expressed in terms of the SDR, a unit of account defined in terms of a "basket" of five major currencies.

Canada has accumulated its subscriptions through settlements to the IMF in Canadian dollars, gold and SDRs. Annual maintenance of value payments are made to, or received from, the IMF when the Canadian dollar depreciates or appreciates against the SDR, in order to maintain the SDR-value of the IMF's holdings of Canadian dollars. In 1983-84, receipts and other credits consisted of a valuation adjustment of $8 million while payments and other charges consisted of subscriptions of $1,176 million, a maintenance of value adjustment of $95 million and a valuation adjustment of $16 million.

International Monetary Fund—Notes Payable

This account records non-marketable, non-interest bearing notes issued by the Government of Canada to the IMF. These notes are payable on demand and are subject to redemption or re-issue, depending on the needs of the IMF for Canadian currency.

Canadian dollar holdings of the IMF include these notes and a small working balance (initially equal to one-quarter of one percent of Canada's subscription) held on deposit at the Bank of Canada. In 1983-84, notes payable to the IMF increased by $961 million.

Special Drawing Rights

This account records the value of SDRs allocated to Canada by the IMF. The Special Drawing Right is an international currency created by the IMF, and allocated to countries participating in its Special Drawing Rights Department. It represents a liability of Canada, as circumstances could arise whereby Canada could be called upon to repay these allocations, in part or in total.

As an asset, SDRs represent the value of the rights to purchase currencies of other countries participating in the IMF's Special Drawing Rights Department, as well as to make payments to the IMF itself. All SDRs allocated to Canada by the IMF have either been used to settle subscriptions in the IMF, or have been advanced to the Exchange Fund Account.

There was no allocation of SDRs by the IMF to Canada during the year. In 1983-84, receipts and other credits consisted of a valuation adjustment of $19 million.

SUPPLEMENTARY STATEMENT

Exchange Fund Account

AUDITOR'S REPORT

THE HONOURABLE MARC LALONDE, P.C., M.P.
MINISTER OF FINANCE

I have examined the balance sheet of the Exchange Fund Account as at December 31, 1983 and the statement of income for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present fairly the financial position of the Account as at December 31, 1983 and the results of its operations for the year then ended in accordance with the accounting policies set out in Note 2 to the financial statements applied on a basis consistent with that of the preceding year.

I further report that, in my opinion, the accounting policies of the Account in respect of the valuation of gold and accounting for the realized gains on sales of gold are not in accordance with Section 16 of the Currency and Exchange Act. Gold is recorded at its approximate historical cost and not adjusted to its commodity market value as required, in my opinion, by Section 16. As a result, income does not include unrealized valuation gains on gold equal to the difference between commodity market value and approximate historical cost. Realized gains on sales of gold are recorded as valuation gains and taken into income in equal amounts over a three year period. In my opinion, Section 16 requires that these gains be entirely taken into income of the year and therefore paid over to the Consolidated Revenue Fund within three months after the end of the year. Proposed amendments to the Act to provide explicit authority for the accounting policies currently being followed by the Account have received first reading in the House of Commons.

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 1983

1. Authority and objective

The Account was established pursuant to the Exchange Fund Act, S.C. 1935, c. 60, continued by the Foreign Exchange Control Act, S.C. 1946, c. 53 and further continued and governed by Part II of the Currency and Exchange Act, R.S.C. 1970, c. C-39, as amended (the Act). The Account is in the name of the Minister of Finance and is administered by the Bank of Canada as fiscal agent. The Account is funded by advances from the Consolidated Revenue Fund (CRF) and the net income for the year due to the CRF is payable within three months after the end of the year.

The main objective of the Account is to aid in the control and protection of the external value of the Canadian dollar and the Minister acquires for the Account those assets which are deemed appropriate for this purpose in accordance with the Act.

2. Accounting policies

Valuation of assets

US dollar securities, Special Drawing Rights (SDRs) and International Monetary Fund (IMF) notes are recorded at cost and adjusted for amortized premiums and discounts where applicable, and include accrued interest. Gold is recorded at 35 SDRs per fine ounce, which approximates its historical cost. Cash and short-term deposits include accrued interest where applicable.

Translation of foreign currencies and SDRs

Assets and liabilities denominated in foreign currencies are translated into Canadian dollars at the year-end exchange rates in the Canadian foreign exchange market. Assets and liabilities denominated in SDRs are first translated into US dollars at the year-end US dollar value of the SDR, as calculated by the IMF, and then into Canadian dollars. Investment income in foreign currencies is translated into Canadian dollars at the foreign exchange rates prevailing on the date the income is recorded. The assets and liabilities denominated in foreign currencies and SDRs have been translated into Canadian dollars at the following year-end exchange rates:

	1983	1982
US dollar	1.2444	1.2288
Deutsche mark	0.4562	0.5188
Swiss franc	0.5702	0.6158

Special Drawing Right	1.30283	1.35549

Exchange Fund Account—*Continued*

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 1983—*Continued*

Investment income

Investment income is recorded on an accrual basis and includes interest earned, amortization of premiums and discounts, and gains and losses on the sale of securities.

Valuation gains and losses

Valuation gains and losses include the increases and decreases in the value of assets and liabilities arising from the translation of foreign currencies and SDRs during the year and at year end. Valuation gains and losses also include gains or losses on transactions in foreign currencies, SDRs and gold, and on the liquidation of liabilities. In accordance with the provisions of the Act, valuation gains and losses for the year are taken into income in three equal portions over the current and two succeeding years.

Operating expenses

The Bank of Canada provides, without charge, the administrative, custodial and fiscal agency services to carry out the objectives of the Account. Other expenses incurred in the operation of the Account are charged against investment income.

3. Securities denominated in US dollars

	1983	1982
	(in millions of US dollars)	
US Government treasury bills	1,817.3	794.5
International Bank for Reconstruction and Development bonds	30.0	
Accrued interest	1.0	
	1,848.3	794.5

Estimated market value at year end:
1983—US $1,848 million (Cdn $2,300 million)
1982—US $795 million (Cdn $977 million)

4. Special Drawing Rights

SDRs were created by the IMF to supplement international reserve assets. SDRs are allocated to member countries in proportion to their quotas in the IMF and can be used in transactions between participants in the SDR Department of the IMF or in transactions with the IMF itself. The value of the SDR is calculated by the IMF as a weighted average of the market values of five major currencies. At year end, one SDR was equivalent to US $1.04695 (1982—US $1.10310).

The liability of a member country to the IMF in respect of cumulative SDR allocations is the settlement obligation that would be incurred upon the termination of that country's participation in the SDR Department of the IMF or on the liquidation by the IMF of this Department. SDRs allocated to Canada by the IMF are advanced from the CRF to the Account. However, some SDRs have subsequently been returned to the CRF and used to pay part of Canada's increased subscription in the IMF.

The IMF pays interest on SDRs held and charges interest at an identical rate on the cumulative allocations. The interest rate is based on short-term money market rates in the countries whose currencies are used to calculate the value of the SDR. Interest paid by the IMF on SDRs held by the Account is included in investment income. Interest on Canada's cumulative allocations is charged directly to the CRF.

The following is a reconciliation between the IMF cumulative allocations of SDRs to Canada and the SDRs held by the Account:

	1983	1982

	(in millions of US dollars)	
Notes	129.4	14.0
Accrued interest	5.8	0.9
	135.2	14.9

These notes represent Canada's participation in the Supplementary Financing Facility established to assist members of the IMF with balance of payments needs. The notes were acquired in 1979, 1980 and 1983 and have original terms to maturity of five years. They are redeemable on demand if Canada represents that it has a balance of payments need and are transferable to other members.

6. Gold

	1983	1982
	(in thousands of fine ounces)	
Held at beginning of the year	20,263	20,463
Sales	93	200
Held at end of the year	20,170	20,263
	(in millions of US dollars)	
	739.1	782.5

Gold is recorded at 35 SDRs (US $36.64; 1982—US $38.61) per fine ounce. During the year, the market price of gold, as recorded at the London fixings, ranged from a low of US $374.25 (1982—US $296.75) per fine ounce to a high of US $511.50 (1982—US $488.50) and closed at US $381.50 (1982—US $448.00).

The Minister of Finance has authorized loans and/or sales, at market related prices, of part of the gold held by the Account, to the Royal Canadian Mint and others. At year end, the Account's gold holdings included gold loans of 40 thousand (1982—292 thousand) fine ounces.

7. Official international reserve assets

The Account is the principal repository of Canada's official international reserves which, as defined by the Minister of Finance, also include certain foreign assets of both the Bank of Canada and the CRF.

Less: Canadian dollar deposit with the Receiver General for Canada		1,815.0		4,283.0
		3,210.4		1,617.0

Advances from the CRF are limited to Cdn $10 billion by Order in Council dated March 1, 1979 and are not subject to interest.

The proceeds of Canada's borrowings in foreign currency and the IMF allocations of SDRs have been advanced in foreign currency and SDRs from the CRF to the Account. The borrowings include foreign bond and note issues and bank loans, as well as borrowings under Standby Credit Arrangements with Canadian and foreign banks. Redemptions of such borrowings are made using the resources of the Account. Interest payable by Canada on borrowings in foreign currencies is charged directly to the CRF.

9. Provision for valuation losses on uncompleted contracts

At year end, the Account had outstanding short-term swap arrangements with the Bank of Canada as well as uncompleted foreign exchange transactions.

As the exchange rates on these uncompleted contracts differ from the year-end rates at which the Account's assets and liabilities are valued, additional valuation gains or losses will occur upon settlement. The provision for valuation losses on uncompleted contracts arises from the revaluation of such contracts using the year-end rates of exchange and represents the portion of future net losses attributed to the current year.

Under the swap arrangements with the Bank of Canada, the Account sells US dollars to the Bank and agrees to repurchase these amounts at the same exchange rates at which they were sold. These contracts are undertaken to assist in the Bank's management of chartered banks' cash reserves. Swaps outstanding at year end amounted to US $225 million (Cdn $280 million) (1982 — US $1,040 million; Cdn $1,287 million). Assets transferred to the Bank under swap arrangements remain part of Canada's official international reserves.

UNMATURED DEBT

Unmatured debt represents financial obligations resulting from certificates of indebtedness issued by the Government of Canada that have not yet become due.

The Government's holdings of its own securities have been deducted from unmatured debt, to report the amount of the Government's liabilities to outside parties.

Some tables in this section present the continuity of accounts, by showing the opening and closing balances, as well as issues and retirements, i.e. inflow and outflow of transactions. In addition, the term "account(s) without current transactions" has been included in some tables, to provide a link with figures published in the previous year's edition of the Public Accounts, and to show net transactions in accounts which were closed out in the previous year.

Marketable Bonds

Marketable bonds are interest-bearing certificates of indebtedness issued by the Government of Canada, and have the following characteristics:

—bought and sold on the open market;

—payable in Canadian or foreign currency;

—subject to call or redemption before maturity;

—fixed dates of maturity;

—interest payable either in coupon or registered form; and,

—face value guaranteed at maturity.

Registered marketable bonds are transferable by endorsement and delivery by one holder to another. Bearer marketable bonds need not be endorsed.

Table 11.2 presents a summary of the balances and transactions for marketable bonds. Since most of the marketable bonds are not subject to call or redemption before maturity, exceptions only are noted in the table.

The year-end balances of marketable bonds payable in foreign currencies were translated into Canadian dollars using the closing rates of exchange at March 31, 1984.

Canada Savings Bonds

Canada savings bonds are interest-bearing certificates of indebtedness issued by the Government of Canada, and have the following characteristics:

—issued to Canadian residents;

—issued in Canadian currency only;

—registered in the name of the holder;

—fixed dates of maturity;

—not marketable;

—redeemable on demand by the holder, with accrued interest calculated to the end of the previous month;

—not subject to call before maturity; and,

—term to maturity of seven years or more.

Certain series of Canada savings bonds include provisions for cash bonuses payable at maturity.

Table 11.3 presents a summary of the balances and transactions for Canada savings bonds.

Treasury Bills

Treasury bills are short-term certificates of indebtedness issued by the Government of Canada to pay sums of money on given dates, and have the following characteristics:

- —issued at a discount in lieu of interest payments;
- —common terms: 3 months, 6 months and 12 months;
- —issued in Canadian currency only;
- —transferable; and,
- —bought and sold on the open market.

Three-month and six-month bills are usually issued weekly, while other bills are issued every two weeks, usually for periods of one year or less.

The balance at March 31, 1984 consists of $18,025 million in three-month bills; $15,850 million in six-month bills; and, $7,825 million in 364-day bills.

Table 11.5 presents a monthly summary of Treasury bill issues and redemptions.

Notes and Loans Payable in Foreign Currencies

This account records borrowings by the Government of Canada under agreements with banks in Canada, United States, Switzerland and Japan.

Transactions during the year consisted of issues in United States dollars and valuations of all year-end balances. The balances at March 31, 1984 consist of:

- —$400,000,000 US ($510,440,000 Cdn) in a one-month note from Canadian chartered banks;
- —$1,250,000,000 US ($1,595,125,000 Cdn) five year loans from international banks;
- —500,000,000 SF ($297,600,000 Cdn) three year loan and 400,000,000 SF ($238,080,000 Cdn) five year loan, from Swiss banks; and,
- —35,000,000,000 Yen ($198,940,000 Cdn) ten year loan and 35,000,000,000 Yen ($198,940,000 Cdn) twenty year loan, from Japanese banks.

The foreign currency balances were translated into Canadian dollars using the year-end closing rates of exchange at March 31, 1984.

Table 11.6 presents a summary of the balances and transactions for the notes and loans payable in foreign currencies.

OTHER ACCOUNTS REPORTED ON THE STATEMENT OF ASSETS AND LIABILITIES

This section contains information on accounts reported on the Statement of Assets and Liabilities, which are not included elsewhere in this volume. These accounts are:

—cash in transit;
—cash;
—fixed assets;
—accumulated deficit; and,
—contingent liabilities.

Cash in Transit

Table 12.1 presents a summary of the balances and transactions for cash in transit.

Cash in hands of collectors and in transit

This account records public moneys received by public officers prior to the closing of the accounts, as at March 31, but deposited to the credit of the Receiver General for Canada in the Bank of Canada, after that date.

Moneys received after March 31 but applicable to the current year

Public moneys received after March 31, but applicable to the year ended on that date, are recorded in this account.

This account includes refunds of old year expenditure received prior to the closing of the accounts, and receipts to be credited to asset, liability, and (in exceptional cases) revenue accounts, where the omission of the credits in the old year would tend to make the accounting incomplete or inconsistent.

Cash

The Government's cash account represents public moneys on deposit at March 31, to the credit of the Receiver General for Canada, with banks and other financial institutions.

The cash position of the Government is affected not only by budgetary operations, but also by non-budgetary, foreign exchange and unmatured debt operations, all of which must be taken into account when considering the full scope of the Government's financial operations.

Table 12.2 presents a summary of the balances and related transactions in current and special Receiver General deposits. Transactions represent receipts and disbursements.

The year-end balances denominated in foreign currencies have been translated into Canadian dollar equivalents at the year-end closing rates of exchange. The foreign currencies held include United Kingdom pounds sterling, United States dollars, Belgian, Swiss and French francs, and West German marks.

Receiver General special deposits

These are balances in the hands of fiscal agents of the Government, for the purchase or redemption of Government securities, and for the payment of interest.

Fixed Assets

Fixed assets are tangible, durable items of value, including major additions or alterations thereto, from which benefits are expected to be derived during their useful lives.

The fixed assets of the Government, which include land, engineering structures and works (such as canals, harbours and roads), buildings, machinery and equipment, are charged to budgetary expenditure at the time of acquisition or construction, in accordance with the accounting policies of the Government of Canada which are described in Note 1 to the audited financial statements (Section 2 of this volume). Their existence, however, is acknowledged on the Statement of Assets and Liabilities by reporting them at the nominal value of $1.

Accumulated Deficit

The accumulated deficit is the account recording the net sum of annual deficits and surpluses of the Government of Canada since Confederation, together with certain amounts charged directly to this account. The accumulated deficit is also equal to the excess of recorded liabilities over net recorded assets.

Table 12.5 summarizes the account for the year.

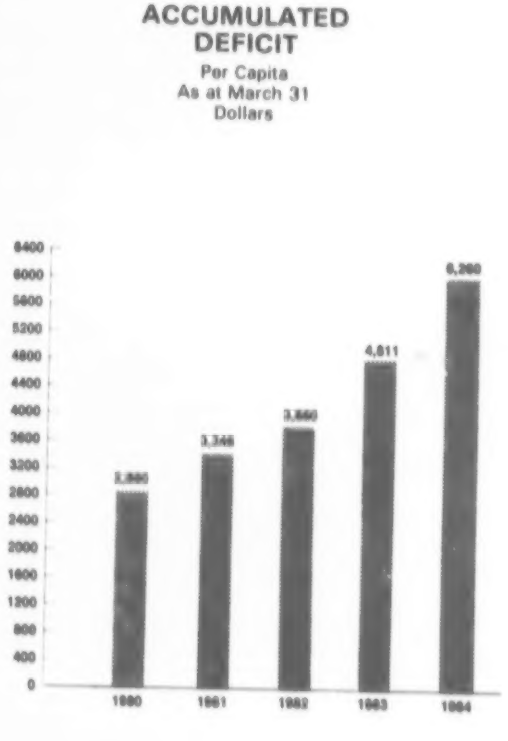
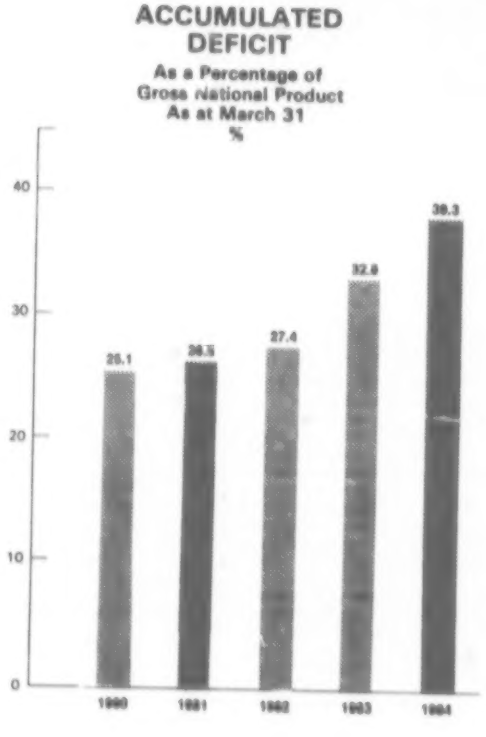
The accumulated deficit, in per capita terms and as a percentage of the gross national product, is shown in the following charts.





Contingent Liabilities

A contingent liability is a potential liability which may become an actual liability when one or more future events occur or fail to occur.

The Government of Canada as an accounting entity is defined as all the departments named in Schedule A of the Financial Administration Act; any division or branch of the Public Service, including a commission appointed under the Inquiries Act, designated by the Governor in Council as a department for purposes of the Financial Administration Act; the staffs of the Senate, the House of Commons, and the Library of Parliament; and, any corporation named in Schedule B of the Financial Administration Act.

In accordance with the above definition, the corporations named in Schedules C and D of the Financial Administration Act are excluded from the definition of the Government of Canada as an accounting entity. Information regarding their contingent liabilities as well as details of their borrowings from other than the Government of Canada can be found in Table 7.4—"Government of Canada Financial Interest in Crown Corporations". In addition, some of these corporations operate insurance programs. Information regarding these insurance programs can be found in Note 5 to the audited financial statements of the Government in Section 2 of this volume.

The contingent liabilities of the Government comprise explicit guarantees by the Government, which include borrowings by other than Crown corporations, both from agent Crown corporations and from other than agents. Such explicit guarantees consist of guarantee programs of the Government, explicit guarantees by the Government for loans, financial arrangements and other potential liabilities, insurance programs of the Government and other explicit guarantees. They also comprise potential losses arising from pending and threatened litigation relating to claims and assessments in respect of breach of contract, damages to persons and property, and like items. Pending and threatened litigation is reported in total in the following table. This table is also summarized in Note 3 to the audited financial statements of the Government in Section 2 of this volume.

[1] Represents the average percentage over the most recent 5 years of net claims to the average amount of outstanding guarantees as at March 31, 1984.

[2] A portion of outstanding borrowings of Canadian National Railway Company, a non-agent of the Crown, amounting to $163,052,000 as at March 31, 1984 are guaranteed by the Government. They are included in the table "Government of Canada Financial Interest in Crown Corporations" in Section 7 of this volume.

[3] Committed guarantees exist for the following loans to be made: to Indians for on-reserve housing, $44,568,472—for Indian economic development, $28,480. At the reporting date, no loans had been issued for those amounts.

[4] A letter of comfort has been issued by the Minister of Transport in respect to loans made by a private lender to Ridley Terminals Incorporated. These loans are for the purpose of construction of a coal terminal and Parliamentary approval has been sought to guarantee a loan of up to $205,000,000 representing 80% of the initial capital cost of the project. As at March 31, 1984, the total amount loaned to Ridley Terminals Incorporated was $180,600,000.

A letter of comfort has been issued by the Minister of Finance to the Bank of Canada in respect of funds advanced by the Bank of Canada to the Bank for International Settlements. The letter pertains to a standby credit facility established by the Bank for International Settlements in favour of the International Monetary Fund. The Bank of Canada's liability and exposure as at March 31, 1984 under the facility with the International Monetary Fund amounted to 50 million Special Drawing Rights ($53,000,000 US).

Letters of comfort have been issued by the Minister of Fisheries and Oceans and the Task Force on Atlantic Fisheries in support of loans made by a chartered bank to Fishery Products (St Anthony) Limited, the Clarkson Company Limited as Receiver and Manager for the Lake Group Limited, the Clarkson Company Limited as Receiver and Manager for John Penny and Sons, Limited and Fishery Products (Harbour Breton) Limited. These loans totalled $19,126,000 as at March 31, 1984 under various bank credit facilities amounting to $22 million.

[5] The Act places limits on the maximum amount of guarantee for loans made by eligible lenders over different loan periods. The maximum amount of guarantee per lender is expressed in legislation as a percentage of aggregate loans made to qualified borrowers and varies depending upon the dollar value range of aggregate loans made by the lender. The authorized limits for given loan periods are included in the figure reported until all qualified loans made by all eligible lenders in the given periods are no longer outstanding, and are not adjusted for loan repayments nor payments made by the Government for guaranteed amounts in which default has occurred.

[6] Includes $4,951,915 attributable to the Canadian Industrial Renewal Board.

[7] Less than .1%.

[8] Amount denominated in a foreign currency and translated at the closing rate of exchange as at date of statement.

[9] Authorized limit for loan guarantees for on-reserve housing totals $250,000,000 (shown above) for loans made by the Canada Mortgage and Housing Corporation, the Farm Credit Corporation and other approved lenders.

[10] The loans and other general obligations of Canadair Limited have been assumed by Canadair Financial Corporation Inc, a wholly-owned subsidiary of the Canada Development Investment Corporation, pursuant to a financial restructuring of Canadair Limited completed March 30, 1984. The financial statements of Canadair Financial Corporation Inc are consolidated with those of the Canada Development Investment Corporation, and the outstanding loans and accrued interest amounting to $1,062,000,000, which are included under Canada Development Investment Corporation in the table "Government of Canada Financial Interest in Crown Corporations" (Section 7 of this volume), are reported on the Government's Statement of Assets and Liabilities.

[11] Outstanding loans and accrued interest of The de Havilland Aircraft of Canada, Limited, amounting to $85,687,787 as at March 31, 1984, which are included under Canada Development Investment Corporation in the table "Government of Canada Financial Interest in Crown Corporations" (Section 7 of this volume), are reported on the Government's Statement of Assets and Liabilities.

[12] Maislin Industries Ltd was placed in receivership on July 11, 1983 and was declared bankrupt on October 19, 1983. The Government received a claim prior to the year end and made an interim payment of $13,500,000 US in April 1984 to creditors under a guarantee in the amount of $2[illegible],000,000 US. It is anticipated that the balance will be payable at some future date.

[13] Pêcheurs Unis du Québec declared voluntary bankruptcy on January 3, 1984. The amount to be paid to creditors under the Government's guarantee is not known at this time.

[14] An agreement has been entered into with an insurance company under the credit reinsurance program. However, as at March 31, 1984, no loans have been reinsured under the agreement. The amount of reinsurance outstanding under the credit reinsurance program shall not exceed $600,000,000.

[15] There have been no claims under the Nuclear Liability Act since its inception in 1970. The Act covers 15 Canadian nuclear installations as at March 31, 1984.

[16] The Fishing Vessel Insurance Plan is administered by the Government to insure fishermen against abnormal capital losses. A specified purpose account is credited with premiums, recoveries, and with advances to the account by the Government, such advances not to exceed $150,000 at any time. The account is debited with refunds of premiums and payments in settlement of third party vessel collision damage claims against fishermen, where the collision involves a vessel insured under the Plan. As at March 31, 1984, the insured value of vessels under the Plan amounted to $305,814,000; the balance of the account was $5,832,929 and outstanding claims against the account totalled $1,081,800.

TAXATION

Remissions of income tax:

Algoma Central Railway

PC 1984—245 January 26, 1984 authorized the remission of income tax payable for the 1972-1977 taxation years in respect of contributions paid into a group sickness or accident insurance plan which were considered by the employer to be taxable benefits to the employees. In 1982 it was determined that these contributions did not give rise to taxable benefits. Consequently, Revenue Canada Taxation reassessed the affected employees for 1978 to 1981. However, all years prior to 1978 were statute-barred and a remission was recommended for this period.

Canadian Universal Insurance Company Limited Montreal, Que 69,980

$

PC 1983—3/2017 June 30, 1983 authorized the remission of income tax in respect of 1977. In August, 1982 the taxpayer filed amended returns to correct errors in computing deductible reserves. The District Office did not proceed immediately with the reassessment as the file was under audit. Subsequently, due to an error on a form the Taxation Centre could not issue the necessary reassessment before the return became statute-barred. Therefore, a remission was recommended and processed for $69,980.

Cohen, Maxwell Judge Ottawa, Ont

PC 1983—8/2424 July 27, 1983 authorized in respect of the 1982 and 1983 taxation years all income taxes paid or payable in respect of salaries, allowances and compensation payable to the taxpayer pursuant to Article 32 of the Statute of the International Court of Justice.

Danczigér, Sandor Montreal, Que 39,979

PC 1983—7/2425 July 27, 1983 authorized the remission of income tax and interest in respect of the 1974 taxation year.

In 1968 the taxpayer purchased a second farm and sold it in 1974. In 1977 he was reassessed for an alleged capital gain on the transaction. In 1978 the first mortgagee foreclosed such that the taxpayer will never recover the deferred proceeds of sale.

In 1977 the taxpayer filed a Notice of Objection. In 1979 a second Notice of Reassessment was issued on the basis that the disposition was an income item. A second Notice of Objection was filed and another reassessment was issued to which the taxpayer failed to object.

A remission was recommended as the 72 year old taxpayer is in poor health, a hardship situation exists as he has no taxable income and his assets are less than his outstanding tax liability. There was a lack of communication between the Department and the taxpayer due to his poor health. He had not reported the gain in 1974 as he considered there was no gain due to the V-Day value. No V-Day valuation was made by Revenue Canada Taxation and an arbitrary amount of $250,000 was used. The assessment lacked merit as there was no evidence to reflect the taxpayer was dealing in farm property. It did not seem reasonable to incur the costs of valuation to establish that V-Day value was less than $400,000 as the taxpayer had three valuations done all of which exceeded that amount. The amount of tax and interest forgiven is $39,979.

Gestion Ridobec Ltée Noranda, Que 3,745

PC 1983—3/3211 October 13, 1983 authorized the remission of income tax and relevant interest for 1975 and 1976. As the Province of Quebec had issued reassessments disallowing expenses the taxpayer was reassessed in April, 1980. The Quebec reassessments were cancelled due to an appeal but by the time the District Office was advised the returns were statute-barred.

The taxpayer's representative indicated he did not file a Notice of Objection on time as he expected the federal reassessments would be cancelled automatically as a result of the Quebec reversals. The company president stated that in 1980 he was unable to manage the corportation's affairs due to a car accident. Accordingly a remission of $3,745 was granted.

Great Lakes Fishery Commission Ann Arbor, Michigan, USA 4,380

PC 1983—7/2948 September 22, 1983 authorized the remission of non-resident income tax paid from 1979 to 1981 in the public interest. The amount of the tax was $4,380.

Hum, Ken Ottawa, Ont 8,191

PC 1983—4/3993 December 15, 1983 authorized the remission of income taxes for 1969 and 1970.

The taxpayer who operated a restaurant from 1967 to 1970 was reassessed on a net worth basis for the four years. The taxpayer maintained that part of the net worth increase resulted from spousal contributions from moneys smuggled from China. A document indicated that the wife had deposited between 1953 and 1956 some $85,000 in Hong Kong, American and Canadian currency. In 1975 a partial reduction was recommended but the proposal was refused by the taxpayer. The taxpayer's current take home pay is $10,000 per year and his daughter is prepared to borrow funds to pay the tax liability if the 1975 proposal is applied. Due to the hardship factor, the doubtful assessments, and the language barrier a remission of $8,191 was granted.

Pères Blancs Missionnaires d'Afrique Montréal, Que 54,467

PC 1983—5/3765 November 30, 1983 authorized the remission of Part XIII tax for 1970 to 1979.

The Order receives donations for its African projects. These donations are usually temporarily invested. To allocate its investment income amongst its projects, it increases, by 5% the gifts which were temporarily invested in Canada. The Order erroneously paid non-resident tax in respect of the 5% considering the 5% as interest paid to a non-resident although there was no non-resident as the Order was in effect paying itself. Due to the fact that tax constitutes real hardship and was paid due to an error related to unfamiliarity with the law, a remission of $54,467 was granted.

Provincial Social Assistance Payments, Income Tax Remission Order 1981

PC 1983—2175 July 15, 1983 remits for the 1981 taxation year tax payable in respect of certain social assistance payments made pursuant to the legislation of the Provinces of British Columbia, Alberta, Saskatchewan, Manitoba, Ontario, Quebec, New Brunswick and Nova Scotia, not already excluded from the income of recipients for income tax purposes under the Income Tax Act.

RRSP Contributions Income Tax (PEI) Remission Order

PC 1983—1440 May 12, 1983 authorized the remission of income tax payable in respect of late RRSP contributions. Due to severe storms 41 individuals were prevented from making 1981 RRSP contributions before March 1, 1982. The Ministers of Finance and National Revenue provided for an extension until March 23, 1982.

Reid Marshall Toronto, Ont 20,046

PC 1983—5/3911 December 8, 1983 authorized the remission of interest owing in respect of a 1961 reassessment for a shareholder's loan. In 1963 the taxpayer was reassessed for $12,959 with respect to a shareholder's loan received in 1961. The tax was paid in 1983 to prevent the further accrual of interest out of money inherited from his father's estate. The taxpayer has low earnings, a dependant wife and has no assets outside of the balance of the estate. Accordingly a recommendation for remission was made on the grounds of extreme hardship. The balance of interest forgiven was $20,046.

Saskatchewan Crown Corporation PGRT and IORT Remission Order

PC 1983—2987 September 29, 1983 remits the Petroleum and Gas Revenue Tax (PGRT) and the Incremental Oil Revenue Tax (IORT) paid or payable by the Saskatchewan Oil and Gas Corporation, Saskatchewan Power Corporation, Many Islands Pipelines (Canada) Limited and Consumers Oil Limited, for the period January 1, 1981 to December 31, 1986 on condition the corporations pay grants in lieu of the PGRT and IORT in the amounts and at times equivalent to those that would have been obtained under the PGRT and IORT.

Shoyama, Thomas K Victoria, BC

PC 1983—6/2052 July 7, 1983 is a conditional remission order dealing with the taxpayer's appointment as a Commissioner to the Royal Commission on the Economic Union and Development Prospects for Canada which appointment was made January 25, 1983. It remits income tax payable on the following basis:

(1) It deems that the remuneration received is $210 per diem.

(2) The taxpayer must gift the difference between the actual per diem amount and $210 to the University of Victoria for each day he renders services to the Commission and no amount may be deducted from taxable income in respect of the said gift.

(3) For the purposes of the deduction entitlement for charitable donations in any year in which remuneration is received as Commissioner. The taxpayer's income will be calculated as the product of $210 multiplied by the number of days in the year in which remuneration is received.

Statement of all borrowing transactions on behalf of Her Majesty

Note: this information is required by Section 40 of the Financial Administration Act. The borrowing transactions included in this statement are: borrowings by the Government for general purposes, and borrowings by agent Crown corporations which are reported as such on the Government's Statement of Assets and Liabilities, except where the Government is the lender. Borrowings by non-agent Crown corporations are not included because such borrowings are not on behalf of Her Majesty.

Financial assistance under budgetary appropriations

This statement summarizes financial assistance under budgetary appropriations for both agent and non-agent Crown corporations. It should be read in conjunction with Table 7.4 in Section 7 of this volume. The purpose for which payments have been made under budgetary appropriations is segregated between: (*a*) amounts to cover operating expenses and (*b*) amounts for capital expenditures.

All amounts reported represent charges to appropriations or authorities approved by Parliament.

[1] Excludes grants and contributions paid to agent and non-agent Crown corporations where they qualify as members of a general class of recipients.

[2] On March 30, 1984, Canadair Limited changed its name to Canadair Financial Corporation Inc. following a financial restructuring. During the fiscal year, Canadair Limited and The de Havilland Aircraft of Canada, Limited respectively received assistance under budgetary appropriations of $550,000,000 and $300,000,000.

[3] The above excludes an amount of $3,498,259 for financial assistance under budgetary appropriations used by Canertech Inc., an unconsolidated subsidiary of Petro-Canada.

Financial assistance given to railways by the Government of Canada in 1983-84 (with cumulative figures to March 31, 1983)

The 1952 Canadian National Railways Capital Revision Act stated that: The Minister shall include annually in the Public Accounts a summary statement of all assistance, including land grants, guarantees and capital subsidies but not including grants made pursuant to statutes for the relief of unemployment, that has at any time been given by the Government of Canada to each of (a) the National System (Canadian National Railway System), including its predecessor companies; (b) the Pacific Railways (Canadian Pacific Limited) as defined in the 1952 Canadian National Canadian Pacific Act, including its predecessor companies; and, (c) any other railway.

The following statement presents the budgetary and non-budgetary financial assistance showing annual and cumulative payments. Only individual payments of $50,000 or over are reported in this statement.

Railways have been interpreted to include the following for purposes of this statement: (i) for Canadian National Railways—all companies owned, operated or managed by Canadian National, (ii) for Canadian Pacific—only companies engaged in transportation, communications and hotel activities.

INTRODUCTION TO THE PUBLIC ACCOUNTS

Nature of the Public Accounts

The Public Accounts is the report of the Government of Canada prepared each fiscal year by the Receiver General as required by Section 55 of the Financial Administration Act.

The report covers the fiscal year of the Government, which ends on March 31, and is prepared from data contained in the accounts of Canada and from more detailed records maintained in departments and agencies. The accounts of Canada is the centralized record of the Government's financial transactions maintained by the Receiver General in which the transactions of all departments and agencies are summarized. Each department is responsible for agreeing its accounts to the control accounts of the Receiver General, and maintains detailed records of the transactions in those accounts.

The report covers the financial transactions of the Government during the year. In certain cases, parliamentary authority to undertake transactions was provided by legislation approved in earlier years. The report also includes the financial statements of those Crown corporations and other bodies whose accounts are maintained separately from the accounts of Canada. The financial year of a number of these corporations and other bodies is the calendar year rather than the fiscal year of the Government.

Format of the Public Accounts

The Public Accounts is produced in three volumes; **Volume I** presents a summary and analysis of the financial transactions of the Government while **Volume III** contains the financial statements of Crown corporations which are permitted by legislation to keep their own accounts.

Volume II presents the financial operations of the Government, segregated by department. It contains financial operations of individual departments and their associated agencies, and additional information and analysis.

(a) Departmental Financial Operations

In a fashion similar to the Estimates, Volume II uses a uniform set of statements to present each department's financial operations. In most respects, the level of detail is the same as in the Estimates and provides the following information:

(i) Use of Appropriations

This is the principal departmental statement. It is a summary of the use by department of both the budgetary and non-budgetary authorities given to them by Parliament in appropriation acts and other statutes. It displays, by program:

—the wording of the relevant appropriations or statutes;

—the amount authorized under each appropriation or statute;

—the total use made during the year of the authorized amounts;

—unexpended balances (amounts lapsed and carried forward) or amounts overexpended; and,

—the total use for the previous year.

(ii) Total Cost of Programs—Budgetary

This table shows the total calculated cost for each program, by adding to net expenditure, the imputed value of services provided by other departments, and of accommodation provided by the reporting department and by the Department of Public Works, and by deducting non-tax receipts credited to revenue.

The total calculated program cost is also reflected in the Estimates and in the Public Accounts in the "Programs by Activity" table.

(iii) Programs by Activity—Budgetary

This is a comparison of budgetary appropriations with actual expenditures and the imputed costs and revenues referred to in *(ii)*. The table displays total program expenditures by activity and type of vote, and total cost of programs by type of vote. It is related to the "Program by Activities" table displayed in the Estimates.

(iv) Grants and Contributions

This table displays details of amounts appropriated for grants and contributions, by class of recipients and by program, and the payments.

(v) Budgetary Expenditure by Program and Standard Object

This table presents net expenditure by standard object and relates to the "Objects of Expenditure" table shown in the Estimates.

(vi) Revenue

Each department displays summary and detailed statements of revenue collected as part of its operations.

(vii) Revolving Funds

The commercial orientation of a revolving fund is reflected in the balance sheet and statement of operations, or income and expenditure, presented each year. A revolving fund's minimum goal is the recovery of cost, and most commercial accounting conventions are used to measure cost.

(viii) Other Organizations

To further the objectives of the Government and of departments, various boards, agencies, commissions and accounts have been created by appropriation acts and other legislation. Financial statements for these organizations and accounts are also shown.

(b) Additional Information and Analysis

Further details of certain outlays are provided, in Volume II, to supplement the statements already presented. This supplementary information includes:

—accounts receivable and deletions (Section 30);

—professional and special services (Section 31);

—construction and acquisition of land, buildings, machinery and equipment (Section 32);

—payments of damage claims, ex gratia payments, Federal Court awards and nugatory payments (Section 33);

—selected miscellaneous payments and federal-provincial shared-cost programs (Section 34);

—grants and contributions (Section 35); and,

—miscellaneous statements by department (Section 36).

Summary Tables

The following tables provide summaries of the financial operations contained in the departmental sections.

Table 1 summarizes the appropriations and the use of appropriations. (This statement also appears in Section 2 of Volume I).

Table 2 summarizes by department the budgetary and non-budgetary appropriations and spending made under annual and non-lapsing appropriations and various statutory authorities.

Table 3 summarizes expenditure by department and by standard object.

Table 4 summarizes revenue by department and by main classification.

AGRICULTURE

Department

Objectives

ADMINISTRATION PROGRAM*

—To provide overall direction and administrative support services for the Department.

AGRI-FOOD DEVELOPMENT PROGRAM*

—To stimulate the development of the agri-food industry, to provide for a dependable and adequate supply of food at reasonable prices to consumers and to ensure stable and equitable returns to producers and processors.

AGRI-FOOD REGULATION AND INSPECTION PROGRAM

PROGRAM

—To ensure the continued supply of safe, high quality, nutritious food for the domestic and export trade.

RACE TRACK SUPERVISION REVOLVING FUND

—To protect the pari-mutuel betting public associated with horse racing.

CANADIAN GRAIN COMMISSION PROGRAM

—To provide quality assurance of Canadian grain in domestic and export markets in the interests of Canadian agriculture.

Canadian Dairy Commission

Objective

—To achieve a sound, healthy and viable dairy industry.

Canadian Livestock Feed Board

Objective

—To ensure the availability of adequate feed grain supplies and storage space to meet the needs of livestock feeders in Eastern Canada and British Columbia and to contribute to reasonable price stability for such supplies; to assist in equalizing feed grain prices to livestock feeders in Eastern Canada and in British Columbia.

Canagrex

Objective

—To promote, facilitate and engage in the export of agricultural and food products from Canada.

Farm Credit Corporation

Objective

—To provide long-term mortgage credit to farmers and loans to syndicates of farmers and to perform operational and administrative functions related to the organization of Canadian agriculture into economic farm units in the hands of competent operators.

Agricultural Products Board

AUDITOR'S REPORT

THE HONOURABLE RALPH FERGUSON, P.C., M.P.
MINISTER OF AGRICULTURE

I have examined the statement of operations of the Agricultural Products Board for the year ended March 31, 1984. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, this financial statement presents fairly the results of the operations of the Board for the year ended March 31, 1984 in accordance with the accounting policies set out in Note 2 to the financial statement applied on a basis consistent with that of the preceding year.

KENNETH M. DYE, F.C.A.
Auditor General of Canada

Ottawa, Canada

Agricultural Products Board—*Concluded*

NOTES TO FINANCIAL STATEMENT
MARCH 31, 1984

1. Authority and objective

The Board which was established in 1951 and operates under the authority of the Agricultural Products Board Act, consists of a chairman and two members appointed by the Governor in Council.

The objective of the Board is to stabilize the prices of agricultural commodities through the purchase and sale of surplus commodities in times of depressed markets.

2. Accounting policies

Expenditure is recorded on an accrual basis.

An estimated amount for services provided without charge by Government departments is included in administration expenses.

Revenue is recorded on a cash basis, consistent with that followed by departments of the Government of Canada, and is credited directly to the Consolidated Revenue Fund.

3. Accounts receivable

Accounts receivable of the Board as at March 31, were:

	1984	1983
	$	$
Current	3,576,382	1,013,529
Long-term	3,573,391	4,073,321
	7,149,773	5,086,850

4. Inventories

Inventories of the Board as at March 31, at cost:

	1984	1983
	$	$
1983 Bulk frozen raspberries	4,840,000	
1982 Canned tomatoes (Note 5)	3,153,504	7,360,125
1983 Canned peaches	1,804,254	
1983 Canned pears	1,476,997	
1982 Canned processed fruit	434,409	1,215,085
1983 Bulk frozen strawberries	38,294	
1983 Canned prune-plums		61,771
	11,747,458	8,636,981

5. Subsequent event

On May 28, 1984 the Board requested inspection of its 1982 Canned tomato inventory by Agriculture Canada. Results of this inspection indicate that some of the inventory has seriously deteriorated. The reduction in inventory value cannot be reasonably estimated at present.

Agricultural Stabilization Board

AUDITOR'S REPORT

THE HONOURABLE RALPH FERGUSON, P.C., M.P.
MINISTER OF AGRICULTURE

I have examined the statement of expenditure of the Agricultural Stabilization Board for the year ended March 31, 1984. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, this financial statement presents fairly the expenditure of the Board for the year ended March 31, 1984 in accordance with the accounting policies set out in Note 2 to the financial statement applied, except for the change in the method of accounting for payments by the Canadian Dairy Commission on behalf of the Board as explained in Note 4 to the financial statement, on a basis consistent with that of the preceding year.

NOTES TO FINANCIAL STATEMENT
MARCH 31, 1984

1. Authority and objectives

The Board which was established in 1957 and operates under the authority of the Agricultural Stabilization Act, consists of three members appointed by the Governor in Council.

The objectives of the Board are to stabilize the prices of agricultural commodities in order to assist the industry of agriculture to realize fair returns for its labour and investment and to maintain a fair relationship between prices received by farmers and the costs of goods and services that they buy.

2. Accounting policies

Expenditure is recorded on an accrual basis in conformity with the Government of Canada accounting policy for recording Payables at Year End.

Employee termination benefits are recorded on a cash basis.

An estimated amount for services provided without charge by Government departments is included in administration expenses.

3. Financing

Payments by the Canadian Dairy Commission on behalf of the Board and deficiency payments to producers are provided for by:

	1984	1983
	$	$

	2,340,593	2,144,103
	433,254,603	303,275,241

4. Accounting change

To conform to the Government of Canada accounting policy to record payables at year end, the Board has decided in 1984 to change prospectively its accounting policy for payments by the Canadian Dairy Commission on behalf of the Board from the cash basis to the accrual basis. As a result, amounts reported for the year ended March 31, 1984 for payments by the Canadian Dairy Commission on behalf of the Board and total expenditure are $37,675,918 greater than if the cash basis had continued to be used.

This change has caused the Department of Agriculture to overexpend Vote 15 by $19,355,758. This overexpenditure will be financed by the 1984-85 appropriation.

NOTES TO FINANCIAL STATEMENT
FOR THE YEAR ENDED MARCH 31, 1984

1. Authority and objectives

The Canadian Grain Commission was established under Section 3 of the Canada Grain Act (1970) to establish and maintain standards of quality for Canadian grain and regulate grain handling in Canada, to ensure a dependable commodity for domestic and export markets.

2. Accounting policies

Revenue

Revenue is recorded on a cash basis in accordance with Government of Canada accounting policies. Revenue is credited directly to the Consolidated Revenue Fund.

Expenditure

Expenditure includes all amounts for work performed, goods received or services rendered prior to April 1, 1984. This basis is in accordance with Government of Canada accounting policies. Operating expenditure also includes services provided without charge by Government departments.

3. Parliamentary appropriations

4. Contingencies

The Commission has exercised its powers under Sections 36 and 38 of the Canada Grain Act in revoking licences which included the realization of posted securities. As a result, various claims and lawsuits have been brought against the Commission. In the opinion of management and legal counsel the losses, if any, cannot be determined at this time. Accordingly, no provision has been made in the accounts of the Commission.

Race Track Supervision Revolving Fund

MANAGEMENT REPORT

The accompanying financial statements of the Race Track Supervision Revolving Fund have been prepared as required by and in accordance with the policy of the Treasury Board on revolving funds and the reporting requirements and standards of the Receiver General for Canada.

These financial statements were prepared in accordance with stated accounting policies on a basis consistent with that of the preceding year. Information presented herewith is consistent with that presented elsewhere in the Public Accounts and in departmental reports. Transactions are executed in accordance with prescribed regulations, within parliamentary authorities and are properly recorded to maintain accountability of Government funds and safeguard the Fund's assets. The Fund maintains a set of accounts which provides a centralized record of the Fund's financial transactions.

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1984

1. Authority and purpose

The Race Track Supervision Revolving Fund was established under Appropriation Act No. 1, 1970, which authorized the operation of the Fund in the current and subsequent fiscal years in accordance with terms and conditions prescribed by Treasury Board for the purpose of providing race track supervision in Canada.

The Fund has a continuing non-lapsing authority from Parliament to make payments out of the Consolidated Revenue Fund for working capital, capital acquisitions and temporary financing of accumulated operating deficits, the total of which is not to exceed $2,000,000 at any time. The authority was increased from $200,000 to $2,000,000 by Appropriation Act No. 4, 1982-83. An amount of $879,798 representing net liabilities assumed by the Fund and assets contributed to the Fund was charged to this authority when the Fund became budgetary in 1981.

Charges to the Fund are to include administration expenses of race track supervision and costs of research relating to the use of drugs on horses and race surveillance techniques including the publication, distribution and sale of the results of such research. All revenues from activities approved by Treasury Board are to be credited to the Fund.

2. Significant accounting policies

(a) Fixed assets

Fixed assets, acquired from parliamentary appropriations prior to April 1, 1970, are recorded in the Fund in accordance with Treasury Board Circular 1970-7 at values determined as at that date by officers of the Department. Subsequent acquisitions are recorded in the Fund at cost and are depreciated from the year of the acquisition on a straight-line basis over their estimated useful lives as follows:

Furniture and equipment	10 years
Electronic data processing equipment	5 years
Automotive	3 years
Buildings	25 years

(b) Pension plan

Employees of the Race Track Division operating the Supervision Revolving Fund are covered by the Public Service Superannuation Act and the Supplementary Retirement Benefits Act. The Government of Canada's portion of the pension cost is included in the employee fringe benefit charge assessed against the Fund. The actual payment of the pension is made from the Public Service Superannuation Account and the Supplementary Retirement Benefits Account.

(c) Vacation pay

The accrued liability on the balance sheet represents the amount of vacation pay credits outstanding at the end of the year.

(d) Employee termination benefits

Employees leaving Government service generally receive termination benefits at the rate of one week's pay for each complete year of continuous service to a maximum of twenty eight weeks' pay. However, upon resignation, benefits are generally payable only to those with ten or more years of continuous service and the entitlement is reduced to one half week's pay for each year of continuous employment to a maximum of thirteen weeks' pay.

The provision at the end of the year consists of one half week's pay at current salary rates for each complete year of service to a maximum of thirteen weeks' pay.

AUDITOR'S REPORT

TO THE CANADA COUNCIL
AND
THE HONOURABLE FRANCIS FOX, P.C., M.P.
MINISTER OF COMMUNICATIONS

I have examined the balance sheets of the Endowment Account and Special Funds of the Canada Council as at March 31, 1984 and the statements of revenue and expenditure and equity of the Endowment Account and Special Funds and the statement of changes in financial position of the Endowment Account for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present fairly the financial position of the Council as at March 31, 1984 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied, after giving retroactive effect to the changes in the methods of accounting for equipment and leasehold improvements, works of art and employee termination benefits as explained in Note 4 to the financial statements, on a basis consistent with that of the preceding year.

EDWARD R. ROWE, C.A.
Deputy Auditor General
for the Auditor General of Canada

Ottawa, Canada

NOTES TO FINANCIAL STATEMENTS MARCH 31, 1984

1. Authority and operations

The Canada Council was established by the Canada Council Act in 1957 which authorized the creation of an Endowment Fund of $50 million. Except for the annual parliamentary grant, monies or properties donated to the Council pursuant to Section 20 of the Act are generally accounted for as Special Funds. The Council is not an agent of Her Majesty. Its objectives are to foster and promote the study, enjoyment and production of works in the arts.

2. Special funds

(a) Izaak Walton Killam Memorial

A bequest of $12,339,615 in cash and securities was received from the estate of the late Mrs. Dorothy J. Killam for the establishment of the Izaak Walton Killam Memorial Fund for Advanced Studies "to provide scholarships for advanced study or research at universities, hospitals, research or scientific institutes, or other equivalent or similar institutions both in Canada and in other countries in any field of study or research other than the 'arts' as presently defined in the Canada Council Act and not limited to the 'humanities and social sciences' referred to in such Act."

The bequest contains the following provisions: "the Fund shall not form part of the Endowment Account or otherwise be merged with any assets of the Council"; and "in the event that the Canada Council should ever be liquidated or its existence terminated or its powers and authority changed so that it is no longer able to administer any Killam trust, the assets forming any such Killam trust shall thereupon be paid over to certain universities which have also benefited under the will."

The cash and securities received and the proceeds have been invested in a separate portfolio.

(b) Killam Special Scholarship

A gift of $4,353,609 was received from the estate of the late Mrs. Dorothy J. Killam for the establishment of a Special Scholarship Fund. The gift consisted of preferred shares in a Canadian company redeemable over a period of years. As at March 31, 1984, the Council has received the entire proceeds including $1,220,271 redeemed during the year (1983—$686,402). These proceeds have been invested and the income therefrom is available to provide fellowship grants to Canadians for advanced study or research in the fields of medicine, science and engineering at universities, hospitals, research or scientific institutions or other equivalent or similar institutions in Canada.

The fund also includes common shares in a company whose major assets have been sold. The Council has received $6.4 million during the year. Approximately $2.5 million is expected to be received next year.

(c) Molson Prize

Gifts of $1,000,000 were received from the Molson Foundation for the establishment of the Molson Prize Fund. The income of the fund is used for awarding cash prizes to Canadians "for outstanding achievement in the fields of the Arts, the Humanities or the Social Sciences that enriches the cultural or intellectual heritage of Canada or contributes to national unity". There is no restriction placed on the recipient as to the use of the prize.

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1984—*Continued*

(d) Lynch-Staunton

This fund was established by a bequest in cash of $699,066 received from the estate of the late V.M. Lynch-Staunton, the income from which is available for the regular programmes of the Council.

(e) John B.C. Watkins

This fund was established by a bequest consisting of the net income from the residue of the estate of the late John B.C. Watkins to provide scholarships for postgraduate studies in specified countries.

(f) Vida Peene

This fund was established by a bequest in cash of $599,761 received from the late Vida Peene to provide payments to specified organizations.

(g) Funds will eventually be received from the following bequests:

(i) J.P. Barwick

This fund, estimated at $45,000, is intended "for the benefit of the musical division of the arts and for the encouragement of the musical arts".

(ii) Edith Davis Webb

This fund, estimated at $400,000, is intended "for the purpose of making grants or establishing scholarships for musical study in such manner as the Council shall determine".

(iii) Kathleen Coburn

This fund, the amount of which cannot be determined at this time, is to provide for exchanges of scholars between Israel and Canada.

3. Significant accounting policies

(a) Basis of accounting

Revenue and expenditure are recorded on an accrual basis, except for dividends which are recorded on a cash basis.

(b) Investments

Bonds, debentures, equities and mortgages are recorded at cost. The portfolios of three Special Funds (Killam Special Scholarship, Molson Prize and Lynch-Staunton) were merged on October 1, 1980 with the portfolio of the Endowment Account. The participation of each fund is calculated on the basis of market value. Quarterly adjustments are made to take into consideration any capital withdrawals and additional investments. Interest, dividends, gains and losses on disposal of investments are allocated to each fund based on the percentages established at the beginning of each quarter.

(c) Equipment and leasehold improvements

Equipment and leasehold improvements are recorded at cost and depreciated over their estimated useful lives on the straight-line method, as follows:

Equipment	3 to 5 years
Leasehold improvements	term of the lease (maximum 5 years)

(d) Works of art

Works of art are recorded at cost.

(e) Employee termination benefits

Employees are entitled to specific termination benefits as provided for under the Council's policy and conditions of employment. The cost of these benefits is expensed in the year in which they are earned.

(f) Gains and losses on disposal of investments

Pursuant to subsection 19(2) of the Act, net gains on disposal of investments are credited to the fund capital—Accumulated net gains on disposal of investments. Net losses on disposal of investments are charged against this account to the extent of the balance available therein. In the event that losses exceed the balance available in the account, the excess is recorded as an expenditure in the year of realization.

(g) Contributed surplus

Amounts paid during the year to artists for the purchase of works of art are expensed. Such purchases are then capitalized as contributed surplus—Works of art and no depreciation is recorded.

(h) Appropriated surplus

The Council has established a reserve to reduce the erosion of value of the original endowment due to inflation. Any changes in this account are approved by the Council.

(i) Capitalization of net income of Special Funds

The Council capitalizes 10% of the revenue less administration expenditure of the Izaak Walton Killam Memorial Fund for Advanced Studies and the Killam Special Scholarship Fund, in accordance with advice received from the trustees of these Funds in order to preserve the equity of these Funds for future beneficiaries. However, for the purposes of the Funds, the Council reserves the right to draw at any time on the accumulated net income capitalized.

(j) Pension plan

Employees participate in the Public Service Superannuation Plan administered by the Government of Canada. The employees and the Council contribute equally to the cost of the Plan. This contribution represents the total liability of the Council. Contributions with respect to current service are expensed on a current basis.

(k) Grants

Grants approved by the Council are recorded as expenditure in the year determined by the Treasurer in consultation with the Arts Division. Cancelled grants, approved in previous years, and refunds are shown as revenue in the Endowment Account. For Special Funds, such items are deducted from the grants expenditure.

4. Changes in accounting policies

During the year, the Council applied retroactively the following changes in accounting policies, in order to comply with generally accepted accounting principles:

(a) Equipment and leasehold improvements, formerly charged to expenditure in the year of acquisition, are now capitalized and depreciated;

Appendix 1—*Continued*

Canada Council—*Continued*

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1984—*Concluded*

(b) Works of art, charged to expenditure in the year of acquisition, are now also capitalized as contributed surplus—Works of art; and

(c) Employee termination benefits, formerly charged to expenditure in the year in which they were paid, are now recorded in the accounts as the benefits accrue to the employees.

As a result of these changes, the excess of expenditure over revenue for 1984 and 1983 of the Endowment Account have been increased by $58,000 and $37,000, respectively.

Government Telecommunications Agency Revolving Fund

MANAGEMENT REPORT

The accompanying financial statements of the Government Telecommunications Agency (GTA) Revolving Fund have been prepared as required by and in accordance with the policy and procedures of the Treasury Board for revolving funds and the reporting requirements and standards of the Receiver General for Canada. The primary responsibility for the integrity and objectivity of data in these financial statements rests with the management of the Fund. The financial transactions contained in these financial statements have been subjected to a test audit by representatives of the Auditor General.

These financial statements were prepared in accordance with the stated accounting policies, as set out in Note 2, on a basis consistent with that of the preceding year. Some of the information included in these financial statements is based on management's best estimate and judgement and gives due consideration to materiality. Financial information contained in the departmental statements and elsewhere in the Public Accounts is consistent with that in these financial statements, unless indicated otherwise.

The Assistant Deputy Minister, Financial Management develops and disseminates financial management and accounting policies, and issues specific directives which maintain standards of accounting and financial management. These are supplemented by additional systems and procedures developed and implemented by the Fund's Finance and Administration Division. The Fund maintains systems of financial management and internal control at appropriate cost. Transactions are executed in accordance with prescribed regulations, within parliamentary authorities, and are properly recorded to maintain accountability of Government funds and safeguard the Fund's assets. The Fund is managed on a cost revenue dependent basis and all costs are allocated, on an equitable basis, to the users of telecommunications services and recovered on a timely basis. Financial management and internal control systems are augmented by the activities of internal audit and by frequent contacts with departmental financial and internal audit officers and with the staff of the Auditor General's Office. An internal audit was carried out by the Audit Services Bureau of the Department of Supply and Services during the period January-March 1984. The auditors concluded "... that the acquisition, utilization and protection of human, financial and physical resources under the responsibility of the Finance and Administration Division are achieved in an effective and economic manner".

The Fund also seeks to assure the objectivity and integrity of data in its financial statements by the careful selection, training and development of qualified accounting staff, by organizational arrangements that provide appropriate divisions of responsibility, and by a high standard of internal communications aimed at ensuring that regulations, policies, procedures and managerial authorities are understood throughout the Agency.

The accounting systems and financial statements of the Fund have evolved over the years to meet changing conditions. As part of a five-year plan for information processing in GTA, the cost allocation, billing and other financial systems are being reviewed to permit more accurate, timely and equitable billings for Government departments and agencies.

Government Telecommunications Agency Revolving Fund—*Concluded*

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1984

1. Purpose and authority

The Government Telecommunications Agency Revolving Fund was originally established in 1963 to plan and provide telecommunications facilities and services at the request of federal departments and agencies. Section 23 of the Adjustment of Accounts Act authorized the Minister to make payments out of the Consolidated Revenue Fund for working capital, capital equipment and temporary financing of operating requirements, the total of which was not to exceed $8,000,000 at any time. This authority was increased to $12,000,000 by Appropriation Act No. 4, 1981-82 and to $15,000,000 by Appropriation Act No. 4, 1983-84. In accordance with Vote 2c, Appropriation Act No. 4, 1982-83, an amount of $1,485,822 was credited to the Fund for a payment to Bell Canada for a terminated contract. An amount of $741,781 representing net assets assumed by the Fund and assets contributed to the Fund was charged against this authority when the Fund became budgetary in 1981.

2. Significant accounting policies and practices

(a) Fixed assets

In most cases, depreciation is calculated using the diminishing balance method at the following rates: automobiles (30%), office equipment (20%), furniture and fixtures (10%). Telecommunications equipment constitutes a special category of assets, depreciated on a straight-line basis over the first five years of utilization of the equipment. The telecommunications equipment purchased in 1983-84 will be operational only in 1984-85, therefore no depreciation was considered in 1983-84.

(b) Deferred charges—Service contracts

Advance payments to suppliers for future telecommunications services are recorded as deferred charges and are amortized on a straight-line basis over a five-year period. No amortization was considered in 1983-84 since the equipment was not operational.

(c) Deferred revenue—Service contracts

Advance payments from client departments and agencies for future telecommunications services are recorded as deferred revenue and are included in revenue on an equal basis over a five-year period. No amount was earned in 1983-84 since the equipment was not operational.

(d) Employee termination benefits

Termination benefits accrue to employees over their years of service with the Government of Canada as provided for under collective agreements. The cost of these benefits is recorded in the accounts as the benefits accrue to the employees.

3. Fixed assets and accumulated depreciation

Fixed assets	Balance at beginning of year	Acquisitions	Disposals	Balance at end of year
	$	$	$	$
Office equipment	419,736	93,699	1,189	512,246

Telecommunications equipment				
	301,671	76,596	1,019	377,248

4. Telecommunications equipment and service contracts

In 1983-84, as a result of the Canadian Radio-television and Telecommunications Commission decision on the interconnection of telecommunications terminal equipment, changes were introduced in the provision of telecommunications services whereby terminal equipment was purchased as opposed to the traditional method of leasing from the common carriers. In addition, for the first time, large lump sum payments were made to common carriers for the provision of long-term telecommunications services. To finance these expenditures, the Government Telecommunications Agency Revolving Fund has received lump sum payments from client departments and agencies which will be using this equipment.

As a result of the change, new items are now included in the balance sheet, namely, telecommunications equipment of $214,984 included in fixed assets, deferred charges of $883,421 and deferred revenue of $1,279,046. Similar agreements are being considered for future telecommunications equipment requirements.

5. Restatement of prior year figures

For comparative purposes, some 1982-83 figures have been restated to conform with the 1983-84 presentation.

AUDITOR'S REPORT

THE HONOURABLE PAULINE MCGIBBON, C.C.
CHAIRMAN OF THE BOARD OF TRUSTEES OF THE
NATIONAL ARTS CENTRE CORPORATION

I have examined the balance sheet of the National Arts Centre Corporation as at August 31, 1983 and the statements of revenue and expenses, deficit and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present fairly the financial position of the Corporation as at August 31, 1983 and the results of its operations and the changes in its financial position for the year then ended in accordance with the accounting policies set out in Note 2 to the financial statements applied on a basis consistent with that of the preceding year.

NOTES TO FINANCIAL STATEMENTS AUGUST 31, 1983

1. Objectives and operations

The objectives of the Corporation are: to operate and maintain the National Arts Centre; to develop the performing arts in the National Capital Region; and to assist the Canada Council in the development of the performing arts elsewhere in Canada.

In furtherance of its objectives, the Corporation may arrange for and sponsor performing arts activities at the Centre; encourage and assist in the development of performing arts companies resident at the Centre; arrange for or sponsor radio and television broadcasts and the showing of films in the Centre; provide accommodation at the Centre, on such terms and conditions as the Corporation may fix, for national and local organizations whose objects include the development and encouragement of the performing arts in Canada; and, at the request of the Government of Canada or the Canada Council, arrange for performance elsewhere in Canada by performing arts companies, whether resident or non-resident in Canada, and arrange for performances outside Canada by performing arts companies resident in Canada.

With a view to achieving the objectives, Her Majesty demised and leased the National Arts Centre building complex to the Corporation for a period of twenty years, expiring May 31, 1989. Under the terms of the lease, the Corporation is responsible for maintenance and operation of the building complex, but is not required to pay for the use of the complex. Accordingly, the expenses of the Corporation do not include any charge for rent.

2. Significant accounting policies

(a) Basis of accounting

The accounts of the Corporation are maintained on an accrual basis.

Appendix 3—*Continued*

National Arts Centre Corporation—*Continued*

NOTES TO FINANCIAL STATEMENTS
AUGUST 31, 1983—*Continued*

(b) Short-term investments

Short-term investments are carried at cost which approximates market value.

(c) Grants

Grants are recorded as revenue in the year in which the grantors make firm commitments to the Corporation.

(d) Costs of programmes in progress

Direct costs, including advances to performing companies and artists, incurred prior to the end of the year for programmes in progress are deferred and charged to expenses in the year in which the programmes terminate. Indirect costs and common services not attributable to particular performances are charged to expenses in the year in which they are incurred.

(e) Inventories

Inventories are valued at the lower of cost and net realizable value (food and beverages) or replacement cost (production materials).

(f) Deferred revenue

Revenue from tickets sold prior to the end of the year for programmes in progress is deferred and credited to revenue in the year in which the programmes terminate. Gift certificates and exchange vouchers not redeemed within three years of the year of their issuance are written off and credited to revenue. A percentage of those less than three years old is also credited to revenue.

(g) Operating expenses

Expenses of performing arts programmes, restaurants and garage do not include costs relating to building and equipment maintenance, utilities and capital acquisitions. These costs are included in operation of the building expenses.

(h) Capital acquisitions

Capital acquisitions, including leasehold improvements, are charged to expenses in the year they are acquired.

(i) Pension plan

Employees of the Corporation participate in the Public Service Superannuation plan, which is administered by the Government of Canada. Contributions to the plan are required by both the employees and the Corporation. These contributions represent the Corporation's total debt and are recorded on a current basis.

(j) Employee termination benefits

Employees of the Corporation are entitled to specified benefits on termination as provided for under labour contracts and conditions of employment. The liability for these benefits is recorded in the accounts as the benefits accrue to the employees under the respective terms of employment.

(k) Parliamentary appropriations

The parliamentary appropriation for operating, received during the year ended August 31, is in respect of the Government of Canada's fiscal year ending on March 31 of the following year. Accordingly, as the amount received up to August 31 represents the total appropriation, 7/12ths is deferred to the following year and the balance, along with the amount deferred from the previous year, is credited to revenue in the current year.

The parliamentary appropriation received for extraordinary building repairs is considered as deferred revenue until used. An amount equal to the repairs incurred during the year, which are shown as an extraordinary item, is transferred to revenue as an extraordinary item. Should the total cost of the repairs be less than the amount received, the balance will be returned to the Consolidated Revenue Fund.

3. Short-term investments

Short-term investments include $50,000 in deposit certificates as security for the payment of fees to artists as required by a union.

National Film Board

MANAGEMENT REPORT

We have prepared the accompanying financial statements of the National Film Board Revolving Fund as required by and in accordance with the policy of the Treasury Board on revolving funds and the reporting requirements and standards of the Receiver General for Canada. The primary responsibility for the integrity and objectivity of data in these financial statements rests with the management of the Fund. In order to assure maximum objectivity and freedom from bias, the financial data contained in these financial statements has been examined by the audit committee of the Board.

These financial statements were prepared in accordance with the stated accounting policies, as set out in Note 2, on a basis consistent with that of the preceding year. Some of the information included in these financial statements is based on management's best estimates and judgments and gives due consideration to materiality. To fulfill this reporting responsibility, the Fund maintains a set of accounts which provides a centralized record of the Fund's financial transactions. Financial information contained in the departmental statements and elsewhere in the Public Accounts is consistent with that in these financial statements, unless indicated otherwise.

The Director of Administration and Financial Services develops and disseminates financial management and accounting policies and issues specific directives which maintain standards of accounting and financial management. Transactions are executed in accordance with prescribed regulations, within parliamentary authorities and are properly recorded to maintain accountability of Government funds and safeguard the Fund's assets. Financial management and internal control systems are augmented by the maintenance of internal audit programs where contacts are maintained between our internal auditor and staff of the Auditor General's Office.

These financial statements have been examined by the Auditor General, his role being to express an informed judgement as to whether the financial statements present fairly the financial position of the Board as at March 31, 1984 and the results of its operations and the changes in its financial position for the year ended in conformity with generally accepted accounting principles. The Auditor General's unqualified opinion is appended.

AUDITOR'S REPORT

THE HONOURABLE FRANCIS FOX, P.C., M.P.
MINISTER OF COMMUNICATIONS

I have examined the balance sheet of the National Film Board as at March 31, 1984 and the statements of operations, accumulated net charge against the Revolving Fund's authority, accumulated deficit and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present fairly the financial position of the Board as at March 31, 1984 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

NOTES TO FINANCIAL STATEMENTS MARCH 31, 1984

1. Authority and purposes

The National Film Board was established in 1950 under the National Film Act to initiate and promote the production and distribution of films in the national interest and in particular to:

produce and distribute, and to promote the production and distribution of, films designed to interpret Canada to Canadians and to other nations;

represent the Government of Canada in its relations with persons engaged in commercial motion picture film activity in connection with motion picture films for the Government or any department thereof;

engage in research in film activity and to make available the results thereof to persons engaged in the production of films;

advise the Governor in Council in connection with film activities; and

discharge such other duties relating to film activity as the Governor in Council may direct it to undertake.

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1984—*Continued*

The Board, through the operation of a revolving fund having a permanent continuing authority from Parliament, can make payments out of the Consolidated Revenue Fund for working capital and the interim financing of operating costs and the acquisition of fixed assets and can record the increase in the net book value of fixed assets against this authority, which provides that the aggregate of admissible working capital and net book value of fixed assets is not to exceed $20 million at any one time. A parliamentary authority, to replenish the revolving fund for net acquisitions of fixed assets and the admissible cost of operations, is voted annually and recorded in the year to which it applies. Any unused balance lapses.

2. Significant accounting policies

Production of films and other visual material

All production costs are charged to operations in the year in which they are incurred and shown in the statement of operations as follows:

Board's program

All costs incurred for unsponsored productions and the excess of costs over the sponsor's contribution for partially-sponsored productions.

Government of Canada and outside parties

All costs incurred for fully-sponsored productions and the sponsored costs of partially-sponsored productions.

Revenues from production of films and other visual material are accounted for at an amount equal to the sponsored production costs during the year in which these costs are incurred. Any profit is recognized in the year the production is completed.

Film prints

The cost of prints made for sale purposes is recorded as inventories. The cost of other prints is expensed on a current basis.

Inventories

Productions in process are carried at the cumulative amount of costs incurred for each production exceeding advances invoiced, up to the amount of the sponsored unbilled balance. On the other hand, any cumulative excess of advances invoiced over costs incurred is recorded as advances on productions.

Materials and supplies are carried at the lower of the average cost and replacement value.

Film prints and other visual material held for resale are carried at the lower of the average direct cost of production and net realizable value.

Fixed assets

Equipment, office equipment and furniture, motor vehicles and garage equipment are carried at cost. Depreciation is calculated on the straight-line method over the estimated useful life of the assets, generally 5 to 10 years. No depreciation is provided during the year of acquisition.

Leasehold improvements are charged to operations as incurred.

The Board enters into agreements with the Department of Supply and Services to acquire the exclusive use of certain fixed assets through leasing arrangements. Rentals are charged to operations in the year to which they apply.

Employee termination benefits

On termination of employment, employees of the Board are entitled to certain benefits provided for under their collective agreements and their conditions of employment. The cost of these benefits is expensed in the year in which they are earned.

Pension plan

All employees participate in the superannuation plan administered by the Government of Canada. The employees and the Board contribute equally to the cost of the plan. This contribution represents the total liability of the Board. Contributions in respect of current service and admissible past service are expensed during the year in which payments are made. The terms of payment for past service are set by the applicable purchase conditions in effect, generally over the number of years of service remaining prior to retirement.

6. Contingent liability

A legal action amounting to $1,606,130 has been instituted against the Board by a former employee for an alleged unjustified dismissal in 1975. This action is being contested; no provision has been made in the accounts.

7. Subsequent event

On May 29, 1984, the Minister of Communications announced a Government approved National Film and Video Policy which provides for a new, more focussed and more effective role for the Board as a world-class centre of excellence in film and video production and a national training centre for advanced research, development and training in the art and technology of film and video. The implementation of this new role will involve a sweeping reorganization, restructuring, reallocation and reconstitution of its activities.

8. Restatement of prior year figures

For comparative purposes, some 1983 figures have been restated to conform with the 1984 presentation.

AUDITOR'S REPORT

TO THE CHAIRMAN OF THE BOARD OF TRUSTEES
OF THE NATIONAL MUSEUMS OF CANADA

I have examined the balance sheet of National Museums of Canada as at March 31, 1984 and the statements of operations, equity and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present fairly the financial position of the Corporation as at March 31, 1984 and the results of its operations and the changes in its financial position for the year then ended in accordance with the accounting policies set out in Note 2 to the financial statements applied on a basis consistent with that of the preceding year.

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1984

1. Authority, objective and operations

The National Museums of Canada was established by the National Museums Act in 1968 and is a departmental Crown corporation named in Schedule B to the Financial Administration Act.

The Corporation's objective is to demonstrate the products of nature and the works of man, with special but not exclusive reference to Canada, so as to promote interest therein throughout Canada and to disseminate knowledge thereof.

The Corporation's operations comprise the National Gallery of Canada, the National Museum of Man, the National Museum of Natural Sciences, the National Museum of Science and Technology, National Programmes, Museum Assistance Programmes and Administration.

2. Accounting policies

(a) Basis of accounting

Expenses and revenue are accounted for using the accrual basis of accounting, except for refunds of previous years' expenditure, employee termination benefits, and the trust account which are recorded on a cash basis. Parliamentary appropriations are recorded in the year to which they apply.

(b) Inventories

Inventories are valued at the lower of cost and net realizable value, except for the cost of books and pamphlets which is written down on a straight-line basis over a five-year period to take into account obsolescence.

(c) Property and equipment

Property and equipment are carried at cost and depreciated using the straight-line method over their estimated useful lives as follows:

Equipment	5 to 12 years
Building renovations	25 years
Office furniture	5 to 10 years

(d) Collections

Collections constitute the major portion of the Corporation's assets but are shown at a nominal value of $1,000 on the balance sheet because of the practical difficulties in reflecting them at a meaningful value. Objects purchased for the collections of the Corporation are recorded as expenses in the year of acquisition. Objects donated to the Corporation are not recorded in the books of accounts.

(e) Services provided without charge

Amounts for services provided without charge by Government departments are included in operating expenses.

(f) Pension plan

The employees of the Corporation participate in the Public Service Superannuation Plan administered by the Government of Canada. The employees and the Corporation contribute equally to the cost of the Plan. This contribution represents the total liability of the Corporation. Contributions in respect of current service are expensed during the year in which services are rendered. With respect to admissible past service, contributions are expensed when paid; the terms of payment are set by the applicable purchase conditions.

1985	6,588
1986	166
	6,754

9. Contingencies

(a) On termination of employment, employees of the Corporation are entitled to certain benefits provided under terms of employment. The cost of these benefits is expensed in the year in which they are paid. As at March 31, 1984, the maximum liability under these terms of employment is estimated at $3,089,000 (1983—$2,475,000). No provision has been recorded in the accounts.

(b) A Provincial Court has issued a judgement against the Corporation on the 8th day of August 1983. As of March 31, 1984, the amount payable could be approximately $170,000. The Corporation has appealed this decision and the ultimate outcome is uncertain. Eventual disbursements will be charged to the period in which they occur.

Standards Council of Canada

AUDITOR'S REPORT

TO THE STANDARDS COUNCIL OF CANADA
AND
THE HONOURABLE JUDY EROLA, P.C., M.P.
MINISTER OF CONSUMER AND CORPORATE AFFAIRS

I have examined the balance sheet of the Standards Council of Canada as at March 31, 1984 and the statements of operations and surplus for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present fairly the financial position of the Council as at March 31, 1984 and the results of its operations for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

KENNETH M. DYE, F.C.A.
Auditor General of Canada

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1984

1. Authority and objectives

The Standards Council of Canada was created by Parliament as a corporation under the Standards Council of Canada Act in 1970 to be the national co-ordinating body for voluntary standardization. The Council carries out its task through the National Standards System, a federation of accredited organizations concerned with standards-writing, certification and testing co-ordinated by the Council.

The objectives of the Council are to foster and promote voluntary standardization in fields relating to the construction, manufacture, production, quality, performance and safety of buildings, structures, manufactured articles and products and other goods and to further international co-operation in the field of standards.

2. Significant accounting policies

(a) Statement of changes in financial position

A statement of changes in financial position has not been presented as, in the opinion of management, it would not add significantly to the information to be derived from these financial statements.

(b) Foreign currency translation

Transactions in foreign currencies are translated into Canadian dollars at the exchange rate in effect at the date of the transaction. Any amounts payable or receivable in foreign currencies at the end of the year are translated into Canadian dollars at the exchange rate in effect at the balance sheet date.

(c) Office furniture and equipment

The costs of office furniture and equipment are charged to operations in the year of acquisition.

(d) Employee termination benefits

Since 1978, employees have been entitled to specified benefits on termination as provided for under labour contracts and conditions of employment. The liability for these benefits is recorded in the accounts as the benefits accrue to the employees.

(e) Pension plan

Since incorporation, employees have been covered by the Public Service Superannuation Plan administered by the Government of Canada. Contributions to the Plan are required from both the employee and the Council. Contributions with respect to current service are expensed in the current period.

(f) Parliamentary appropriations

Parliamentary appropriations are recorded when received.

3. Appropriated surplus

EMPLOYMENT AND IMMIGRATION

Department

Objective

DEPARTMENTAL ADMINISTRATION PROGRAM

—To ensure that federal labour market, income related and immigration policies and programs are developed and implemented in an effective manner consistent with national economic and social goals and to provide information to the public concerning these policies and programs.

Canada Employment and Immigration Commission

Objectives

ADMINISTRATION PROGRAM

—To provide efficient and timely support services to the Commission and Department.

EMPLOYMENT AND INSURANCE PROGRAM

—To further the attainment of national economic and social goals by realizing the full productive potential of Canada's human resources, while supporting the initiatives of individuals to pursue their economic needs, and, more generally, their self-fulfillment through work.

IMMIGRATION PROGRAM

—To administer the admission of immigrants and visitors in accordance with the economic, social and cultural interests of Canada.

ANNUITIES PROGRAM

—To administer contracts entered into under the Government Annuities Act.

Immigration Appeal Board

Objective

—To make available to persons who have been ordered removed from Canada or to persons in Canada whose relatives have been refused admission to Canada, an independent court to which they may appeal such decisions, not only on legal grounds, but also on discretionary grounds; and to permit the redetermination of refugee claims.

Environmental Studies Revolving Fund

MANAGEMENT REPORT

We have prepared the accompanying financial statements of the Environmental Studies Revolving Fund in accordance with Treasury Board policy, the reporting requirements of the Receiver General for Canada and the stated accounting policy set out in Note 2.

The Fund began operation during fiscal year 1983-84 and, as such, there are no comparative figures for the preceding fiscal year.

The Department develops and disseminates financial management and accounting policies and the Fund is maintained under a system of internal accounting controls which provide management with reasonable assurance that transactions are recorded and executed in accordance with its authorizations and that its assets are safeguarded.

The financial information presented herewith is consistent with that presented elsewhere in the Public Accounts and in departmental reports.

NOTES TO FINANCIAL STATEMENTS MARCH 31, 1984

1. Authority and purpose

The Environmental Studies Revolving Fund was established under the authority of Section 49 of the Canada Oil and Gas Act which was proclaimed in March 1982. The terms and conditions of the Fund were approved by Treasury Board in February 1983. The purpose of the Fund is to finance environmental and social studies which are necessary to determine whether to authorize oil and gas exploration or development activities on Canada lands. Payments in the form of levies are made into the Fund by interest owners, based on a rate fixed by the Minister; payments are made from the Fund to parties carrying out such environmental and social studies, as directed by the Minister. The total amount of deposit in the Fund shall not, at any time, exceed $15,000,000.

2. Significant accounting policy

Levies and expenses

Levies are recorded at the time of billing to the interest owners. Expenses are recorded on the accrual basis of accounting; therefore, they include estimated amounts for study costs incurred but not invoiced before the year end.

3. Commitments

At March 31, 1984, there existed $1,109,639 in commitments for studies which will become expenses of the Fund as they are performed.

Petro-Canada International Assistance Corporation

AUDITORS' REPORT

TO THE SHAREHOLDER

We have examined the balance sheet of Petro-Canada International Assistance Corporation, a subsidiary of Petro-Canada, as at December 31, 1983 and the statements of operations and changes in financial position for the year then ended. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as we considered necessary in the circumstances.

In our opinion, these financial statements present fairly the financial position of the Corporation as at December 31, 1983 and the results of its operations and the changes in its financial position for the period then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding period.

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 1983

1. **Incorporation**

The Corporation was incorporated in 1981 by Petro-Canada under the Canada Business Corporations Act as a wholly-owned subsidiary pursuant to directions provided by Order-in-Council PC 1981-2167 of August 5, 1981. The inaugural meeting of the Board of Directors was held on January 25, 1982 after which the Corporation commenced operations.

2. **Operations**

The Corporation assists developing countries in the exploration for oil and gas and related activities in those countries in a manner consistent with the foreign aid and energy objectives and programmes of the Government of Canada. The Corporation's activities are financed by parliamentary appropriations pursuant to Subsection 24.2 of the Petro-Canada Act. An affiliated company, Petro-Canada Inc. ("PCI"), formerly Petro-Canada Exploration Inc., provides technical and administrative services to the Corporation at cost. In addition, the Corporation may also borrow from PCI such funds as it may require from time to time. Advances received from PCI, which cannot exceed $50,000,000 at any time, bear interest at the cost of borrowing to PCI.

3. **Share capital**

EXTERNAL AFFAIRS

Department

Objectives

CANADIAN INTERESTS ABROAD PROGRAM

PROGRAM

—To promote in their international dimensions the national objectives of economic growth, trade development, sovereignty and independence, peace and security, the promotion of social justice, quality of life and a harmonious natural environment.

PASSPORT OFFICE REVOLVING FUND

—To provide for the issue of appropriate travel documents to Canadian citizens and to certain permanent residents of Canada who are unable to obtain valid passports from their country of origin.

WORLD EXHIBITIONS PROGRAM

—To present an image of Canada that portrays Canada's industrial, cultural and social development, through participation in World Exhibitions approved by the International Bureau of Expositions.

GRAINS AND OILSEEDS PROGRAM*

—To achieve sustained market growth and to maintain an orderly marketing system for grains and oilseeds.

Canadian Commercial Corporation

Objective

—To purchase economically, goods and services from Canadian firms for the account of foreign governments including the contracting for turnkey and multi-item acquisition projects.

Canadian International Development Agency

Objective

—To support the efforts of developing countries in fostering their economic growth and the evolution of their social systems in a way that will produce a wide distribution of the benefits of development among the populations of these countries, enhance the quality of life and improve the capacity of all sectors of their population to participate in national development efforts.

Export Development Corporation

Objective

—To facilitate and develop trade between Canada and other Countries.

International Development Research Centre

Objective

—To initiate, encourage, support and conduct research into the problems of the developing regions of the world and into the means of applying and adapting scientific, technical and other knowledge to the economic and social advancement of those regions.

International Joint Commission

Objective

—To implement the powers, responsibilities and functions assigned to the Commission by international agreements; to investigate and recommend upon any questions or matters of difference along the common frontier referred to it by the Governments of Canada and the United States; and to consider and, if appropriate, approve in accordance with the Boundary Waters Treaty of 1909, uses, diversions, or obstructions of waters on either side of the boundary affecting the natural level or flow of waters on the other side.

International Development Research Centre

AUDITOR'S REPORT

TO THE INTERNATIONAL DEVELOPMENT RESEARCH CENTRE
AND
THE HONOURABLE JEAN CHRÉTIEN, P.C., M.P.
SECRETARY OF STATE FOR EXTERNAL AFFAIRS

I have examined the balance sheet of the International Development Research Centre as at March 31, 1984 and the statements of operations, equity of Canada and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present fairly the financial position of the Centre as at March 31, 1984 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

RAYMOND DUBOIS, C.A.
Deputy Auditor General
for the Auditor General of Canada

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1984

1. Authority and objective

The International Development Research Centre as a Corporation without share capital, was established in 1970 by the Parliament of Canada through the International Development Research Centre Act. The annual grant received from the Parliament of Canada is pursuant to External Affairs Vote 45 for the years ended March 31, 1984 and 1983.

The objective of the Centre is to initiate, encourage, support and conduct research into the problems of the developing regions of the world and into the means for applying and adapting scientific, technical and other knowledge to the economic and social advancement of those regions.

2. Significant accounting policies

The financial statements have been prepared in accordance with Canadian generally accepted accounting principles and reflect the following policies:

Property and equipment

Property and equipment are recorded at cost and depreciated over their estimated useful lives. Leasehold improvements are amortized over the terms of the respective leases. The methods and rates used to provide for the depreciation and amortization of property and equipment are as follows:

	Method	Rate
Computer hardware and systems software	Straight line	20%
Leasehold improvements	Straight line	6⅔%-20%
Office furniture and equipment	Diminishing balance	20%
Vehicles	Diminishing balance	30%
Equipment under capital lease	Straight line	20%

Research expenditure

Certain expenditures for development research, research related activities and contract research are charged to operations when disbursed and as they become due under the terms of contractual agreements. All other research expenditure is recorded on an accrual basis.

Contract research

The Centre enters into agreements to undertake contract research on behalf of various donor agencies. The Centre recognizes contract research revenue at the time that the related expenditure is incurred. Funds received in excess of contract research expenditures incurred are reflected in current liabilities.

Pension costs

Employees of the Centre are covered by the Public Service Superannuation Plan administered by the Government of Canada. Contributions to the Plan are required from the employees and the Centre. These contributions represent the total liability of the Centre and are recognized in the accounts on a current basis.

Income taxes

The Centre is exempt from any liability for income taxes.

Foreign currency translation

Monetary assets and liabilities are translated into Canadian dollars at the rate of exchange in effect at year-end. Non-monetary assets are translated at rates prevailing at the respective transaction dates. Foreign currency transactions are translated into Canadian dollars by the use of an average exchange rate that closely approximates the rate in effect at the transaction date. Exchange gains and losses are included in operations for the current period.

3. Investments

Investments consist of short-term notes and deposits and treasury bills held with:

	1984	1983
	$	$
Canadian chartered banks	9,448,940	9,744,231

6. Long-term obligation under capital lease

The future minimum lease payments under capital lease are as follows:

Year ending March 31	$
1985	108,636
1986	108,636
1987	108,636
1988	108,636

Less amount representing interest at 13.5%	138,981
Present value of the obligation	404,199
Less current portion	58,966
	345,233

The obligation under capital lease is recorded at an amount equal to the present value of the minimum lease payments using the interest rate of 13.5% implicit in the lease.

7. Operating leases

The Centre has entered into various lease arrangements for office premises, equipment and staff accommodation, in Canada and in various countries. The total payments under such lease arrangements will be as follows:

Year ending March 31	$
1985	2,319,027
1986	1,559,348
1987	1,194,943
1988	603,638
1989	16,300
	5,693,256

8. Contractual commitments—Project grants and project development

The Centre is committed to make payments totalling up to $64,000,000 during the next four years subject to funds being provided by Parliament and subject to compliance by recipients with the terms of project agreements. The Centre has also submitted formal grant offers to prospective recipients totalling $21,300,000 and is awaiting acceptance of these offers.

9. Contingencies

The Centre is a defendant in an action for damages and costs allegedly sustained by the plaintiff. Management and counsel are of the opinion that the Centre has defences against any significant claim and accordingly no provision has been made in the financial statements in respect of this claim.

10. Comparative figures

The 1983 comparative figures have been reclassified to conform to the statement presentation adopted in 1984.

Passport Office Revolving Fund

MANAGEMENT REPORT

We have prepared the accompanying financial statements of the Passport Office Revolving Fund as required by and in accordance with the policy of the Treasury Board on revolving funds and the reporting requirements and standards of the Receiver General for Canada. The primary responsibility for the integrity and objectivity of data in these statements rests with the management of the Fund.

These financial statements have been prepared in accordance with the stated accounting policies, as set out in Note 2, on a basis consistent with that of the preceding year.

The Fund maintains a system of internal accounting controls which provides management with reasonable assurance that transactions are recorded and executed in accordance with its authorizations and that its assets are safeguarded.

Financial information contained in the departmental statements and elsewhere in the Public Accounts is consistent with that in these financial statements.

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1984

1. Purpose and authority

The Passport Office Revolving Fund was established in 1969 to provide for the issue of appropriate travel documents to Canadian citizens and to certain permanent residents of Canada who are unable to obtain valid passports from their country of origin.

The Fund has a continuing non-lapsing authority from Parliament to make payments out of the Consolidated Revenue Fund for working capital, capital acquisitions and temporary financing of accumulated operating deficits, the total of which is not to exceed $4,000,000 at any time. An amount of $745,893 representing net assets assumed by the Fund and assets contributed to the Fund was charged to this authority when the Fund became budgetary in 1981.

2. Significant accounting policies

(a) Inventories

The inventory of materials and supplies is carried at cost and the inventory of passports-in-process is valued at average cost for the year.

(b) Fixed assets

Leasehold improvements are amortized on the straight-line basis over the term of the appropriate lease. Other fixed assets are depreciated from the year of acquisition on the straight-line basis over their estimated useful lives as follows:

Furniture	16 years
Equipment	
Electronic data processing	5 years
Other equipment	10 years

(c) Employee termination benefits

Termination benefits accrue to employees over their years of service with the Government of Canada, as provided for under collective agreements. The cost of these benefits is recorded in the accounts as the benefits accrue to the employees.

	1,139,120	199,058	81,570	1,256,608

5. Long-term leases

The Passport Office occupies space at eighteen locations under long-term leases which expire between August 31, 1984 and March 31, 1986. The annual rental is approximately $1,475,000.

6. Restatement of prior year figures

For comparative purposes, some 1982-83 figures have been restated to conform to the 1983-84 presentation.

(1) Under part I of the Excise Tax Act R.S. c. E-13, 1970, a tax of 10 percent is levied on net insurance premiums paid by any resident of Canada for insurance placed with insurers not authorized under the laws of Canada or of any province thereof. A 10 percent premium tax is also levied on insurance placed with authorized insurers through brokers or agents outside Canada.

(2) Under the provisions of the Department of Insurance Act, R.S. c. I-17, 1970, the expenditure incurred by Canada during each fiscal year in connection with the administration of the Canadian and British Insurance Companies Act, the Co-operative Credit Associations Act, the Foreign Insurance Companies Act, the Loan Companies Act, and the Trust Companies Act, is assessed against the companies transacting business thereunder, in the proportion which the net receipts (as defined in the Act), or income of each in Canada bears to the total amount of such receipts or income received in Canada by all such companies during the preceding calendar year. Under the provisions of the Investment Companies Act, S.C. c. 33, 1970-71, the expenditure incurred each fiscal year in connection with the administration of the Act is assessed against investment companies in the proportion which the mean assets (as defined in the Act) of each bears to the total mean assets of all such companies.

L23b	This account was established to record loans made to the Canadian Saltfish Corporation which was established under the Saltfish Act, 1969-70, and was extended by Vote L23b, Appropriation Act No. 1, 1976 to regulate interprovincial and export trade in saltfish in order to improve the earnings of primary producers of cured cod fish. Section 17 of the Act provides that the Governor in Council may authorize the Minister of Finance on such terms and conditions as the Governor in Council may prescribe: (a) to guarantee repayment of loans, and interest thereon, made by any bank to the Corporation; and (b) to make loans to the Corporation. PC 1973-1915 July 1973, authorizes the Minister of Finance to make loans to the Canadian Saltfish Corporation to finance the acquisition of capital assets other than working capital. The maximum amount that may be borrowed from all lenders is $30,000,000 as indicated in the Act to amend the Saltfish Act, July 7, 1980. (Net)

Fisheries Prices Support Board

AUDITOR'S REPORT

TO THE FISHERIES PRICES SUPPORT BOARD
AND
THE HONOURABLE HERB BREAU, P.C., M.P.
MINISTER OF FISHERIES AND OCEANS

I have examined the balance sheet of the Fisheries Prices Support Board as at March 31, 1984 and the statements of operations and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present fairly the financial position of the Board as at March 31, 1984 and the results of its operations and the changes in its financial position for the year then ended in accordance with the accounting policies set out in Note 2 to the financial statements applied, after giving retroactive effect to the change in accounting for purchases and sales of fisheries products as explained in Note 3, on a basis consistent with that of the preceding year.

NOTES TO FINANCIAL STATEMENTS MARCH 31, 1984

1. Authority, objectives and operations

The Board was established in 1944 under the Fisheries Prices Support Act and is a departmental Crown corporation named in Schedule B to the Financial Administration Act. As authorized by the Governor in Council, the Board is empowered to purchase fishery products for its own account and to make deficiency payments to producers of such products. The Act requires that the Board, in establishing purchase prices and in determining the rate at which deficiency payments are to be made, endeavour to secure a fair relationship between the returns from fisheries and those from other occupations. In addition, the Board acts as procurement agency for the supply of fishery products required by the Canadian International Development Agency for food-aid and development programs. The Board operates through offices of the Department of Fisheries and Oceans, with departmental staff performing certain functions of the Board.

2. Accounting policies

The Board follows the accrual basis of accounting.

Administrative services provided without charge by the Department of Fisheries and Oceans are included in the cost of operations.

3. Change in accounting

Effective April 1, 1983, the Board changed its method of accounting for purchases and sales of fisheries products from the modified cash basis to the accrual basis. Accordingly, a balance sheet is now presented and the statement of operations for 1983 has been restated.

The effect of this change is to decrease the previously reported profit from trading operations for 1983 by $886,237. Had this change in accounting policy not been adopted, the cost of trading operations for 1984 would have been increased by $1,793,276 and a balance sheet would not have been presented.

4. Cod block purchases

During the year, the Board supported the price of frozen cod block fillets by purchasing inventory from fish processors. The purchase agreement allowed the processors to repurchase the cod at the original selling price up to six months after sale to the Board. As of March 31, 1984, the Board had purchased 2,078,170 lbs of frozen cod block fillets. Of this amount, 498,611 lbs had been repurchased by year end.

As of March 31, 1984, the Board had inventory of 1,579,559 lbs of frozen cod block fillets. Subsequent to year end, 678,967 lbs have been repurchased by fish processors. The remainder, 900,592 lbs, will be sold by the Canadian Saltfish Corporation acting as agents for the Board.

The inventory on hand as of March 31, 1984 has been recorded at the lower of cost or net realizable value resulting in a write down of $369,243 which is included in cost of goods sold.

The frozen cod block fillets were purchased out of Fisheries and Oceans Vote 2b.

5. Deficiency payments

During the year, deficiency payments were made by the Board to support the price of seal pelts (1983—Groundfish). These payments were made out of Fisheries and Oceans Vote 10.

INDIAN AFFAIRS AND NORTHERN DEVELOPMENT

Department

Objectives

ADMINISTRATION PROGRAM

—To provide overall policy direction and central advisory and administrative services to Departmental Programs.

INDIAN AND INUIT AFFAIRS PROGRAM

—In keeping with the principles of self-development, access of opportunity, responsibility and joint participation within Canadian society, to assist and support Indians and Inuit in achieving their cultural, social and economic needs and aspirations, and to ensure that Canada's constitutional and statutory obligations and responsibilities to the Indian and Inuit peoples are fulfilled.

NORTHERN AFFAIRS PROGRAM

PROGRAM

—To advance the social, cultural, political and economic development of the Yukon and Northwest Territories, in conjunction with the Territorial Governments and through co-ordination of activities of the federal departments and agencies, with special emphasis on the needs of native northerners and the protection of the northern environment.

ENVIRONMENTAL STUDIES REVOLVING FUND

—To fund environmental and social studies which are necessary to determine whether to authorize oil and gas exploration or development activities on Canada Lands in the North.

NATIVE CLAIMS PROGRAM

—To enable native claimants to research, develop and negotiate claims and to achieve land claims resolution.

Northern Canada Power Commission

Objective

—To provide public utilities and distribution systems on a self-sustaining basis in the Northwest Territories, the Yukon Territory and at certain other locations in Canada.

Environmental Studies Revolving Fund

MANAGEMENT REPORT

We have prepared the financial statements of the Environmental Studies Revolving Fund in accordance with Treasury Board policy and the reporting requirements of the Receiver General for Canada. The primary responsibility for integrity and objectivity of these statements rests with Headquarters Financial Services.

These financial statements were prepared with objective data maintained by the Department. The significant accounting policy used in the preparation of the financial statements is included in the notes to the financial statements. Financial information contained in the departmental statements and elsewhere in the Public Accounts is consistent with that in these financial statements, unless indicated otherwise.

The Fund began operation during fiscal year 1983-84 and, as such, no comparative figures are available from the preceding fiscal year. The management of the Fund is effected through the maintenance of accounts which provide a centralized record of the Fund's transactions. Transactions are executed in accordance with the Financial Administration Act, regulations and directives from Treasury Board and the Receiver General for Canada in order to provide the required visibility, accountability and control of the operations of the Fund.

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1984

1. Authority and purpose

The Environmental Studies Revolving Fund was established under the authority of Section 49 of the Canada Oil and Gas Act, which was proclaimed in March 1982. The terms and conditions of the Fund were outlined and approved by Treasury Board in February 1983. The purpose of the Fund is to finance environmental and social studies, which are necessary to determine whether to authorize oil and gas exploration or development activities on Canada lands. Levies are collected from the interest owners within prescribed regions, based on a rate fixed by the Minister, and are deposited into the Fund. Payments are made from the Fund to parties carrying out such environmental and social studies within these regions, as directed by the Minister. The total amount of deposit in the Fund cannot, at any time, exceed $15 million.

2. Significant accounting policy

Levies and expenses

As levies are billed to the interest owners, they are recorded. Expenses are recorded on an accrual basis of accounting and include estimated amounts for such portion of environmental and social studies expenses incurred before the year end but not requested for payment.

3. Commitments

At March 31, 1984, the outstanding balance against the accepted study proposals was $558,184 and is composed of the following:

	1984
	$
Studies not started	155,978
Studies not completed	402,206

Canadian Centre for Occupational Health and Safety

AUDITOR'S REPORT

TO THE COUNCIL OF THE CANADIAN CENTRE FOR
OCCUPATIONAL HEALTH AND SAFETY
AND
THE HONOURABLE ANDRÉ OUELLET, P.C., M.P.
MINISTER OF LABOUR

I have examined the balance sheet of the Canadian Centre for Occupational Health and Safety as at December 31, 1983 and the statements of operations and equity and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present fairly the financial position of the Centre as at December 31, 1983 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 1983

1. Authority and objectives

The Centre was established on October 1, 1978 under the Canadian Centre for Occupational Health and Safety Act. The objectives of the Centre are to promote the right of Canadians to a healthy and safe working environment and to enhance the physical and mental health of workers.

2. Significant accounting policies

Parliamentary grant

The Centre operates on a calendar year and receives an operating grant from Parliament on an April 1 to March 31 basis to coincide with the fiscal year of the Government. Accordingly, a quarter of the grant received in respect of the current fiscal year of the Government is deferred.

Fixed assets

Fixed assets are recorded at cost. Office furniture and all equipment are depreciated over their estimated useful lives of five years using the straight-line method. Leasehold improvements are amortized over the term of the lease.

Employee termination benefits and vacation pay

Employee termination benefits and earned vacation not taken at the end of the year are accounted for on the accrual basis.

3. Fixed assets

5. Lease obligations

The future minimum lease payments under an operating lease which expires in 1986 are as follows:

	$
1984	126,500
1985	126,500
1986	42,167

6. Contingent liabilities

Two claims, alleging unlawful dismissal, have been brought against the Centre by previous employees. One of the claims has not been quantified and the other, together with interest and cost, amounts to approximately $190,000. In the opinion of management these claims are without merit. The losses, if any, which may result from the settlement of these matters cannot be determined at this time and, accordingly, no provision has been recorded in the accounts.

Board of Trustees of the Queen Elizabeth II Canadian Fund to Aid in Research on the Diseases of Children

AUDITOR'S REPORT

TO THE BOARD OF TRUSTEES
AND
THE HONOURABLE MONIQUE BÉGIN, P.C., M.P.
MINISTER OF NATIONAL HEALTH AND WELFARE

I have examined the balance sheet of the Board of Trustees of the Queen Elizabeth II Canadian Fund to Aid in Research on the Diseases of Children as at March 31, 1984 and the statement of operations and balance of fund for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present fairly the financial position of the Board as at March 31, 1984 and the results of its operations for the year then ended in accordance with the accounting policies set out in Note 2 to the financial statements applied on a basis consistent with that of the preceding year.

NOTES TO FINANCIAL STATEMENTS MARCH 31, 1984

1. Authority and objectives

The Queen Elizabeth II Canadian Fund to Aid in Research on the Diseases of Children was established by the Queen Elizabeth II Canadian Research Fund Act in 1959 to assist individuals or organizations to undertake or carry on research into the diseases of children, and the causes, prevention and treatment of such diseases. The Board of Trustees, consisting of a Chairman and six other trustees appointed by Her Majesty by commission under the Great Seal, was also established by the Act to manage and administer the Fund in accordance with and subject to the Act.

2. Accounting policies

Investment in Canada bonds

The investment in Canada bonds is recorded at cost. All gains or losses, including any premium or discount on acquisition, are recognized when the bonds are sold. Interest income is recorded on an accrual basis.

Scientist awards

Scientist awards are provided for in the year the awards are approved. Any subsequent increases and decreases to existing awards are accounted for in the year these increases or decreases are approved. Any awards cancelled subsequent to the year of approval are recognized as revenue in the year of cancellation. Refunds of unspent awards are recorded as revenue when received.

Services provided without charge

The Medical Research Council provides to the Board without charge such secretarial and other administrative and technical services and facilities as are required for the purposes of the Act.

NOTES TO FINANCIAL STATEMENT
MARCH 31, 1984

1. Authority and objective

The Council was established in 1969 by the Medical Research Council Act and is a departmental Crown corporation named in Schedule B to the Financial Administration Act. The objective of the Council is to help attain the quality and scale of research in the health sciences essential to the maintenance and improvement of health services.

2. Accounting policies

Grants and scholarships

Grants and scholarships are charged to expenditure when disbursed.

Administration expenditure

Administration expenditure is recorded on an accrual basis, except for employee termination benefits and vacation pay which are accounted for on a cash basis.

Purchases of furniture and equipment are recorded as administration expenditure in the year of acquisition.

Amounts for services provided without charge by government departments are included in administration expenditure.

3. Parliamentary appropriations

Unused parliamentary appropriations, which lapsed, amounted to $14 in respect of Vote 55 and $361,825 in respect of Vote 50.

4. Refunds of previous years' expenditure

Refunds of previous years' expenditure amounting to $127,735 (1983—$91,310) were remitted to the Receiver General for Canada and are not included in the statement of expenditure.

5. Commitments

The Council is committed to disburse grants and scholarships, subject to the provision of funds by Parliament, as follows:

	1984	1983
	(in thousands of dollars)	
1983-84		113,972
1984-85	130,799	74,470

1987-88	25,112	11,493
1988-89	14,240	4,037
1989-90	5,048	
	309,250	263,637

6. Trust funds

In 1974, the Council received $75,000 from an anonymous donor to establish a fund. The interest received is used for the payment of grants for research in the fields of Dyskinesia and Torticollis. Other donations have been received but were not earmarked for specific projects. The donations and interest received and grants paid are not included in the statement of expenditure. The transactions in these funds for the year ended March 31 were as follows:

	1984	1983
	$	$
Balance at beginning of the year	97,735	90,017
Interest received	7,368	10,818
Grants paid	(25,500)	(3,100)
Balance at end of the year, represented by deposit with Receiver General for Canada	79,603	97,735

7. Comparative figures

Certain figures for 1983, presented for comparative purposes, have been restated to conform to the 1984 presentation.

Economic Council of Canada

AUDITOR'S REPORT

TO THE ECONOMIC COUNCIL OF CANADA
AND
THE RIGHT HONOURABLE PIERRE ELLIOTT TRUDEAU, P.C., Q.C., M.P.
PRIME MINISTER OF CANADA

I have examined the statement of expenditure of the Economic Council of Canada for the year ended March 31, 1984. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, this financial statement presents fairly the expenditure of the Council for the year ended March 31, 1984, in accordance with the accounting policies set out in Note 2 to the financial statement applied on a basis consistent with that of the preceding year.

KENNETH M. DYE, F.C.A.
Auditor General of Canada

NOTES TO FINANCIAL STATEMENT MARCH 31, 1984

1. Authority and objective

The Council was established in 1963 by the Economic Council of Canada Act and is a departmental Crown corporation named in Schedule B to the Financial Administration Act.

The objective of the Council is to advise and recommend to the Prime Minister how Canada can achieve the highest possible levels of employment and efficient production in order that the country may enjoy a high and consistent rate of economic growth and that all Canadians may share in rising living standards.

2. Accounting policies

Expenditure includes the cost of work performed, goods received or services rendered prior to April 1.

Purchases of office furniture and equipment are recorded as expenditure when acquired.

Expenditure includes costs for services provided without charge by government departments.

Employees participate in the Public Service Superannuation Plan administered by the Government of Canada. The employees and the Council contribute equally to the cost of the Plan and contributions are charged to expenditure when paid.

Refunds of previous years' expenditure are recorded as revenue of the Government of Canada when received and are not deducted from the expenditure of the Council.

3. Parliamentary appropriation—Privy Council Vote 20

Construction Services Revolving Fund

MANAGEMENT REPORT

We have prepared the financial statements of the Construction Services Revolving Fund in accordance with Treasury Board policy and the reporting requirements of the Receiver General for Canada.

These financial statements were prepared with objective data and in conformity to the "consistency" principle. The management of the Fund is effected through the maintenance of accounts which provide a centralized record of the Fund's transactions. It is further managed and controlled through procedure manuals, instructions and directives. Transactions are executed in accordance to the regulations contained in the Guide on Financial Administration and the Financial Administration Act in order to maintain accountability and exercise internal control.

The transactions of the Fund have been subjected to audit by the Auditor General's office as part of the review of internal control and the examination of the books, records and financial statements of the Department.

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1984

1. Purpose and authority

The Construction Services Working Capital Advance was replaced by the Construction Services Revolving Fund as at April 1, 1980. The purpose of the Fund is to provide construction services (interim financing and financial control, construction supervision and other related services) on a cost recovery basis to other programs of the Department, to other federal departments and agencies, to other governments or to private sector tenants of federal property.

The Adjustment of Accounts Act, S.C. 1980, c. 17, authorized the operation of the Construction Services Revolving Fund in the current and subsequent years with a statutory authority limit of $55 million. In accordance with Section 33 of the Adjustment of Accounts Act and through the Appropriation Act No. 3, 1983-84, the Construction Services Revolving Fund was amended to include charges to be made to other departmental programs in the definition of purpose and to increase the financial authority from $55,000,000 to $150,000,000.

2. Significant accounting policy

Payments, charges and recoveries

The Construction Services Revolving Fund provides construction services on a cost recovery basis. The recoveries are always equal to the payments and charges since revenue is recognized at billing point, hence no profit is realized.

3. Restatement of prior year figures

For comparative purposes, some 1982-83 figures have been restated to conform with the 1983-84 presentation. Furthermore, the 1982-83 figures were restated to reflect the partial collection of accounts receivable written off in 1981-82.

REGIONAL INDUSTRIAL EXPANSION

Department

Industry, Trade and Commerce

Objectives

TRADE-INDUSTRIAL PROGRAM

—To achieve efficient and sustained growth in the production and trade of Canadian goods and services and to assist Canadian industries to adjust to changes in the domestic and external economic environment.

TOURISM PROGRAM

—To sustain orderly growth of tourism in Canada.

Regional Economic Expansion

Objective

—To encourage each region of Canada to realize its potential for contributions to the economic and social development of the nation by expanding production and employment opportunities in regions of disparity and by encouraging mobility and other aspects of social adjustment both within and between regions.

Regional Industrial Expansion

Objective

—To increase overall industrial, commercial and tourism activity in all parts of Canada and in the process reduce economic disparity across Canada.

Cape Breton Development Corporation

Objective

—To stimulate economic adjustment and expansion on Cape Breton Island while rationalizing the coal industry.

Federal Business Development Bank

Objective

—To promote and assist in the establishment and development of business enterprises, particularly small business in Canada.

Foreign Investment Review Agency

Objective

—To ensure that acquisitions of control of Canadian business enterprises and the establishment of new or unrelated businesses by non-Canadians are, or are likely to be, of significant benefit to Canada.

Notes: The Grains and Oilseeds Program was transferred to the Department of External Affairs.

The Prairie Farm Rehabilitation Administration, as well as part of other votes, were transferred from the Department of Regional Economic Expansion to the Department of Agriculture (PC 1983-609 dated March 3, 1983).

SCIENCE AND TECHNOLOGY

Ministry of State

Objective

—To encourage the development and use of science and technology in support of national goals.

National Research Council of Canada

Objectives

SCIENTIFIC AND INDUSTRIAL RESEARCH PROGRAM

—To create, acquire, and promote the application of scientific and engineering knowledge to meet Canadian needs for economic, regional and social development.

SCIENTIFIC AND TECHNICAL INFORMATION PROGRAM

—To promote and provide for the use of scientific and technical information by the people and Government of Canada to meet Canadian needs for economic, regional and social development.

Natural Sciences and Engineering Research Council

Objective

—To promote and support the development and maintenance of research and the provision of highly qualified manpower in the natural sciences and engineering.

Science Council of Canada

Objective

—To assess Canada's scientific and technological requirements, to increase public awareness of these requirements and of the interdependence of various groups in society in the development and use of science and technology, and to advise the Government on the best use of science and technology.

AUDITOR'S REPORT

TO THE NATURAL SCIENCES AND ENGINEERING RESEARCH COUNCIL
AND
THE HONOURABLE DONALD J. JOHNSTON, P.C., M.P.
MINISTER OF STATE FOR SCIENCE AND TECHNOLOGY

I have examined the statement of expenditure of the Natural Sciences and Engineering Research Council for the year ended March 31, 1984. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, this financial statement presents fairly the expenditure of the Council for the year ended March 31, 1984 in accordance with the accounting policies set out in Note 2 to the financial statement applied on a basis consistent with that of the preceding year.

NOTES TO FINANCIAL STATEMENTS MARCH 31, 1984

1. Authority and objective

The Council was established in 1978 by the Natural Sciences and Engineering Research Council Act, and is a departmental Crown corporation named in Schedule B to the Financial Administration Act. Its objective is to promote and support the development and maintenance of research and the provision of highly qualified manpower in the natural sciences and engineering.

2. Accounting policies

Grants and scholarships are charged to expenditure as disbursed.

Operating expenditure is recorded on an accrual basis.

Acquisitions of office furniture and equipment are charged to operating expenditure in the year of purchase.

Employees are covered by the Public Service Superannuation Plan administered by the Government of Canada. Contributions to the Plan are required from both the employee and the Council. Contributions with respect to current service are expensed in the current period. Contributions with respect to past service benefits are expensed when paid, generally over the remaining service lives of the employees.

Employees are entitled to specified benefits on termination as provided for under labour contracts and conditions of employment. The liability for these benefits is recorded in the accounts as the benefits accrue to the employees.

Estimated amounts for services provided without charge by Government departments and agencies are included in operating expenditure.

3. Parliamentary appropriations

$975,485 (1983—$135,860) lapsed in respect of Science and Technology Votes 25 and 25b and $1 (1983—$1) in respect of Science and Technology Votes 30, 30b and 30c.

4. Refunds of previous years' expenditure

During the year, the Council recovered previous years' expenditure amounting to $227,621 (1983—$485,988) in respect of grants and scholarships no longer required for approved research. These funds were remitted to the Receiver General for Canada and are not reflected in the statement of expenditure.

5. Commitments

As at year end the Council had the following commitments in respect of grants and scholarships which have been approved for payment in future years, subject to the provision of funds by Parliament and final approval by the Council:

	Commitments as at March 31	
	1984	1983
	(in millions of dollars)	
Year of payment		
1983-84		207.6
1984-85	248.7	109.9
1985-86	136.0	51.7
1986-87	53.4	0.9
1987-88	4.0	
1988-89	1.2	
1989-90	1.1	
	444.4	370.1

6. Grants and scholarships administered and disbursed for Government departments, agencies and organizations outside the Government

Grants and scholarships administered and disbursed by the Council on behalf of Government departments, agencies and organizations outside the Government, which are not included in the statement of expenditure, are detailed in Schedule II. Most of these disbursements are made by the Council from lapsing funds entrusted to it by Government departments and agencies.

At March 31, 1984, the Council held in trust for two organizations outside the Government grants and scholarships funds amounting to $218,035 (1983—$185,997).

7. Donation Trust Fund

At March 31, 1984, the Council held funds in trust amounting to $1,050 (1983—$1,050) under Section 39 of the Natural Sciences and Engineering Research Council Act. No donations were received during the year ended March 31, 1984 (1983—$1,050) and there were no expenditures from the fund during the year ended March 31, 1984 (1983—Nil).

NOTES TO FINANCIAL STATEMENT MARCH 31, 1984

1. Authority and objective

The Council was established in 1966 by the Science Council of Canada Act and is a departmental Crown corporation named in Schedule B to the Financial Administration Act.

The objective of the Council is to assess Canada's scientific and technological requirements, to increase public awareness of these requirements and of the interdependence of various groups in society in the development and use of science and technology, and to advise the Government on the best use of science and technology.

2. Accounting policies

Expenditures are recorded on an accrual basis, except for employee termination benefits which are recorded on a cash basis.

Acquisitions of office furniture and equipment are charged to expenditure in the year of purchase.

Employees participate in the Public Service Superannuation Plan administered by the Government of Canada. The employees and the Council contribute equally to the cost of the Plan. Contributions by the Council are charged to expenditure on a current basis.

Estimated amounts for services provided without charge by Government departments are included in operating expenditure.

3. Parliamentary appropriation

$4,572 (1983—$73,079) lapsed in respect of Vote 35.

SECRETARY OF STATE

Department

Objectives

ADMINISTRATION AND REGIONAL OPERATIONS PROGRAM

—To ensure, jointly and individually, with equity, the economical, efficient, effective and accountable realization of the Department's objectives and priorities, in a spirit of service to the public; and to contribute to enhancing Canadians' sense of belonging to the country in each region.

OFFICIAL LANGUAGES PROGRAM

—To provide Canadians with more equitable and equal opportunities to communicate in both official languages, to appreciate Canada's linguistic evolution, and for minority official language groups to be educated and to participate fully in all aspects of Canadian society in their own language; thus contributing to enhancing Canadians' sense of belonging to the country.

EDUCATION SUPPORT PROGRAM

—To support Canada's cultural, social and economic development through federal education policies and programs which contribute to strengthening Canada's post-secondary education system capacity, and which respond to individual aspirations of Canadians and to the needs and opportunities of Canadian society; thus contributing to enhancing Canadians' sense of belonging to the country.

CITIZENSHIP AND CULTURE PROGRAM

—To assist Canadians in achieving more equitable and equal opportunities for social growth, quality of life and fuller involvement in Canadian society; to achieve an improved knowledge, appreciation and enjoyment of Canada and its cultural diversity; to achieve greater awareness and understanding by Canadians of human rights, fundamental freedoms and related responsibilities and to increase respect for and compliance with Canada's domestic and international commitments, thus contributing to enhancing Canadians' sense of belonging to the country.

Advisory Council on the Status of Women

Objective

—To bring before the Government and the public matters of interest and concern to women.

Public Service Commission

Objectives

PROGRAM

—To ensure the efficient and effective staffing of the Public Service in accordance with the Public Service Employment Act in order to meet the needs of the Public Service; also to provide training and development programs and undertake related personnel management functions in line with the agreements on roles and responsibilities between the Public Service Commission and Treasury Board of Canada.

STAFF DEVELOPMENT AND TRAINING REVOLVING FUND

—To provide, in response to departmental and agency demands, development and training courses, and related consultative services.

Status of Women—Office of the Co-ordinator

Objective

—To promote equal opportunities for women in all spheres of Canadian life.

MANAGEMENT REPORT

We have prepared the accompanying financial statements of the Staff Development and Training Revolving Fund as required by and in accordance with the policy of the Treasury Board on revolving funds and the reporting requirements and standards of the Receiver General for Canada. The primary responsibility for the integrity and objectivity of data in these financial statements rests with the management of the Fund.

Except for the accounting for fixed assets which is detailed in Note 2(a), these financial statements are prepared in accordance with the stated accounting policies, on a basis consistent with that of the preceding year. Some of these policies are further explained in the notes which form part of these statements. To fulfill this reporting responsibility, the Fund maintains a set of accounts which provides a centralized record of the Fund's financial transactions. Financial information contained in the departmental statements and elsewhere in the Public Accounts is consistent with the information presented in these financial statements, unless indicated otherwise.

The Financial Services Directorate and the Fund's Comptroller, who reports functionally to the senior full-time financial officer, develop and disseminate financial management and accounting policies, and issue specific directives which maintain standards of accounting and financial management. Systems of financial management and internal control are maintained for the Fund at appropriate cost. Transactions are executed in accordance with prescribed regulations, within parliamentary authorities, and are properly recorded to maintain accountability of Government funds and safeguard the Fund's assets. Financial management and internal control systems are augmented by the activities of internal audit and by on-going monitoring activities by the Fund's Comptroller, financial services officers and by the Financial Services Directorate. The Fund also seeks to assure the objectivity and integrity of data in its financial statements by the careful selection, training and development of qualified staff, by organizational arrangements that provide appropriate divisions of responsibility, and by communication programs aimed at ensuring that its regulations, policies, standards and managerial authorities are understood throughout the organization.

During 1983-84, the Fund was able to respond to Government as well as to voluntary restraint measures by limiting its rate increases to 6%. Further, it has limited its rate increases to 5% for 1984-85 and thereby assists user departments to operate within the Government spending restraints. An annual review will be conducted each year as part of the budgetary process and will allow the Fund to respond to further Government restraint measures.

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1984

1. Authority and purpose

The Staff Development and Training Revolving Fund was established by Vote L120, Appropriation Act No. 3, 1971 for the purpose of providing training and development to the Public Service.

The Fund has a continuing non-lapsing authority under the Adjustment of Accounts Act, S.C. 1980, c. 17, to make payments out of the Consolidated Revenue Fund for working capital and temporary financing of accumulated operating deficits, the total of which is not to exceed $4,500,000 at any time. In accordance with Vote 115a (1980-81) and Vote 35c (1981-82), accumulated deficits of $4,573,071 have been deleted from the accounts. An amount of $1,915,571 representing net liabilities assumed by the Fund was charged to this authority when the Fund became budgetary in 1981.

2. Significant accounting policies and practices

(a) Fixed assets

Fixed assets, valued at $1,648,754 ($1,510,606 in 1982-83) and charged to the appropriation of the Public Service Commission and to the Staff Development and Training Revolving Fund in 1983-84 and previous years, are not capitalized in the accounts of the Fund. The use of the assets purchased by the appropriation is provided without charge to the Fund. Acquisitions of $411,189 in 1983-84 ($55,161 in 1982-83) have been charged directly to operations.

(b) Rates

The fee schedule for the courses and other services did not include any provision for depreciation.

(c) Employee termination benefits

Termination benefits accrue to employees over their years of service with the Government of Canada as provided for under collective agreements. The cost of these benefits is recorded in the accounts as the benefits accrue to the employees.

3. Subsidized operations

Appropriation funds in the amount of $2,900,125 were paid to the Staff Development and Training Revolving Fund during 1983-84. These funds were approved to cover the cost of the ongoing operations which are not cost recoverable. The comparative figure for 1982-83 is $2,810,796.

4. Restatement of prior year figures

A new item, provision for employee termination benefits, has been added to the statement of operations for 1983-84. For comparative purposes, the 1982-83 statement of operations has been amended accordingly. Furthermore, figures appearing on the statement of changes in financial position and on the statement of authority provided for 1982-83 have been amended to include all payments made out of the provision in 1982-83.

In addition, certain other 1982-83 figures on the statement of authority provided have been restated to conform with the 1983-84 presentation.

5. Subsequent event

Commencing April 1, 1984, the Staff Development and Training Revolving Fund, subject to Treasury Board approval, will capitalize fixed assets purchases and will charge depreciation to operations. Fixed assets used by the Fund but purchased from appropriation funds since April 1, 1981 will be acquired during 1984-85 at their depreciated value.

SUPPLY AND SERVICES

Department

Objectives

SERVICES PROGRAM

—To fulfill the responsibilities of the Receiver General, and to provide in an economic and efficient manner a broad range of administrative, management and advisory services as required by the Government and as requested by client departments and agencies.

SUPPLY PROGRAM

PROGRAM

—To encourage research and development in the private sector which contributes to departmental programs and to provide free and subsidized distribution of saleable Government publications in accordance with established policies. To fund certain costs incurred on Government contracts resulting from the use of those contracts to support industrial research or industrial development objectives in Canada.

SUPPLY REVOLVING FUND

—To acquire and provide goods and/or services required by departments and agencies, taking into account the contribution of procurement to the realization of national objectives, and to provide services for the disposal of Crown owned materiel, all in the most economical manner.

DEFENCE PRODUCTION REVOLVING FUND

—To acquire, store, maintain, transport and dispose of stocks of defence supplies or other designated materials pursuant to the Defence Production Act.

Royal Canadian Mint

Objectives

—To produce and arrange for the production and supply of coins of the currency of Canada;

—To produce coins of the currency of countries other than Canada;

—To melt, assay, refine, buy and sell gold, silver and other metals for the account of Canada; and

—To make medals, plaques and other things as are incidental to the powers of the Mint.

Statistics Canada

Objective

—To collect and provide statistical information needed for understanding the Canadian economy and Canadian institutions and for the development of economic and social policies and programs; to collaborate with other departments and agencies of the federal Government, provincial and municipal governments and with businesses and individuals on the development of methodology and its application and on the production of new and expanded statistical information to meet their particular requirements.

Defence Production Revolving Fund

MANAGEMENT REPORT

The accompanying financial statements of the Defence Production Revolving Fund have been prepared by the Supply Administration in accordance with the Treasury Board policies, the Defence Production Act, and reporting requirements and standards of the Receiver General for Canada.

The statements have been prepared on a basis consistent with that of the preceding year and are consistent with information presented elsewhere in the Public Accounts and with departmental reports. Significant accounting policies used in the preparation of the financial statements are included in the notes to financial statements.

The primary responsibility for integrity and objectivity of these statements rests with the Supply Administration. This responsibility is discharged by the Comptroller's Directorate which develops and disseminates financial management and accounting policies and issues specific directives necessary to maintain standards of accounting and financial management. Furthermore, the Supply Administration maintains internal controls designed to indicate accountability, provide assurance that assets are safeguarded and that reliable financial records are kept.

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1984

1. **Purpose and authority**

The Defence Production Revolving Fund has been authorized by Section 15 of the Defence Production Act. It was established in 1951 for the purpose of:

(a) financing the stockpiling of defence supplies or strategic materials;

(b) making loans or advances to aid in defence procurement such as working capital loans as advance payments on contracts but not including loans or advance payments for capital purposes; and

(c) permitting initial payments for defence supplies which can be promptly billed to a Government department, agency or an associated government in advance of delivery of goods.

The Adjustment of Accounts Act (S.C. 1980, c. 17) had the effect of creating a separate Defence Production Loan Account for loans or advances authorized under the Defence Production Act, item (b) above.

The Fund and the Defence Production Loan Account have a continuing non-lapsing authority from the Adjustment of Accounts Act to make payments out of the Consolidated Revenue Fund, the total of which is not to exceed at any time by more than $100 million the aggregate of amounts received on these two accounts. An amount of $15,408,997 representing net assets assumed by the Fund was charged to this authority when the Fund became budgetary in 1981.

2. **Significant accounting policies**

(a) Progress payments to suppliers

Progress payments and accrued liabilities to suppliers for defence supplies requisitioned by Government departments and agencies and/or for stockpiled inventories, which are in progress and located on the suppliers' premises, are recorded as progress payments to suppliers. Under the terms of the contracts, the suppliers are liable to the Fund until delivery takes place.

(b) Progress billings to customers

Billings to customers for defence supplies requisitioned which have not yet been delivered to customers are recorded in the accounts as progress billings to customers.

3. **Long-term receivable**

In accordance with the terms of an agreement, the collection of the long-term receivable is dependent on the recipient's ability to make sales. Should the sales be insufficient to retire the debt, any balance owing will be recovered from the Department of National Defence.

Supply Revolving Fund

MANAGEMENT REPORT

The accompanying financial statements of the Supply Revolving Fund have been prepared by the Supply Administration in accordance with the Treasury Board policies, and reporting requirements and standards of the Receiver General for Canada.

The statements have been prepared on a basis consistent with that of the preceding year and are consistent with information presented elsewhere in the Public Accounts and with departmental reports. Significant accounting policies used in the preparation of the financial statements are included in the notes to financial statements.

The primary responsibility for integrity and objectivity of these statements rests with the Supply Administration. This responsibility is discharged by the Comptroller's Directorate which develops and disseminates financial management and accounting policies and issues specific directives necessary to maintain standards of accounting and financial management. Furthermore, the Supply Administration maintains internal controls designed to indicate accountability, provide assurance that assets are safeguarded and that reliable financial records are kept.

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1984

1. **Purpose and authority**

The objective of the Fund is to acquire and provide goods and/or services required by departments and agencies, taking into account the contribution of procurement to the realization of national objectives, and to provide services for the disposal of Crown owned materiel, all in the most economical manner.

The Supply Revolving Fund was authorized by Supply and Services Vote L6, Appropriation Act No. 1, 1975. Amendments to the appropriation authorized that the operations of the Supply Revolving Fund be combined with the operations of the Printing Revolving Fund effective April 1, 1975, with the Publishing Revolving Fund effective April 1, 1976 and with the Expositions Revolving Fund effective April 1, 1977.

Effective April 1, 1980, Parliament, through the passage of the "Adjustment of Accounts Act", repealed all votes in respect of the accounts of the Supply Revolving Fund. Section 29 of the Act established the Supply Revolving Fund as a budgetary entity with a statutory non-lapsing drawing authority of $150 million. The authorized limit of the Fund was subsequently increased from $150 million to $200 million through the Appropriation Act No. 4, 1981-82.

An amount of $44,171,345 representing net assets assumed by the Fund and assets contributed to the Fund was charged to this authority when the Fund became budgetary in 1981. Accumulated surplus of $3,256,386 and $4,888,134 were transferred to the Fund's authority during 1982-83 and 1983-84 respectively pursuant to standing Treasury Board authority.

2. **Significant accounting policies**

(a) **Revenue and expenses**

Revenue and expenses are recorded on the accrual basis of accounting with the following variations:

(i) The accrual policy for recording certain revenue in the Science and Engineering Procurement Service is based on detailed and validated statistical analysis of the procurement workload. This policy was implemented to avoid expensive record keeping while respecting the need for adherence to the generally accepted accounting principle of matching cost and revenue. Contracts ranging in value from $200,000 to $1,000,000 require 18 months on average to complete and revenue is recorded evenly over 18 months commencing the month the contract is awarded. Contracts with a value in excess of $1,000,000 require 36 months on average to complete and revenue is recorded evenly over 36 months commencing the month the contract is awarded. Certain other large contracts are administered on a project management basis and the actual cost of the project is recorded as revenue in each accounting period over the entire life of the project. Management recognizes that some revenue is earned prior to contract award date but is of the opinion that the accounting principle of matching cost and revenue is not seriously violated since, on average, revenue will be accruing on other contracts that have been completed.

(ii) Employee benefits (termination benefits and vacation pay) accrue to employees over their years of service with the Government of Canada as provided for under collective agreements. The total liability of these benefits is not accrued, however, the actual expenses are recorded in the period in which they are incurred. The unaccrued liability is reflected in Note 8.

(b) **Depreciation**

Depreciation is calculated on a straight-line basis over the established useful life of the fixed assets, generally 5 to 10 years.

3. **Inventories**

	1984	1983
	$	$
Raw materials and finished goods	15,176,214	19,158,202
Work-in-process	2,962,347	1,835,377
	18,138,561	20,993,579

4. **Sales and cost of sales**

For consolidation purposes, sales and cost of sales in the amount of $17,774,310 ($37,428,057 in 1983) have been eliminated.

5. **Insurance**

The Supply Revolving Fund does not carry insurance on either its own property or the property of others held in its warehousing operations. This is in accordance with the Government's policy of self insurance.

6. **Fixed assets and accumulated depreciation**

Depreciation in the amount of $1,093,882 has been included in the cost of sales in the statement of operations.

	12,629,742	2,284,016	613,173	14,300,585

7. **Net investment in EDP equipment leases**

The Treasury Board, on March 2, 1976, authorized the Supply Revolving Fund to purchase designated EDP equipment approved by Treasury Board for client departments. The capital, interest and any other costs are recoverable from departments over a one to five year period under direct financing leasing agreements. Title to the equipment remains with the Supply Revolving Fund. Payments by the client departments for the long-term investment in leases are due—$236,220 in 1985-86 and $92,043 in 1986-87.

Vacation pay	7,348,653	5,523,716
	36,130,500	31,965,944

9. Deferred acquisition contract fees

In accordance with the Department's policy of smoothing revenue for certain types of contracts, as detailed in Note 2(a)(i), the value of deferred acquisition fees as well as the cost of uncompleted contracting work as at March 31, 1984 amounted to $33,949,558 ($29,006,716 in 1983).

10. Prior years' sales tax

The Fund was assessed an amount of $543,784 by Revenue Canada for federal sales tax on in-house manufactured printing. As this amount is applicable to prior years' operations, it has been recorded as an extraordinary item on the statement of operations.

11. Restatement of prior year figures

The 1983 figures have been restated to conform with the 1984 presentation requirements.

Self-supporting Airports and Associated Ground Services Revolving Fund

MANAGEMENT REPORT

We have prepared the accompanying financial statements of the Self-supporting Airports and Associated Ground Services Revolving Fund in accordance with the Treasury Board policy governing revolving funds and the reporting requirements and standards of the Receiver General for Canada. The responsibility for the integrity and objectivity of the data in these financial statements rests with management.

The financial statements are prepared in accordance with the stated accounting policies set out in Note 2, on a basis consistent with that of the preceding year. Some of the information included in these financial statements is based on management's best estimates and judgement, which give due consideration to materiality. To meet the reporting requirements, separate accounts are maintained on a decentralized basis for each of the 23 airports funded by the Revolving Fund, under the functional authority of six Regional Financial Officers and the Director General, Finance, Air, and are submitted to Ottawa Headquarters for review and consolidation.

Those airports in the Fund are subject to the departmental systems of financial management and internal control and such additional policies, practices and procedures as are necessary to facilitate financial reporting for the Revolving Fund, in accordance with the requirements of the Treasury Board and Receiver General for Canada. Transactions are executed in accordance with prescribed regulations, within parliamentary authorities, and are recorded to maintain accountability of Government funds and to safeguard the assets of the Revolving Fund.

Management seeks to assure the objectivity and integrity of data in its financial statements by selection, training and development of qualified staff, by organizational arrangements that provide appropriate divisions of responsibility, and by communications programs aimed at ensuring that its regulations, policies, standards and managerial authorities are understood throughout the organization. In addition, the financial management and internal control systems are augmented by the maintenance of internal audit programs.

The accounting and financial statements of the Fund have evolved over time in conjunction with changing conditions, the evolvement of financial reporting in Canada and, more recently, in response to the reporting requirements of Treasury Board and the Receiver General for Canada.

The 23 airports in the Revolving Fund are operated and maintained in accordance with nationally promulgated policies, standards and procedures, on a cost recoverable basis, so as to provide safe and efficient facilities and services consistent with the protection of the environment. Certain essential services to aviation provided by the Telecommunications and Air Traffic Control Branches of the Canadian Air Transportation Administration are charged to the airports in the Fund; however, the related assets are not included in the accounts of the airports.

As requested by the Deputy Minister of Transport, these financial statements, excluding the statement of authority used and the reconciliation of unused authority, will be examined by the Auditor General of Canada. The Auditor General's role is to express an opinion as to whether the financial statements present fairly the financial position of the Fund and the results of its operations and the changes in its financial position in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1984

1. Authority and purpose

The Airports Revolving Fund was established in 1969 and authorized by Vote L160, Appropriation Act No. 3, 1969, 1968-69, c. 36 for the purpose of financing the operation and development of certain airports. As at March 31, 1979, the Fund included the accounts of the international airports at Dorval, Mirabel, Toronto and Vancouver and the land which was acquired at Pickering, Ontario for the purpose of constructing an airport.

Effective April 1, 1979, Treasury Board approved an expansion of the Fund to include the operations of five additional international airports and fourteen national airports. At that same date, the Department of Transport commenced to recover from the Fund the costs of providing certain essential operating support, including air traffic control and telecommunication and electronic services.

Effective April 1, 1980, Parliament, through the passage of the "Adjustment of Accounts Act", repealed all votes in respect of the accounts of the Airports Revolving Fund. Section 31 of the Act established the Self-supporting Airports and Associated Ground Services Revolving Fund as a budgetary entity with a statutory drawing authority of $80 million. As at the end of the 1983-84 fiscal year, $51 million of this authority remained unused.

If the drawing authority is exhausted either through normal operational requirements or by settlements of pending and threatened litigations (Note 7), Parliamentary action may be required to provide additional spending authority.

Effective March 31, 1981, the land which was acquired at Pickering, Ontario for the purpose of constructing an airport was transferred to the Department of Transport.

The balance in the accumulated net charge against the Fund's authority account at the end of the year represents the net accumulation of all cash transactions made through the Consolidated Revenue Fund and is shown as part of the Equity of Canada.

The Consolidated Revenue Fund is the central account through which all Government receipts and disbursements flow. All cash transactions of the Fund are therefore made through the Consolidated Revenue Fund. By virtue of the Fund's mandate, it receives credit for all revenues generated and is empowered to draw funds under statutory authority from the Consolidated Revenue Fund for any revenue shortfalls.

A draw down on the Fund's authority occurs when accumulated cash disbursements exceed accumulated cash receipts (credit balance) and bears interest at a rate determined by the Minister of Finance. An accumulated excess of cash receipts over cash disbursements (debit balance) represents an addition to the drawing authority of the Fund.

2. Significant accounting policies

(a) Inventory

Inventory of materials and supplies, maintained for repair and maintenance purposes at the airports, is carried at the lower of cost or replacement value.

(b) Fixed assets

Fixed assets purchased by the Fund are recorded at cost. Fixed assets transferred to the Fund prior to April 1, 1979 are recorded at appraisal values as established by the Department of Transport in accordance with Treasury Board Circular 1970-7 of January 8, 1970. Fixed assets transferred to the Fund as at April 1, 1979 in connection with the addition of nineteen airports (Note 1) are recorded at their depreciated value at that date. Subsequently, all transfers of fixed assets to or from Canada are recorded at net book value at the date of transfer.

Project administration costs, including interest incurred during the construction of new airports, are capitalized and included in airport development costs to the extent that these costs are not readily identifiable with specific fixed assets. Additions, renewals and betterments which extend the economic lives of the assets are capitalized. Maintenance and repairs are charged to operations.

(c) Depreciation

Depreciation is charged on a straight-line method based on the estimated useful life of the asset.

The depreciation rates used within the major classes of assets are as follows:

Terminals and facilities	2.5% to 5.0%	
Waiting room furniture and fixtures	20.0%	
Runways and other paved surfaces	3.3% to 5.5%	
Machinery	3.3% to 5.0%	
Equipment		
Static	5.0% to 9.0%	
Mobile	6.0% to 18.0%	
Amortization of airport development costs (excluding interest)	10.0%	
Amortization of capitalized interest	4.2%	(the average rate of depreciation of the assets)

(d) Contributed capital

Amounts representing working capital advances, the values assigned to assets transferred to the Fund and deletion of loans from Canada, and reimbursement by Canada for projects undertaken under the Special Recovery Capital Projects Program are shown as contributed capital.

The values of assets transferred between the Fund and Canada are shown as additions or reductions to contributed capital.

(e) Air transportation tax

Air transportation tax is levied and collected under the Excise Tax Act, Part II by the Minister of National Revenue. By authority of Appropriation Acts, tax received during the year is remitted to the Department of Transport and the applicable amount is credited to the Fund.

(f) Headquarters and regional overhead

Headquarters and regional overhead reflects the charges by the Canadian Air Transportation Administration for providing technical and administrative services to the Fund. Since expenditures are not readily identifiable with specific services, these charges are a percentage of direct operating and maintenance expenses of the Fund.

Appendix 1—*Concluded*

Self-supporting Airports and Associated Ground Services Revolving Fund—*Concluded*

(g) Grants in lieu of taxes

Grants in lieu of taxes, imposed on airports of the Fund, are accrued based on estimated municipal assessments adjusted in accordance with the Municipal Grants Act. Grants are paid by the Department of Public Works and recovered from the Fund.

The grants are not finalized until they have been audited by the Department of Public Works, often several years in arrears. Any normal adjustments upon finalization are reflected in the accounts in the year of settlement.

(h) Pension plan

Employees of the Canadian Air Transportation Administration operating the airports of the Fund are covered by the Public Service Superannuation Act and the Supplementary Retirement Benefits Act. The Government of Canada's portion of the pension cost is included in the employee fringe benefit charge assessed against the Fund. The actual payment of the pension is made from the Public Service Superannuation Account and the Supplementary Retirement Benefits Account.

(i) Employee termination benefits

Termination benefits accrue to employees of the Canadian Air Transportation Administration operating airports of the Fund. Payment of these benefits is made to employees on separation or retirement. The cost of these benefits is expensed in the year in which they are earned.

4. Payment of provincial sales taxes

The Department of Finance makes certain payments on behalf of the Fund to participating provinces in lieu of the payment of sales taxes. These payments, estimated at $3.1 million in 1983-84 (1982-83—$1.8 million), are currently not recovered from the Fund and no provision has been made in the accounts for these payments.

5. Related party transactions

The Department of Transport officials who have the authority and responsibility for planning, directing and controlling the activities of the Air Transportation Program are responsible for the operations of the Fund.

Airports of the Fund provide certain accommodation facilities without charge to the Department of Transport, Air Transportation Program. These accommodation facilities are used to provide hangers to service Government owned aircraft, to perform air safety and other related tests and to provide certain essential operating support services. An estimate of the cost of these facilities has not been determined at this time.

6. Contractual obligations

As at March 31, 1984, the Fund was committed to expenditures totalling approximately $28 million under fixed asset construction and maintenance contracts.

7. Contingent liabilities

The Department of Transport is a defendant in certain pending and threatened litigations related to the operations of the Fund. The aggregate amount of claims in respect thereof as at March 31, 1984 is approximately $135 million. These claims include a legal suit filed in the Federal Court of Canada by a group of major international air carriers challenging the legality of the Air Services Fees Regulations related to the transoceanic landing fee levied under Section 5 of the Aeronautics Act. They have claimed reimbursement of all transoceanic landing fees paid since 1974. The action is expected to be heard in 1985.

Stores Revolving Fund

MANAGEMENT REPORT

We have prepared the accompanying financial statements of the Transport Canada Stores Revolving Fund as authorized by Treasury Board and in accordance with the reporting requirements and standards of the Receiver General for Canada. The primary responsibility for the integrity and objectivity of data in these financial statements rests with the management of the Fund.

These financial statements were prepared in accordance with the stated accounting policy, as set out in Note 2, on a basis consistent with that of the preceding year. Some of the information included in these financial statements is based on management's best estimates and judgements and gives due consideration to materiality. To fulfill this reporting responsibility, the Fund maintains a set of accounts which provides a centralized record of the Fund's financial transactions. Financial information contained in the departmental statements and elsewhere in the Public Accounts is consistent with that in these financial statements, unless indicated otherwise.

The operation of the Transport Canada Stores Revolving Fund is primarily designed to provide for the acquisition of recurring requirements of material and insurance spares in support of the operations of the Air, Marine, Surface and Departmental (Headquarters) Administrations across Canada. The cost of operating, administering and controlling the supply activities associated with the Fund is shared jointly by the operating Administrations and Headquarters corporate management under the direct guidance of the Director, Materiel and Contracting Services and the Assistant Deputy Minister, Finance.

The Assistant Deputy Minister, Finance develops and disseminates financial management and accounting policies, and issues specific directives which maintain standards of accounting and financial management. Transactions are executed in accordance with prescribed regulations, within parliamentary authorities, and are properly recorded to maintain accountability of Government funds and safeguard the Fund's assets. Financial management and internal control systems are augmented by the maintenance of internal audit programs and contacts are maintained between staffs responsible for the operation of the Revolving Fund and of the Auditor General's Office.

The Fund also seeks to assure the objectivity and integrity of data in its financial statements by the careful selection, training and development of qualified staff, by organizational arrangements that provide appropriate divisions of responsibility, and by communications programs aimed at ensuring that its regulations, policies, standards and managerial authorities are understood throughout the organization.

The Fund's authority has been augmented to $43,700,000 by Appropriation Act No. 4, 1983-84 in anticipation of increased activities in the operating Administrations.

NOTES TO FINANCIAL STATEMENTS MARCH 31, 1984

1. **Authority and purpose**

The Stores Revolving Fund was authorized by the Adjustment of Accounts Act, S.C. 1980, c. 17, with an authorized working capital limit of $30,000,000, which was increased to $35,700,000 by Appropriation Act No. 4, 1981-82 and to $43,700,000 by Appropriation Act No. 4, 1983-84. An amount of $25,489,058, representing the net assets of the "Stores Working Capital Advance", was assumed by the Fund and charged against the authority when the Fund became budgetary in 1981.

The objective of the Fund is to establish an effective central control and accountability over the purchasing, stocking and issuing of expendable items, controllable items and initial sparing for depot stocks required by the Department.

2. **Significant accounting policy**

Sales prices

Selling prices to consumers are on the basis of acquisition costs.

3. **Restatement of prior year figures**

The 1982-83 figures, which were prepared on a cash basis, have been changed to an accrual basis of accounting.

SECTION 30

1983-84
PUBLIC ACCOUNTS

Accounts Receivable and Deletions

CONTENTS

Statement of accounts receivable	30.2
Notes to statement of accounts receivable	30.5
Deletions from accounts receivable during 1983-84	30.7

The Government generally reports revenue in the year in which it is received. Therefore, amounts for accounts receivable are not accrued on the Statement of Assets and Liabilities.

Accounts receivable represent financial claims not recorded in the accounts of Canada or reported on the Statement of Assets and Liabilities. They result from revenue due but not collected, expenditure overpayments, goods delivered or services rendered by the Government prior to the accounting date, and interest capitalized, deferred, due and accrued.
